Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

(1) Plan Description

The following description of the Werner Enterprises, Inc. and Subsidiaries (the Company) Employees' 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established on January 1, 1990 covering substantially all employees of the Company who have six months of continuous service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by The Werner Enterprises, Inc. 401(k) Employees' Savings Plan Committee. The Committee is currently made up of the following Company employees: General Counsel, Chief Financial Officer, Associate Vice President of Human Resources, and two employees who are 401(k) plan participants. The Committee has overall responsibility for the operation and the administration of the Plan. The Committee, with the assistance of the Plan's retirement plan consulting firm, determines the appropriateness of the Plan's investment offerings and monitors investment performance.

(b) Contributions

Participants are allowed to contribute from 1% to 50% of their gross pay (including bonuses and/or overtime) to the Plan subject to the specific dollar limits determined annually by the Internal Revenue Service (IRS). Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans, 403(b) tax-sheltered annuities, 457 governmental plans, and from eligible IRA accounts. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. Contribution percentages can be changed by the participant at any time. Participants direct the investment of their contributions (and the Company matching and discretionary contributions) into various investment options offered by the Plan. The Company makes matching contributions equal to a uniform percentage of each participant's salary deferral. The Company match is one-half of the first 3% of gross pay contributed by the participant. The Company may make an additional discretionary matching contribution to active participants in the Plan. The Company did not make an additional discretionary contribution for the years ended December 31, 2013 and December 31, 2012, respectively. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

(c) Participant Investment Account Options

Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers a fund or funds in each of the following categories: Stable Value, Intermediate Term Bond, Large Cap Value, Large Cap Core, Large Cap Growth, Mid-Cap Value, Mid-Cap Growth, Multi-Cap Value, Small Cap Value, Small Cap Growth, International/Global Large Core, and Asset Allocation/Lifestyle.

Effective October 1, 2012, the Vanguard Wellington Balanced Fund was added to the Plan replacing the Franklin Templeton Moderate Allocation Fund which was discontinued from the Plan. Effective August 30, 2013, the Vanguard Mid Cap Value Index and PIMCO Total Return Fund were added to the Plan replacing Perkins Mid Cap Value and Select PIMCO Total Return which were discontinued from the Plan.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants vest immediately in their contributions plus actual earnings thereon. Company matching contributions vest 20% after two years of credited service, 40% after three years of credited service, 67% after four years of credited service, and 100% after five years of credited service. Company discretionary matching contributions vest on the same schedule as the regular matching contribution. Credited service is defined as at least 1,000 hours of service in the plan year. Benefits also fully vest when participants reach normal retirement age, die, or become disabled.

(f) Notes receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with the prevailing interest rate at the date of the loan (1% over the prime rate). Principal and interest are paid ratably through payroll deductions. Massachusetts Mutual Life Insurance Company (Mass Mutual) deducts a fixed fee for each loan processed.

(g) Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments over a period of not more than the participant's assumed life expectancy. Upon termination of service for any other reason, a participant must complete a termination form and will then receive a lump-sum distribution (direct to individual) or rollover of his or her vested account balance, net of a processing fee assessed by the investment manager, Mass Mutual. If a terminated participant's account balance is over \$5,000, the participant may elect to keep his or her funds in the Plan. Terminated participants with a vested account balance of more than \$1,000 but less than \$5,000 shall have his or her vested account balance rolled over to an Individual Retirement Account (IRA) if he or she fails to make a distribution election. The Company selected OppenheimerFunds Distributor, Inc. to be the trustee/issuer of these IRAs. In-service withdrawals are allowed for participants who have either reached 59-1/2 years of age or have a qualifying financial hardship.

(h) Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled approximately \$84,581 and \$60,600, respectively. These accounts will be used to reduce future employer contributions. Employer contributions were reduced by \$159,734 and \$105,835 in 2013 and 2012, respectively, from forfeited nonvested accounts.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The Plan's financial statements are prepared on the accrual basis of accounting.

Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

(b) *Use of Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

(d) *Notes Receivable from Participants*

Notes receivable from participants are measured at their unpaid principal balance, plus accrued and unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

(e) *Unit Values*

Individual participant accounts for the separate investment accounts and the group annuity contract are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

(f) *Payment of Benefits*

Benefits are recorded when paid.

Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

(g) Administrative Expenses

The Plan incurs fund management fees for each investment fund option. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

(h) Reclassification

Certain items from the 2012 financial statements have been reclassified to conform to the 2013 presentation.

(3) Investments

The following are investments that represent 5% or more of the Plan's net assets for the years ended December 31, 2013 and 2012:

Group Annuity Contract Fixed Fund (SAGIC)	\$ 41,950,603	\$ 45,771,931

The Plan's investments appreciated in fair value for the years ended December 31, 2013 and 2012 as follows:

	<u>2013</u>	<u>2012</u>
Separate investment accounts	\$ 12,005,504	\$ 5,786,013
Mutual funds	8,709,739	3,051,356
	<u>\$ 20,715,243</u>	<u>\$ 8,837,369</u>

(4) Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from the trustee of the Plan that all of the information provided by the trustee is complete and accurate. Information included in the accompanying financial statements as to investments, notes receivable from participants, interest income, and net appreciation in fair value of investments, interest income on notes receivable from participants, and all information in the supplemental schedule is presented in reliance solely upon those certifications.

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The trustee has certified the following as of and for the years ended December 31, 2013 and 2012:

Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

	<u>2013</u>	<u>2012</u>
Investments, at fair value	\$ 134,238,169	\$ 115,996,366
Notes receivable from Participants	4,400,212	4,146,784

Net appreciation in fair value of investments	20,715,243	8,837,369
Interest income on notes receivable from Participants	182,857	193,154

(5) Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds and Separate investment accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Group annuity contract: Valued at contract value as provided by the trustee. The contract contains an allocated and an unallocated portion. The allocated portion is invested in a core bond fund separate investment account. The fair value is measured based on the fair values of the underlying assets which consist primarily of publicly quoted corporate and treasury bonds. See Note 6.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013.

(6) Group Annuity Contract with Insurance Company

The Plan has entered into a benefit-responsive investment account with Mass Mutual. Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3%. Such interest rates are reviewed on a semi-annual basis for resetting.

Because the group annuity contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the face of the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at Contract value.

Information on the fully benefit-responsive investment contract held by the Plan is as follows:

	<u>Years Ended December 31,</u>	
	<u>2013</u>	<u>2012</u>
Fair value (including unallocated balance)	\$42,035,184	\$45,839,136
Average yield	3.41%	4.53%
Crediting interest rate	3.41%	4.35%

Certain events may limit the ability of the Plan to transact at Contract Value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs; (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction under ERISA. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

The group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(7) Party-in-Interest Transactions

Certain plan investments are shares of mutual funds, separate investment accounts and a group annuity contract managed by Mass Mutual. Mass Mutual is the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment. As described in Note (2)(h), the Plan made direct payments to the third party administrator of \$48,090 and \$42,008 for the years ended December 31, 2013 and 2012, respectively, which was not covered by revenue sharing.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

(9) Excess Contributions Payable

During 2013, employee deferrals, matching contributions and applicable earnings thereon exceeded the Plan's allowable amounts. Accordingly, the Plan is required to refund amounts to certain highly compensated participants, as defined, to bring the Plan's average deferral and matching contribution percentage in compliance with Plan provisions. As a result, the Plan made corrective distributions in March 2014 of \$150,585, which were payable as of December 31, 2013. Corrective distributions for the year ended December 31, 2012 of \$238,875 were paid subsequently in March 2013.

(10) Reconciliation of Financial Statements to the Form 5500

(11) Tax Status

The IRS has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed the trustee of such in a letter dated May 11, 2009. Although the Plan has been amended since receiving the opinion letter, the plan administrator has adopted the prototype plan and believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

Werner Enterprises, Inc. and Subsidiaries
Employees' 401(k) Retirement Savings Plan
Notes to Financial Statements

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(12) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

(13) Voluntary Compliance Program

In August 2011, the Company filed an application under the IRS's Voluntary Compliance Program to correct an operational error that occurred in the Plan. On January 11, 2013, the Company received a reply from the Internal Revenue Service's Voluntary Correction Program stating that the correction method and the revision of the administrative procedures are acceptable. The error that was the subject of the application was due to not properly determining the years of service for purposes of vesting, thus affecting underpayments to certain participants, overpayments to certain participants, and loans to certain participants in excess of the Plan's loan limits for the time period January 1, 2008 through June 30, 2010. For the 254 participants who were underpaid from the Plan, the Company made corrections by allocating to each affected participant the underpayment amount, plus earnings. The affected participants were notified. For the participants who received overpayments, the plan sponsor informed them that the overpayment should be refunded to the Plan and that the overpayment is not eligible for favorable tax treatment. The total amount of the correction resulted in \$47,677 being allocated to participant accounts. The Plan's recordkeeper made the necessary corrective changes to their vesting calculation system.

(14) Subsequent Events

The Company has evaluated subsequent events through July 30, 2014, which is the date the financial statements were available to be issued.
