INDEPENDENT AUDITORS' REPORT

To the Trustee and Participants of
Pentair, Inc. Pension Plan
Golden Valley, Minnesota

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pentair, Inc. Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certifications from the trustee as of December 31, 2013 and 2012, and for the years then ended, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PENTAIR, INC. PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN

The following description of the Pentair, Inc. Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General - The Plan is a defined benefit, single employer pension plan. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Pentair, Inc. (the "Company") is responsible for administering the Plan. Four officers of the Company have been appointed to the Investment Committee of the Plan and the Pentair, Inc. Master Trust (the "Master Trust"). This committee has delegated certain investment authority to investment managers under contractual arrangements, consisting primarily of latitude in the selection of underlying investments within approved asset categories.

On September 28, 2012, Tyco International Ltd. ("TIL"), the parent of Tyco International Management Company, LLC ("TIMCO LLC") merged its flow control business with the Company in a tax-free, all-stock merger immediately following TIL's spin-off of its flow control business, with the Company surviving the merger as a wholly owned indirect subsidiary of Tyco Flow Control International Ltd. ("Flow Control") and Flow Control renamed as Pentair Ltd. (herein, the "Merger").

In connection with the Merger, the Company acquired the Penberthy Pension Plan, the IMI Cash Valve Inc. Pension Plan and the IMI Cash Valve Inc. (Union) Pension Plan (collectively, the "Flow Plans"). On December 31, 2012, the Flow Plans merged with and into the Plan, with the effect that the plans shall constitute a single plan within the meaning of the applicable section of the Internal Revenue Code ("IRC") effective from and after the date of the merger. On December 31, 2012, the Master Trust allocated \$7,808,749 to the Plan, \$7,364,918 representing the value of the Flow Plans assets received as of December 31, 2012 invested in the Master Trust and \$443,831 representing assets of the Flow Plans to be transferred for which payment had not yet been received as of December 31, 2012 from the trustee of the Flow Plans. During 2013, \$61,358 was transferred out of the Plan as a result of the finalization of amounts owed to Flow Plan participants prior to the Merger.

On December 31, 2013, the Sta-Rite Industries Employees' Retirement Plan (the "Sta-Rite Plan") merged with and into the Plan, with the effect that the plans shall constitute a single plan within the meaning of the applicable section of the IRC effective from and after the date of the merger. On December 31, 2013, the Sta-Rite Plan's investment in the Pentair, Inc. Master Trust of \$71,674,918 was merged into the Plan.

In December 2012, the Company took several actions to reduce the risk and volatility of the Plan, including the following:

- Distributed lump sum payments of \$32,595,323 to certain deferred vested participants of the Plan that chose to elect an early payout.
- Made a special contribution of \$138,000,000 to fund the Plan.
- The Master Trust purchased an irrevocable annuity contract from Metropolitan Life Insurance Company ("MetLife") to settle obligations to Plan participants in retiree status (see Note 7).

During 2013, the Company offered deferred vested participants not previously offered the early payout option in December 2012 the opportunity to elect an early payout, resulting in lump sum payments of \$6,121,716.

Funding Policy - Contributions to provide benefits under the Plan are made solely by the Company. The Company's general funding policy is to contribute to the minimum required by ERISA. However, the Company occasionally makes contributions greater than the minimum, but not exceeding the maximum deductible for federal income tax purposes, when the Company's cash flow permits. The Plan has met minimum funding standards for 2013 and 2012.

Curtailment - In December 2007, the Company announced the curtailment of this Plan as of December 31, 2017. The curtailment closed the Plan to new participants effective January 1, 2008, and the benefits will cease to accrue for all participants as of December 31, 2017.

Separate Benefit Formulas - The Plan has separate ongoing benefit formulas. While each benefit formula (and related rules) is described in a separate document, all Plan assets are available to pay benefits under any of the formulas. The Company and its participating subsidiaries determine which benefit formula covers eligible employee groups.

For each benefit formula, no employee may become a participant who is a member of a collective bargaining unit for which retirement benefits have been the subject of good faith bargaining, who is a nonresident alien and receives no U.S.-sourced income from the Company or its participating subsidiaries, or who is eligible to participate in any other qualified defined benefit pension plan maintained by the Company or its subsidiaries.

Traditional Defined Benefit Formula:

Participation and Vesting - Generally, regular nonbargaining employees of the Company and its participating subsidiaries to whom this formula has been extended are eligible to become participants in the Plan following completion of a year of eligible service and attainment of age 21. A year of vesting service is credited upon the completion of 1,000 hours in a calendar year and after the attainment of age 18. Vesting is based on a seven-year-graded scale, being fully vested after seven years.

A participant is fully vested in his or her accrued benefit under the Plan, regardless of the years of vesting service completed, in the event of termination of employment on or after normal retirement age (age 65).

Plan Benefits - The normal retirement benefit (i.e., the benefit payable at age 65, expressed as a straight-life annuity) under the Plan is 1% of a participant's final average annual compensation up to the social security covered compensation base, plus 1.5% of a participant's final average annual compensation in excess of such base, multiplied times the participant's years of benefit service (capped at 35 years).

Participants who have attained age 55 and completed 10 or more years of benefit service are eligible to receive an early retirement benefit equal to the normal retirement benefit multiplied by the applicable early retirement reduction factor. For each month in which the early retirement date precedes the normal retirement date, the early retirement reduction factor is 1/6 of 1% per month for the first 36 months, 4/10 of 1% per month for the next 36 months, and 1/2 of 1% per month for the next 48 months.

The surviving spouse of a vested participant who has died prior to retirement is entitled to a preretirement death benefit, provided the surviving spouse and deceased participant were married for at least one year as of the date of death.

Pension Equity Formula:

Participation and Vesting - Generally, regular nonbargaining employees of participating subsidiaries to whom this formula has been extended are eligible to become a participant in the Plan following completion of a year of eligibility service and attainment of age 18.

The pension equity plan has a three-year cliff vesting schedule for those that leave prior to reaching age 65, with no benefit if less than three years of service. A participant is fully vested in his or her accrued benefit under the Plan, regardless of the years of vesting service completed, in the event of termination of employment on or after normal retirement age (usually age 65).

Plan Benefits - Participants earn a percentage of final average pay for each year of service. The percentage varies by age, from 2.5% to 12%. At termination, participants can waive the annuity form of payment and elect a lump sum.

A death benefit is paid in an annuity or lump sum to the participant's surviving spouse or in lump sum to the designated beneficiary.

Priorities Upon Termination of the Plan - Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the Plan provides for the allocation of available assets to pay benefits in the following order (with proration within groups):

- a. Return of employee contributions, if any, then
- b. Certain benefits payable three years prior to termination, then
- c. Benefits that are guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") to certain limitations prescribed by ERISA, then

- d. All other uninsured, vested benefits, then
- e. All other benefits accrued to date of termination, then
- f. The remainder, if any, reverts to the employer in accordance with Section 4044(d) of ERISA.

Benefits to be provided via contracts under which MetLife is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

The Plan funds are invested in the Master Trust held by The Bank of New York Mellon (the "Trustee") and unallocated insurance contracts held in custody of John Hancock Mutual Life Insurance Company and Aetna Insurance Company.

Investments in the Master Trust are presented at estimated fair value. If available, quoted market prices are used to value investments. Quoted prices are based on the last reported sale price on the last business day of the year. In instances wherein quoted market prices are not available, securities and other alternative investments are stated at estimated fair value as determined by the custodian of those investments. Investments in partnerships and joint ventures are determined by investment group managers based on the estimated value of the various holdings in the partnership and joint venture portfolio. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation in the fair value of investments, which is included within Net investment income (loss) from Pentair, Inc. Master Trust on the Statements of Changes in Net Assets Available for Benefits, includes gains and losses in investments sold during the year as well as appreciation and depreciation of the investments held at year end.

Unallocated insurance contracts are included in the financial statements at fair value, which approximates contract value. The contracts have a fair value \$1,770,816 and \$2,230,595 at December 31, 2013 and 2012, respectively. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The Plan utilizes various investment securities, including U.S. treasuries, corporate debt instruments, mutual funds, mortgage-backed securities, corporate stocks and other investments. Investment securities, in general, are exposed to various risks, such as interest rate, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Administrative expenses, such as actuarial and auditing fees, and charges and expenses incurred in connection with the acquisition or disposition of the Plan's assets, such as custodial fees, investment management fees and brokerage commissions, are paid by the Plan or from the Master Trust assets.

Benefit payments to participants are recorded upon distribution.

The financial statements also reflect accounting guidance related to fair value measurements which establishes a single authoritative definition of fair value, sets a framework for measuring fair value, and requires additional disclosures about fair value measurements (see Note 6).

Subsequent Events - For the year ended December 31, 2013, subsequent events were evaluated through August 28, 2014, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2013 and 2012, and for the years then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by the Trustee of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that the following investment information is complete and accurate.

	<u>2013</u>	<u>2012</u>
Statements of net assets available for benefits:		
Plan interest in Pentair, Inc. Master Trust	\$ 267,353,681	\$ 236,337,221
Unallocated insurance contracts (at fair value)	1,770,816	2,230,595
	<u>2013</u>	<u>2012</u>
Statements of changes in net assets available for benefits:		
Net investment (loss) income from Pentair, Inc. Master Trust	\$ (32,095,646)	\$ 30,363,931
Interest income from insurance contracts	81,131	109,389

All investment balances included in Note 4 and 6, excluding the fair value leveling of the Master Trust's investments.

4. MASTER TRUST

The Company has established the Master Trust with the Trustee for three pension plans. The purpose of this combination is to pool investment transactions and achieve uniform rates of return on comparable funds under all plans. The plans have deposited funds in the Master Trust, and each owns an undivided interest in net assets of the Master Trust based on its equity in the Master Trust.

With the merger of the Sta-Rite Plan with and into the Plan effective December 31, 2013, the Master Trust is in place for two pension plans.

Under the terms of the trust agreements, the Trustee manages trust funds on behalf of the Plan. In accordance with the trust agreements, certain assets of the Plan are held together with assets of other plans in the Master Trust sponsored by the Company and its subsidiaries.

The allocation of trust funds and investment income (loss) among the participating pension plans in the Master Trust is determined on a unit value basis, as determined by the Trustee. The allocation of funds at December 31, 2013 and 2012, were as follows:

	2013		2012	
	Amount	Percentage Ownership	Amount	Percentage Ownership
Pentair, Inc. Pension Plan	\$ 267,353,681	94.9%	\$ 236,337,221	73.6%
Pentair Pump Group, Inc. Bargaining Unit Employee Pension Plan	14,378,096	5.1%	15,377,601	4.8%
Sta-Rite Industries Employees' Retirement Plan	—	—%	69,285,321	21.6%

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial computations as of January 1, 2013 and 2012, were as follows:

Investment return	3.75% for 2013 and 7.5% for 2012, compounded annually for funding purposes, and the present value of accumulated plan benefits for 2013 and 2012
Discount rate	3.75% for 2013 and 5.05% for 2012
Mortality	RP 2000 Mortality Table with generational mortality, improvement scale BB for 2013 and RP Mortality Table with a fixed 15-year projection, set forward 10 years for disabled for funding purposes for 2012
Retirement age	Earlier of 62 with 10 years of service or age 65 for active; age 62 for vested and disabled employees for 2013 and 2012
Actuarial method	Unit credit for 2013 and 2012

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2013 and 2012, were as follows:

	<u>2013</u>	<u>2012</u>
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	\$ 1,506,876	\$ 139,933,777
Other participants	212,547,121	137,790,113
Total vested benefits	<u>214,053,997</u>	<u>277,723,890</u>
Nonvested benefits	1,602,865	1,111,870
Total actuarial present value of accumulated plan benefits	<u><u>\$ 215,656,862</u></u>	<u><u>\$ 278,835,760</u></u>

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended January 1, 2013 and 2012, are as follows:

Actuarial present value of accumulated plan benefits - January 1, 2011	<u>\$ 256,979,661</u>

Benefits paid (including benefits paid through annuity purchased)	(265,426,422)
Interest due to the decrease in discount period	19,886,199
Change in actuarial assumptions	96,426,747
Impact of Flow Plans merger	2,915,060
Net decrease	<u>(63,178,898)</u>
Actuarial present value of accumulated plan benefits - January 1, 2013	<u><u>\$ 215,656,862</u></u>

6. FAIR VALUE MEASUREMENTS

The Plan's estimates of fair value for financial assets are based on the framework established in the fair value accounting guidance. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Certain investments are measured at fair value on a recurring basis in the statements of net assets available for benefits. The following methods and assumptions were used to estimate the fair values:

Cash Equivalents - Consist of investment in commingled funds valued based on observable market data. Such investments are classified as Level 2.

Fixed Income - Investments in corporate bonds, government securities, mortgages and asset backed securities are valued based upon quoted market prices for identical or similar securities and other observable market data. Investments in commingled funds are generally valued at the net asset value ("NAV") of units held at the end of the period based upon the value of the underlying investments as determined by quoted market prices or by a pricing service. Such investments are classified as Level 2.

Global Equity Securities - Investments in commingled funds are valued at the NAV of units held at the end of the period based upon the value of the underlying investments as determined by quoted market prices or by a pricing service. Such investments are classified as Level 2.

Other Investments - Other investments include investments in commingled funds with diversified investment strategies. Investments in commingled funds that are valued at the NAV of units held at the end of the period based upon the value of the underlying investments as determined by quoted market prices or by a pricing service are classified as Level 2. Investments in commingled funds that are valued based on unobservable inputs due to liquidation restrictions are classified as Level 3.

The following table sets forth by level within the fair value hierarchy a summary of the investments of the Master Trust at fair value as of December 31, 2013:

Transfers Between Levels - The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate transfers between levels for each investment held in the Plan. For the years ended December 31, 2013 and 2012, there were no transfers between levels.

7. CONTRACT WITH INSURANCE COMPANY

On December 26, 2012, the Master Trust purchased an irrevocable annuity contract in the form of cash and securities from MetLife, the insurance carrier selected by the Investment Committee. Under the terms of the annuity contract, MetLife is obligated to pay benefits to named employees or their beneficiaries that were in payment status as of December 1, 2012.

The allocation of the annuity contract purchased among the participating pension plans in the Master Trust was as follows:

	<u>Amount</u>
Pentair, Inc. Pension Plan	\$ 213,267,190
Pentair Pump Group, Inc. Bargaining Unit Employee Pension Plan	13,043,070
Sta-Rite Industries Employees' Retirement Plan	58,189,740
Total annuity contract purchased	<u>\$ 284,500,000</u>

In November 2013, final data approval of the employees or beneficiaries covered under the annuity contract occurred. As a result, the Master Trust received a refund of \$2,085,917 from MetLife on December 27, 2013.

The allocation of the refund received from Metlife among the participating pension plans in the Master Trust was as follows:

	<u>Amount</u>
Pentair, Inc. Pension Plan	\$ 1,204,491
Pentair Pump Group, Inc. Bargaining Unit Employee Pension Plan	272,463
Sta-Rite Industries Employees' Retirement Plan	608,963
Total annuity contract refunded	<u>\$ 2,085,917</u>

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 3, 2010, that the Plan was designed in accordance with applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. However, the Company and Plan management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more than likely would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of mutual funds managed by The Bank of New York Mellon. The Bank of New York Mellon is the trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Master Trust for the investment management services were \$149,342 and \$136,316 for the years ended December 31, 2013 and 2012, respectively.

During the year ended December 31, 2012, the Master Trust recorded dividend income of \$330,000 from Pentair plc (formerly Pentair Ltd.) common stock. On November 29, 2012, the Master Trust sold all 500,000 shares of Pentair plc common stock to Pentair plc at a price of \$48.92 per share, resulting in proceeds of \$24,460,000 and a realized gain of \$6,205,000.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- Participants included: The plan sponsor and Towers Watson provide us with participant data as of the valuation date.
- Participants excluded: No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- Insurance contracts: The plan does have some insurance contracts. These benefits and the associated insurance contracts are fully excluded from this valuation.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions**Actuarial Assumption Changes Since Prior Valuation*****Funding***

- The inflation rate was changed from 3.00% to 2.75%.
- The expected investment return on assets was changed from 7.0% to 3.75%.
- The withdrawal assumption for the 3 legacy Flow Control plans was changed to the Pentair plan's withdrawal assumption.
- The percentage married assumption and spouse age difference assumption for the 3 legacy Flow Control plans (i.e., 85% male married, 75% female married and 3 year spouse age difference) was changed to the Pentair plan's assumptions (75% married for both male and female and 2 yr spouse age difference).
- The form of payment for 2 legacy Flow Control plans (i.e., IMI and IMI Union) was updated to the Pentair plan's non-PEP form of payment assumptions (i.e., SLA (50%), 50% J&S (25%), 100% J&S (25%) from the following assumptions:
 - Legacy IMI: SLA (50%), 66.67% J&S (50%)
 - Legacy IMI Union: SLA (60%), 75% J&S (40%)

Schedule SB, line 25 — Change in Method

Method Changes since Prior Valuation

Funding

For the 3 legacy Flow Control plans, beginning with the 2013 valuation, the yield curve used to determine the target liability and target normal cost was changed from the segment yield curve with no look-back to the segment yield curve with a 4-month look-back. Under Code section 430, this change in method was subject to automatic IRS approval.

Normal retirement (continued)

- DeVilbiss Air Power Company Provisions

Participants hired prior to September 3, 1999 will receive the accrued benefit converted to a cash balance as of September 2, 1999. This benefit will be increased by (a) and (b):

Participants hired after September 2, 1999 have an account established and maintained with credits as detailed in (a) and (b):

- (a) Each participant's account is credited with a pay-based credit each month as follows:

Prior to Fifteen Years of Service

Five percent (5%) of compensation earned in each plan year month.

Service After Fifteen Years

Six and one-half percent (6-1/2%) of compensation earned in each plan year month.

- (b) Each participant's account is increased monthly by a factor equal to one-twelfth of the interest credit percentage. The interest credit is based on the participant's account balance as of the end of the previous plan year month and the rate is at least equal to the prescribed rate below, but it may be increased at the employer's discretion.

- The November 30 one-month average of One-Year Treasury Constant Maturities as published in the Federal Reserve Statistical Release H.15 (519) of the Board of Governors of the Federal Reserve System. This rate will be increased to the next highest 1/4 percent.

The cash balance account may be converted into a life only annuity using the plan-specified interest and mortality.

Special provisions apply to active participants in the DeVilbiss Salaried Plan as of October 15, 1992 who had also been a participant in the Eagle Plan.

 - Payment can commence as follows:
 - If participant dies at age 55 or older with at least 15 years of service: immediately
 - If participant dies before age 55 but with at least 15 years of service: first day of month coincident with or next following participant's 55th birthday
 - If participant dies while receiving disability benefit: immediately if participant was age 55 or older; first day of month coincident with or next following participant's 55th birthday if participant was under age 55
 - If participant dies and is not eligible for special in-service death benefit (i.e., before age 50) but has at least 15 years of service: first day of month coincident with or next following participant's 55th birthday, reduced to reflect early retirement
- Benefit is an actuarially reduced 50% J&S (REA) annuity based on accrued benefit at date of death payable at normal retirement. If the participant had 15 years of service at date of death, the benefit may commence when the participant would have attained age 55.
- Same reductions as early retirement.

Schedule SB, Part V — Summary of Plan Provisions**Miscellaneous**

- **Maximum compensation** Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2013, the limit is \$255,000.
- **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2013, the limit is \$205,000.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan are included in this valuation:

- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active employees over normal retirement age are valued using the greater of continued service accruals and late retirement actuarial increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding**Additional Benefits Included or Excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
