A Description of Plan.

The following description of the Sooper Credit Union 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1 **General.** The Plan is a defined contribution plan consisting of a 401(k) Plan and a Profit Sharing Plan. The Plan covers all full-time employees of Sooper Credit Union (the "Company") who have completed three months of service. An employee must be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company is the Plan administrator and is responsible for oversight of the Plan. MG Trust Company, LLC and CMFG Life Insurance Company serve as the custodians of the Plan and CUNA Mutual Group serves as record keeper of the Plan. The 401(k) Plan Advisory Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

2 **Contributions.** Each year, participants may contribute up to the amount allowed by law of pretax annual compensation, as defined in the Plan. Deferral contributions shall not exceed certain limits set forth by the Internal Revenue Code ("IRC") ($17,500 in 2013). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan is a Safe Harbor Plan and requires the Company to match 100% of the first 3%, and 50% of the next 3%, but not in excess of 6% of the participant's base compensation contributed by the participants to the Plan. Additional amounts may be contributed at the option of the Company's Board of Directors. Contributions are subject to certain limitations.

3 **Participant Accounts.** Each participant's account is credited with the participant's contribution, Company's contributions, and allocations of (a) Plan earnings and (b) charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4 **Vesting.** Participants are immediately vested in their contributions, plus actual earnings thereon. The participants are 100% vested in the Company's matching 401(k) contributions due to the Safe Harbor election. Participants are 100% vested in the discretionary profit sharing and non-safe harbor matching contributions after three years of credited service.

5 **Investment Options.** Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a common collective trust, and a fully benefit-responsive investment contract as investment options for participants. Participants may change their investment options at any time.

6 **Notes Receivable from Participants.** Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes fund. Loan terms range from one to five years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%. A loan will carry the same rate of interest throughout its term. Principal and interest is paid ratably through bi-weekly payroll deductions.

7 **Payment of Benefits.** Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments as required by minimum distribution rules. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

8 **Hardship Withdrawals.** Hardship withdrawals are available if the participant meets certain criteria.

9 **Forfeited Accounts.** At December 31, 2013 and 2012, there was no balance in the Plan's forfeitures account, since participants are 100% vested in the Company's matching 401(k) Safe Harbor Contributions. Forfeitures attributable to amounts other than employer matching contributions will be used to pay Plan administrative expenses or reduce future employer contributions.

B Summary of Accounting Policies.

1 **Basis of Accounting.** The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the fully benefit-responsive investment contract.

2 **Use of Estimates.** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3 **Investment Valuation and Income Recognition.** Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and the custodians. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

4 **Notes Receivable from Participants.** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit (losses) has been recorded as of December 31, 2013 and 2012. Delinquent loans may be reclassified as benefits paid to participants based upon the terms of the Plan documents.

5 **Payment of Benefits.** Benefits are recorded when paid.

6 **Operating Expenses.** Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in net appreciation in fair value of

7 **Subsequent Events.** The Plan has evaluated subsequent events through September 8, 2014, the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure, except for the transfer of all Plan assets to a multiple employer plan and termination of the Plan effective at the end of December 31, 2013, as discussed in Note G.

C Investments and Information Prepared and Certified by Custodians (Unaudited).

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodians of the Plan have certified that the following unaudited data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments (other than the fair value of the fully benefit-responsive investment contract and related adjustment from fair value to contract value for the fully benefit-responsive investment contract), as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, and investment information included in the notes to the financial statements.
- Dividends, interest, and net appreciation in fair value of investments as shown in the Statement of Changes in Net Assets Available for Benefits.
- The schedule of assets held at end of year included as supplemental information.

This information has not been audited by the Plan's independent auditors.

The following table presents the Plan's investments at December 31, 2013 and 2012. Investments that represent 5% or more of net assets available for benefits are separately identified.

Common Collective Trust	34,607
Net Appreciation in Fair Value of Investments	$ 636,573

D Fair Value Measurements.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements.

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 Input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements.

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common Collective Trusts: Fair value of the trust was based on quoted net asset values of similar assets in active markets at year-end.

Stable Value Fund: The fair value of the fully benefit-responsive investment contract was determined by discounting the expected cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. The Plan's fully benefit-responsive investment contract with an insurance company at December 31, 2012 was not actively traded and significant other observable inputs were not available. The current yield rates on the Plan's benefit-responsive investment contract are determined by CUNA Mutual Group (CUNA) and are guaranteed for an agreed upon period, usually one year. At the end of the period, CUNA determines the new rate, which is credited directly to the participants' account. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, CUNA evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms, while others are substantiated utilizing available market data.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables on the following pages set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

As discussed further in Note B7 and Note G, the Plan held no assets and was terminated at the end of December 31, 2013.

Assets at Fair Value as of December 31, 2012

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Total Assets at Fair Value	$ 5,237,192	$ 4,432,461	$ 272,528	$ 532,203

The following sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

Balance as of December 31, 2012	$ 532,203
Purchases, Sales, Issuances, and Settlements - Net	(91,867)
Realized Gains	11,418
Transfers In (Out) of Level 3 - Net	84,338
Transfer of Plan Assets to Multiple Employer Plan	(536,092)
Balance as of December 31, 2013	$ -

Realized gains included in changes in net assets for the period above are reported in Interest Income in the Statement of Changes in Net Assets Available for Benefits.

Unrealized gains (losses) from the fully benefit-responsive investment contract are not included in the Statement of Changes in Net Assets Available for Benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and ranges of values for those inputs for the years ended December 31, 2013 and 2012:

December 31, 2013

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Deposit Administration	$ -	Discounted Cash Flow	Discount Rate	1.95%	1.95%

December 31, 2012

Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values	Weighted Average
Deposit Administration	$ 532,203	Discounted Cash Flow	Discount Rate	2.35%	2.35%

E Fully Benefit-Responsive Investment Contract.

The Plan entered into a fully benefit-responsive guaranteed investment contract with CMFG Life Insurance Company (CUNA) in 2011. CUNA maintains the contributions in a general account named CUNA Mutual Stable Value Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the Statements of Net Assets Available for Benefits at fair value, which approximates contract value, thus no adjustment to contract value is presented.

Contract value, as reported to the Plan by CUNA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was $536,092 (prior to transfer of Plan assets as discussed in notes B7 and G) and $532,203, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event is probable.

The average yields for the fund are as follows:

Average Yields:		
Based on Actual Earnings	2.18%	2.56%
Based on Interest Rate Credited to Participants	2.18%	2.56%

F Related Party Transactions and Party-In-Interest Transactions.

As of December 31, 2013 and 2012, certain Plan investments were units of a common collective trust and a benefit-responsive investment contract managed by CUNA. CUNA is the third party administrator and a custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. For the year ended December 31, 2013, the fees and commissions paid to CUNA for the recordkeeping and investment management services amounted to $40,901.

G Plan Termination and Transfer of Plan Assets.

Effective at the end of December 31, 2013, all Plan assets from the Sooper Credit Union 401(k) Plan in the amount of $6,081,975 were transferred to the Credit Union Retirement Plan Association 401(k) Multiple Employer Plan (MEP), as adopted by Sooper Credit Union. Therefore, the Sooper Credit Union 401(k) Plan #002 is terminated as of the end of December 31, 2013, and has filed the Plan's Final Form 5500 for the Plan year ended December 31, 2013. The MEP will have a single audit requirement and a single Form 5500, which will list each adopting employer for the MEP plan year ending December 31, 2014.

H Tax Status.

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service dated April 3, 2009. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

I Risks and Uncertainties.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
