Basso and Associates, P.C. Defined Benefit Pension Plan EIN: 14-1832688 PN: 003 Schedule SB, Line 22 – Description of Weighted Average Retirement Age

Each participant is assumed to retire at his or her normal retirement age. The age specified in the plan as normal retirement age is 62.

Actuarial Basis

A. Funding Method

The valuation method is the actuarial cost method prescribed under Section 430 of the Internal Revenue Code.

Under this method, the following terms are used:

The <u>Funding Target</u> is the sum of the present value of all benefits accrued or earned under the plan as of the beginning of the plan year.

The <u>Applicable Funding Target</u> is equal to the Funding Target multiplied by the applicable transition percentage under the Worker, Retiree, and Employer Recovery Act of 2008.

The <u>Target Normal Cost</u> is the sum of the present value of all benefits which are expected to accrue or be earned under the plan during the plan year.

The <u>Carryover Balance</u> maintained by the plan was set equal to the Credit Balance, if any, in the Funding Standard Account as of the final day of the 2007 plan year. It is decreased when used to reduce the minimum required contribution in succeeding plan years. The unused portion is adjusted to reflect the rate of return on plan assets in those succeeding plan years.

The <u>Prefunding Balance</u> is the accumulation of discounted contributions in excess of the minimum funding requirement for 2008 and later plan years. It is decreased when used, and adjusted for return on plan assets, similarly to the Carryover Balance.

The <u>Funding Shortfall</u> is equal to the Funding Target, less the Actuarial Value of Assets, reduced by the Prefunding Balance and the Carryover Balance.

The <u>Adjusted Funding Shortfall</u> is equal to the Applicable Funding Target, less the Actuarial Value of Assets, reduced by the Prefunding Balance and the Carryover Balance.

A <u>Shortfall Amortization Base</u> is established for a plan year equal to the Adjusted Funding Shortfall less the present value of the existing Shortfall Amortization Installments and Waiver Amortization Installments, if any. Under some circumstances, no Shortfall Amortization Base may need to be established and/or prior Shortfall Amortization Bases may be eliminated.

A <u>Shortfall Amortization Installment</u> is the amount necessary to amortize the Shortfall Amortization Base over the 7-plan-year period beginning with the plan year it is established. Under the Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010, an extended amortization period may be elected by the plan sponsor for certain plan years.
