NOTE 1 - DESCRIPTION OF PLAN

The following description of the Pet Supermarket 401(k) Profit Sharing Plan (the "Plan"), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective January 1, 1997. The Plan is a defined contribution 401(k. savings and profit sharing plan covering all employees who have completed 500 hours of service during a six month time period or have completed one year of service with no hour requirement and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Contributions to the Plan consist of the following:

1. Voluntary employee deferral contributions up to the maximum established by Internal Revenue Service (the "IRS"). Employees are automatically enrolled to defer 3% of compensation once the employee becomes eligible to contribute. The automatic deferral amount will increase each Plan year by 1%, not to exceed 5% of compensation.

2. Participants age 50 or older are permitted to defer "catch-up" contributions under Internal Revenue Code (the "IRC". Section 414(v) which are not to exceed a $5,500 limit.

3. Pet Supermarket, Inc. (the "Company". contributes a match contribution of 25% of salary deferrals up to 5% of compensation.

4. The Company may contribute a profit sharing contribution at the discretion of the board of directors. For the plan year ended December 31, 2013, no profit sharing contribution was made.

5. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

Participant Accounts: Each participant's account is credited with the participant's contribution, and an allocation of (a. the Company's contributions, (b. plan earnings, and is charged with his or her withdrawals and administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Allocations: Company matching contributions are fixed up to 25% of salary deferrals up to 5% of compensation. Discretionary non-elective contributions are allocated in the ratio that each participant's compensation bears to total eligible compensation of all participants for the Plan year. Additional non-elective contributions may be made.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participant elective contributions are 100% vested at all times.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued.

Participants' shares of matching and non-elective contributions are subject to the following vesting schedule:

Years of Service	Percent Vested
1	0
2	20
3	40
4	60
5	100

Payment of Benefits: On termination of service, the Plan provides that the form of payment shall be either a lump sum or installment payments (annually, quarterly, or monthly over a period of not more than the participant's assumed life expectancy (or the participant's and the participant's beneficiary's assumed life expectancies. The Plan also allows for hardship withdrawals in certain circumstances.

Forfeitures: Forfeitures are first used to pay plan expenses and then to reduce employer matching and non-elective contributions for the Plan year following the Plan year in which the forfeitures occur.

Administrative Expenses: Certain costs incurred in the administration of the Plan have been paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Any gain or loss resulting from the sale of fund units is determined as the difference between the sale proceeds and the cost of units sold. Investment income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Estimates: The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund.

Payment of Benefits: Benefits are recorded when paid.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued.

Risk and Uncertainties: The Plan provides for certain investment options in investments. Investments are exposed to various risks, such as interest rate, liquidity, market, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 4 - CERTIFIED INVESTMENTS - UNAUDITED INFORMATION

(Contract values of Stable Value Fund: 2013 - $485,231; 2012 - $430,667.

The Plan's investments (including investments bought and sold, as well as held during the year. appreciated in value by $1,112,540 for the year ended December 31, 2013, which was all attributed to pooled separate accounts. During the year ended December 31, 2013, the Plan had no interest income.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price. in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements. and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted. for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled separate accounts other than stable value funds: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account. The investment strategies of these pooled separate accounts are consistent with each of the mutual funds identified in the name of the fund. The pooled separate accounts are grouped by the strategies of those underlying mutual funds in the fair value tables on the following pages. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Stable Value Fund: The fair values of participation units in the stable value pooled separate account are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund (level 2 inputs. . The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions, with the objective of providing a high level of return that is consistent with also providing stability of investment return, preservation of capital and liquidity to pay plan benefits of its retirement plan investors. The fund generally provides for daily redemptions by the Plan at reported net asset value per share.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value of reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

These transactions and the Plan's payment of record keeping fees and investment management fees qualify as party-in-interest transactions. In addition, the investment management fees and expenses paid by the Plan which are reflected as reductions in the investment returns earned by the Plan in its investments also reflect party-in-interest transactions.
