Community First Solutions 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the Community First Solutions 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the plan administrator.

General

The Plan is a defined contribution plan sponsored by Community First Solutions (Company) for the benefit of its employees who have at least sixty days of service and are age 21 or older. The Plan also permits employees of Colonial Senior Services, Inc., Resolution Community Solutions, Inc., Community Behavioral Health, Inc., Community First Pharmacy and Coach House Catering, Inc., to participate in the Plan. Effective January 1, 2013, employees of Partners in Prime became eligible to participate in the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Great-West Trust Company, LLC serves as the trustee and custodian of the Plan. Great-West Life & Annuity Insurance Company is the recordkeeper of the Plan.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Company make annual contributions of up to 50% of eligible compensation. Employee rollover contributions are also permitted. The Company makes matching contributions of 100% of employees' salary deferral amounts up to 1% of employees' compensation plus 50% of employees' salary deferral amounts between 1% and 6% of employees' compensation. Additional matching contributions are discretionary as determined by the Company's Board of Directors. No such additional discretionary contributions were made for the years ended December 31, 2013 and 2012. Contributions are subject to certain limitations. Forfeitures may be used to reduce Company contributions or can be reallocated to participants.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his or her contributions into any of the separate investment accounts and may change the allocation daily.

Community First Solutions 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

The Plan document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise. The automatic deferral feature also provides for an annual increase in the percentage deferred and is ultimately capped at 6%.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and any Company contributions, plus earnings thereon.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of his or her account or installments if certain criteria are met. Withdrawals other than for termination are permitted under circumstances provided by the Plan. At December 31, 2013, Plan assets include \$280,082 allocated to accounts of terminated or rehired participants who have elected to withdraw from the Plan but have not yet been paid (none at December 31, 2012).

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$10,729 and \$10,595 (transferred in from previous plans), respectively. These accounts will be reallocated to participants.

Notes Receivable from Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is set at 1% over the prime rate published in the Wall Street Journal on the first business day of the month the loan is originated.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value relating to the investment contract. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. There were no differences between fair value and contract value at December 31, 2013 and 2012.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Pooled separate accounts are valued at estimated fair value as provided by the trustee.

The fair value of the guaranteed investment contract is calculated based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

Community First Solutions 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Information on the investment contract carried at fair value is as follows:

	2013	2012
Average yields		
Based on actual earnings	1.26%	1.45%
Based on interest rate credited to participants	1.26%	1.45%
Fair market value	\$ 802,456	\$ 893,202
Contract value	\$ 802,456	\$ 893,202

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Notes to Financial Statements

December 31, 2013 and 2012

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Great-West Trust Company, LLC. The Plan has not submitted to the Internal Revenue Service (IRS) for an individual determination letter as the nonstandardized prototype document has received a favorable opinion letter from the IRS. The Plan has been amended since the prototype received the determination letter. However, we believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, we believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Investments

The Plan's investments are held by a bank-administered trust-fund. The Plan's investments (including investments bought, sold and held during the year) appreciated in fair value as follows:

	2013	
	Net Appreciation in Fair Value During Year	Fair Value at End of Year

Note 4: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Plan paid \$39,157 and \$30,807 of recordkeeping fees to Great-West Life & Annuity Insurance Company during 2013 and 2012, respectively. The Company provides certain administrative services at no cost to the Plan.

Note 5: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Community First Solutions 401(k) Plan

Notes to Financial Statements

December 31, 2013 and 2012

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The Plan held no Level 3 securities.

Pooled separate accounts: Valued at the net asset value (NAV) of the underlying shares held by the accounts at year end.

Investment contract: Valued by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates.

Note 6: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of employers' contributions per the financial statements for the year ended December 31, 2012 to Form 5500 (no differences at December 31, 2013):

	<u>2012</u>
Employers' contributions per the financial statements	\$ 331,050
Employers' contributions receivable at December 31, 2011	<u>9,872</u>
Employers' contributions per Form 5500	<u><u>\$ 340,922</u></u>

Notes to Financial Statements

Note 7: Nonexempt Transactions

Defined contribution plans are required to remit employee contributions to the Plan as soon as they can be reasonably segregated from the employers' general assets, but no later than the 15th business day of the month following the month in which the participant contributions are withheld by the employer. The Company did not remit all employee contributions to the Plan in 2012. Contributions totaling \$69 were not remitted for two employees on two separate pay periods in 2012 and were subsequently corrected in 2013. No such instances were identified for 2013.

Note 8: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
