Note 1. Plan Description

The following brief description of Mercedes Restaurant, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Mercedes Restaurant, Inc. (the Company) who are age 21 or older, have thirty days of service, and can enroll first day of any month. For matching and profit sharing contributions, the requirement is one year of service at January 1 and July 1 entry dates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute up to 70% of their compensation for the Plan year. For 2013, the maximum dollar contribution allowed under the Internal Revenue Code is $17,500. Participants who are age 50 or older during the plan year can make special catch-up contributions (up to $5,500 additional in 2013). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants may make after-tax contributions to the Plan. The Company is required to contribute an amount equal to 100% of each participant's eligible contributions for the Plan year for the first 4% of the participant's compensation. The Company may also elect to make an annual discretionary contribution as determined by the Company. For the year ended December 31, 2013, the Company did not make a discretionary contribution to the Plan. Participants direct the investment of contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Participant Accounts: Each participant's account is credited with the participant's elective and, if applicable, rollover contributions, the Company's matching and any discretionary contributions, and allocations of Plan earnings or losses; and charged with an allocation of applicable administrative expenses. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their elective and, if applicable, rollover contributions and employer matching contributions plus actual earnings thereon. Vesting in any Company's discretionary contribution plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of service. Participants that are employed by the Company at the time of death or disability automatically become 100% vested in their accounts.

Forfeited accounts: During the year ended December 31, 2013, no forfeited nonvested accounts were used to reduce employer contributions or pay certain Plan administrative expenses. At December 31, 2013 and 2012, there was $3 and $3 in forfeited nonvested accounts, respectively.

Participant notes receivable: Participants may borrow from their account balances a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants must have a financial hardship to obtain a loan. Loan terms shall not exceed five years, unless taken for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions and administration fees associated with the particular loan and are passed along to the participant. Interest rates applicable to outstanding loans as of December 31, 2013, were 4.25%.

Payment of benefits: On termination of service, if a participant's nonforfeitable accrued benefit does not exceed $1,000, the participant will receive a lump sum distribution. If a participant's nonforfeitable accrued benefit exceeds $1,000, the participant may elect lump sum, installment payments, or joint survivor distribution methods of payment.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition: The Plan's investments in pooled separate accounts are valued on a per unit market basis as determined by Transamerica Retirement Services, which reflects the fair value of the investments comprising the separate pooled funds and insurance fund, respectively. Participant notes receivable are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative expenses: Certain administrative functions applicable to the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid by the Plan.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: Subsequent events have been evaluated through August 19, 2014, which is the date the financial statements were available to be issued.

Note 3. Information Certified by Transamerica

The following is a summary of the plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 for the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Note 3. Information Certified by Transamerica (continued)

The following table presents the participant-directed investments and receivables in the Plan that were certified by Transamerica. Single investments representing more than 5% of the Plan's net assets as of December 31, 2013 and 2012, are separately identified:

	2013	2012
Investments:		
Investments in pooled separate accounts:		
Vanguard Target Retirement 2020	$ 343,885	$ 257,671
Vanguard Target Retirement 2030	236,702	173,026
Vanguard Target Retirement 2035	100,854	53,302
Vanguard Target Retirement 2045	80,093	66,188
All other pooled separate accounts individually less than 5% of Plan net assets	497,002	708,349
Investments in insurance funds		
Insurance fund less than 5% of Plan net assets	15,056	11,584
Receivables:		
Participant notes receivable less than 5% of Plan net assets	21,987	16,339
	$ 1,295,579	$ 1,286,459

Transamerica also certified to the completeness and accuracy of $189,402 of net appreciation in fair value of investments and $813 of interest on participant notes receivable and investments for the year ended December 31, 2013.

Note 4. Related Party Transactions

Certain Plan investments of insurance fund and pooled separate accounts are managed by Transamerica. Transamerica is the custodian as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan, subject to the Provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

Note 6. Income Tax Status

The Plan was established effective June 1, 2007, and was subsequently amended. The plan sponsor has received an approval determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax-exempt status under the provisions of Section 501(a) of the Code. The Trustees

Note 6. Income Tax Status (continued)

believe the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. The Trustees will make any changes deemed necessary to ensure that the Plan is granted tax-exempt status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2010.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8. Fair Value Measurement

Accounting Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 8. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts and insurance fund: Valued on a per unit market value basis as determined by Transamerica, which reflects the fair value of the investments comprising the separate pooled funds and insurance fund, respectively.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:
