The Doctors Management Company 401(k) Savings Plan

Notes to Financial Statements (Modified Cash Basis)

December 31, 2013

1. Description of the Plan

The following description of The Doctors Management Company 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1987. The Plan is a defined contribution plan covering eligible nonunion employees of The Doctors' Management Company (the Employer), a wholly owned subsidiary of The Doctors Company, an Interinsurance Exchange. The Plan is available to those employees who have completed six months of service, as defined, and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Employer. The trustee of the Plan is State Street Bank and Trust.

Contributions are participant directed, and each participant may direct contributions and account transfers between various fund options. Additionally, participants are allowed to direct their plan assets in a separate brokerage account through Charles Schwab. Through this account participants can buy and sell mutual funds, stocks, and bonds that are not available through the Plan.

On January 1, 2013, the former employees (participants) of FPIC Insurance Group, Inc., a wholly owned subsidiary of The Doctors Company, became members of the Plan by a resolution of the Board of Directors of the Employer. Participants' investments in the FPIC Insurance Group, Inc. 401(k) Savings Plan were merged into similar investments in the Plan, resulting in assets of $19,927,962 transferred into the Plan in January 2013. The transferred assets were not reflected in the December 31, 2012, financial statements of the Plan. Participants in the FPIC Insurance Group Inc. 401(k) Savings Plan retained their historical vesting upon transfer into the Plan.

Contributions

Participants may contribute up to 50% of their annual compensation, as defined, subject to Internal Revenue Service (IRS) limitations.

1. Description of the Plan (continued)

The Employer makes matching contributions for the benefit of each participant equal to 200% of the participants' elective contribution, up to a maximum of 4% of each participant's compensation per pay period. In addition, it is a long-standing practice of the Employer to contribute an additional discretionary contribution equal to 2% of each participant's compensation.

Participant Accounts

Each participant's account is credited with the participant's and Employer's contributions and an allocation of (a) plan earnings and (b) forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' compensation or account balances, as defined by the Plan. At December 31, 2013 and 2012, $170,822 and $125,806, respectively, of unallocated forfeitures are included in the Cash Reserve Fund of State Street Bank and Trust.

Vesting

Participants are fully vested in their voluntary contributions plus actual earnings thereon. Employer matching contributions vest as follows: an employee with more than one, two, three, four, and five years of service would be 20%, 40%, 60%, 80%, and 100% vested, respectively. In addition, benefits fully vest upon normal retirement, death, or permanent disability (while in the employment of the Employer), or upon termination of the Plan.

Participant Withdrawals

Withdrawals from the Plan are available upon termination of employment by the participant or upon the participant attaining age 59½. Participants may elect to receive either a lump-sum amount equal to the vested account balance or a series of periodic payments over a selected term, as prescribed by the Plan.

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to suspend, terminate, or completely discontinue contributions. In the event of plan termination, the full value of all participants' accounts would become fully vested and nonforfeitable.

1. Description of the Plan (continued)

Notes Receivable From Participants

Participants are allowed to obtain loans in an amount not to exceed the lesser of $50,000 or one-half of the participant's vested accrued benefit under the Plan. Interest rates on loans to participants ranged from 4.25% to 10.50%. These loans are to be repaid over six months to fifteen years at the prime interest rate in effect on the date the loan was obtained and are fully collateralized by the participant's remaining vested account balance.

Expenses

Administrative expenses are payable by the Plan. The Employer can, at its discretion, elect to pay administrative expenses. The Plan paid the majority of such expenses in 2013 and 2012.

2. Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan are presented on the modified cash basis, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (U.S. GAAP). Under this basis, investment assets are reported at fair value; investment income, including net realized and unrealized appreciation (depreciation) in fair value of investments, is recognized in the period incurred; contributions are recognized when received rather than earned; and benefits and expenses are recognized when paid rather than as incurred.

Use of Estimates

The preparation of financial statements on the modified cash basis requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Valuation of Investments

The Plan's investments are stated at fair value (see Note 4). Purchases and sales of securities are recorded on a settlement-date basis.

The Stable Pooled Fund, a common/collective trust fund, invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is made to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund.

Distributions to Participants

Distributions to participants are recorded when paid.

3. Investments

Except for the fair value of the common/collective trust fund and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2013 and 2012, all investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation (depreciation) in the fair value of investments, interest, and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street Bank and Trust, the trustee. The contract value of the common/collective trust fund has been certified by the trustee and was $12,631,633 and $10,190,957, at December 31, 2013 and 2012, respectively.

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits is as follows:

	December 31	
	2013	2012
	(In Thousands)	
Columbia Dividend Income	$ 14,313	$ 9,071
Columbia Acorn	7,837	*
Mainstay Large Capital Group	18,821	13,240
Money Market Fund	*	5,498
Oppenheimer Global	8,097	5,222
Stable Pooled-Common Collective Trust	12,531	9,904
PIMCO Total Return Admin	12,659	13,307
Vanguard 500 Index Investors	17,457	9,148

* Represents less than 5% of the Plan's assets available for benefits.

3. Investments (continued)

During the years ended December 31, 2013 and 2012, the Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in fair value as follows:

	2013	2012
Mutual funds	**$ 19,573,610**	$ 7,773,575
Common/collective trust fund	**296,076**	(171,964)
Personal choice retirement accounts	**401,000**	237,645
	$ 20,270,686	$ 7,839,256

4. Fair Value Measurements

Accounting Standards Codification 820, *Fair Value Measurement*, defines fair value, expands disclosure requirements, and specifies a hierarchy of valuation techniques. The following are the levels of the hierarchy and a brief description of the type of valuation information (inputs) that qualifies a financial asset for each level:

- Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets where the specific security is traded.

- Level 2 – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates, credit risks, etc.), and inputs that are derived from, or corroborated by, observable markets. Financial models are often used to develop these prices.

- Level 3 – Developed from unobservable data, reflecting management's own assumptions.

When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of financial assets and these assets are classified as Level 1, primarily common stocks. In other cases where a quoted market price for identical assets in an active market is either not available or not observable, fair value is estimated using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets would be classified as Level 2. If quoted market

4. Fair Value Measurements (continued)

prices are not available, fair value is determined by using broker quotes or an internal analysis of each investment's financial statements and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation.

Thus, financial assets may be classified in Level 3 even though there may be some significant inputs that may be readily available.

The following is a description of the valuation methodologies used for financial assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds – These are classified as Level 1 because quoted prices are available for these securities in an active market.

Common/collective trust funds and registered investment trusts – These are classified as Level 2 because the prices represent the net asset value of the funds and are developed from inputs that are based on observable market data.

Other funds – These assets include the Personal Choice Retirement Account, which comprises cash, money market funds, common stocks, and mutual funds, and are classified as Level 1 because quoted prices are available for these financial instruments. Registered investment trusts primarily include exchange-trade funds, and the fair values of these investments are based on a market approach based on information from Charles Schwab and are classified as Level 2 investments.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as follows:

5. Tax Status

The underlying nonstandardized prototype plan has received an opinion letter from the IRS dated March 31, 2008, stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator concluded that the Plan has maintained its tax-exempt status and that no uncertain tax positions have been taken or are expected to be taken that require adjustment to the financial statements for the year ended December 31, 2013 and 2012. The Plan has recognized no liability for income taxes, or any interest and penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Party-In-Interest Transactions

Certain plan investments are shares of funds managed by State Street Bank and Trust or its affiliates. State Street Bank and Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory or administrative exemption exists.
