MASCO CORPORATION MASTER DEFINED
CONTRIBUTION PLAN

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan:

The following description of the Masco Corporation ("Company") Master Defined Contribution Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. *General.* The Plan is a defined contribution plan covering eligible employees at various divisions and subsidiaries of the Company. Eligible employees participate in the Plan on January 1 following their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

2. *Contributions.* The annual Company contribution is determined by the Company's Board of Directors subject to certain limitations in accordance with the provisions of the Plan. The Plan does not permit participant contributions, with the exception of rollovers from another qualified retirement plan. Participants may direct employer contributions in one percent increments in any of the various investment options. These options are professionally managed mutual funds, the Masco Corporation Company Stock Fund, and a brokerage account which allows participants to buy, sell or trade most publicly listed common stocks, corporate and government bonds or certificates of deposit; these options vary in their respective strategies, risks and goals. Participants may change their investment options daily.

3. *Participant Accounts.* Each active participant's account is credited with an allocation of the (a) Company's contribution and (b) Plan earnings pursuant to the provisions of the Plan. Allocations are based on participants' earnings or account balances, as defined. Plan administrative expenses are paid by the Company and not charged to participants' accounts. Certain expenses may be incurred by individual participants for special services relating to their account. These costs are charged directly to the individual participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting and Forfeited Employer Contributions.* Vesting is generally based on years of service. A participant is 100 percent vested only after three years of vesting service. In addition, a participant is 100 percent vested upon attainment of normal retirement age (age 65), death or disability as defined under the Plan. At December 31, 2013 and 2012, forfeited nonvested accounts totaled $728,300 and $684,098, respectively. All forfeited amounts were used to reduce the Company's contribution.

5. *Voting Rights.* Each participant who has an interest in the Company Stock Fund is entitled to exercise voting rights attributable to the shares allocated to his or her Company Stock Fund account and is notified by the Trustee (Fidelity as defined by the Plan) prior to the time that such rights are to be exercised. If the Trustee does not receive timely instructions, the Trustee itself or by proxy shall vote all such shares in the same ratio as the shares with respect to which instructions were received from participants.

A. Description of Plan, concluded:

6. *Notes Receivable from Participants.* Generally, participants may borrow from the nonforfeitable portion of their company profit sharing contribution accounts and any rollover contribution accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-15 years. The loans are collateralized by the balance in the participant's account and bear interest at a rate equal to the Prime Rate on the date of application for the loan. Principal and interest are paid ratably through monthly payroll deductions.

7. *Payment of Benefits.* After separation from service due to termination, death, disability, or retirement, generally a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a single lump-sum amount or in annual installments over a period not to exceed five years. In-service and hardship withdrawals, if applicable, are distributed in a single lump-sum payment.

8. *Transfers.* During 2013, transfers were executed between the Masco Corporation Master Defined Contribution Plan and the Masco Corporation Future Service Profit Sharing Plan in an effort to consolidate multiple accounts held by participants of the Plans. As a result of these transfers, the participants affected by the account consolidation now have a single account in the Plan in which they are currently active. Total transfers of net assets into the Plan amounted to $29,772 as a result of this event.

B. Accounting Policies:

The following is a summary of significant accounting policies (in accordance with accounting principles generally accepted in the United States of America ("GAAP")) followed in the preparation of these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of additions and deductions during the reporting period. Actual results could differ from these estimates and assumptions.

B. Accounting Policies, continued:

Risks and Uncertainties

The Plan provides for various investments in mutual funds and other investment securities. Investments are exposed to various risks, including interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments are stated at fair value as determined by Fidelity Pricing and Cash Management Services, Inc. using quoted closing market prices at December 31, 2013 and 2012.

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Income from other securities is recorded as earned on an accrual basis. Investment transactions are reflected on a trade-date basis. Realized gains and losses on investments are based on average cost.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation (depreciation) of the investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is measured on the accrual basis. Delinquent notes receivable from participants are recorded as benefit payments based upon the terms of the Plan.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Event

The Company has evaluated subsequent events through August 1, 2014, the date the Masco Contribution Master Defined Contribution Plan financial statements were available to be issued.

C. Investments:

The following investments represent five percent or more of the Plan's net assets at December 31, 2013 and 2012.

	2013	2012
Vanguard Wellington Fund - Admiral Class	$16,912,701	$15,275,478
Fidelity Retirement Money Market Portfolio	$13,124,503	$13,037,229
Fidelity Freedom 2020 K Fund	$ 8,747,755	$ 7,073,262
Fidelity Freedom 2030 K Fund	$ 8,020,586	$ 6,703,576
Fidelity Freedom 2025 K Fund	$ 7,530,192	$ 6,171,311
Fidelity Freedom 2035 K Fund	$ 6,043,896	*
Pimco Total Return Fund - Institutional Class	*	$ 5,234,209

* At December 31, the fund balance was not five percent or more of the Plan's net assets.

During 2013, the Plan's investments (including gains and losses on investments sold during the year, as well as held at year-end) appreciated (depreciated) in value as follows:

Mutual Funds	$12,680,770
Masco Corporation Company Stock Fund	135,994
Brokerage accounts	(5,065)
	$12,811,699

At December 31, 2013 and 2012, the Masco Corporation Company Stock Fund is made up of Masco Corporation Common Stock totaling $527,601 and $364,133, respectively, and cash and money market investments of $12,163 and $7,841, respectively.

D. Fair Value Measurements:

Accounting Policy. The Plan follows fair value guidance (ASC 820) that defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The guidance defines fair value as "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Further, it defines a fair value hierarchy, as follows: Level 1 inputs as quoted prices in active markets for identical assets or liabilities; Level 2 inputs as observable inputs other than Level 1 prices, such as quoted market prices for similar assets or liabilities or other inputs that are observable or can be corroborated by market data; and Level 3 inputs as unobservable inputs that are supported by little or no market activity and that are financial instruments whose value is determined using pricing models or instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

D. Fair Value Measurements, concluded:

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage accounts: Participant directed investments that could include common stocks, mutual funds, corporate or government bonds or other investments that are actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

E. Income Tax Status:

The Internal Revenue Service ("IRS") determined and informed the Company by a letter dated October 25, 2012 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("Code"). The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

F. Summary of Financial Data Certified by the Trustee:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by the Fidelity Management Trust Company, the trustee of the Plan, as complete and accurate and was not subjected to any auditing procedures performed by the independent auditors, except for comparing such information to the related information included in the financial statements and supplemental schedule.

d. Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2013.

G. Plan Termination:

Although the Company has not expressed an intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. At the date of termination, the accounts of all participants shall become 100 percent vested with termination expenses being prorated among the accounts. The Administrative Committee of the Masco Corporation Master Defined Contribution Plan shall then direct the Plan Trustee to distribute to the participants all remaining assets.

H. Related Party Transactions:

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is also the trustee as defined by the Plan and, therefore, the purchases and sales qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions.

The Plan invests in Masco Corporation Common Stock. At December 31, 2013 and 2012, the value of Masco Corporation Common Stock was $539,764 and $371,974, respectively.
