Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

HILL COUNTRY RESTAURANTS, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2013

Note A - Description of Plan

The following description of the Hill Country Restaurants, Inc. 401(K) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of Hill Country Restaurants, Inc. (the Company) who have been with the Company for one year, have performed 1000 hours of service and are age twenty -one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute an amount that may not be more than the lesser of (1) 15% of pretax annual compensation, as defined in the Plan or (2) the IRS elective deferral amount of $17,000. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. At the Plan administrator's discretion, participants may also contribute amounts representing distributions from other qualified contribution plans. Participants direct the investments of their contributions into various investment options offered by the Plan. The Plan currently offers twelve pooled separate accounts with underlying mutual fund investments, and an unallocated contract in an insurance company as investment options for participants. The Company matches up to 4% of the participants' contributions to the Plan.

Participant Accounts. Each participant's account is credited with the participant's contribution allocations of (a) the Company's matching contribution and, (b) Plan earnings, charged with allocation of any administrative expenses paid by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant's loan fund. Loan terms range from one to five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan Administrator. The interest rate on the current loans is 5.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits. On termination of service due to death, disability, or retirement, or other reasons, a participant (or beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts. At December 31, 2013 and 2012, forfeited nonvested account totaled $-0- and $1,266, respectively. In 2013, the employer contributions were reduced by $8,719 from forfeited nonvested accounts, and 2014 employer contributions will also be reduced by any available forfeited nonvested accounts.

Administrative Expenses. The Company absorbs the trustee's fee for managing the Plan, and the participants who borrow from their funds are charged for the costs associated with setting up the loan. In addition, those participants who take distributions are charged for the costs associated with the processing of their distributions.

Note B - Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation & Income Recognition. The Plan's investment assets, income, schedule of investments and reportable transactions, if any, have been certified by the Plan's Trustee as being complete and accurate. The Plan's investments are stated at fair value except for its guaranteed investment contract with Hartford which is valued at contract value. Quoted market prices are used to value investments. Units of the pooled separate accounts are valued at the net asset value of the underlying mutual fund investments held by the Plan at December 31, 2013. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments.

Payment of Benefits. Benefits are recorded when paid.

Date of Management's Review. Subsequent events were evaluated through August 11, 2014, which is the date the financial statements were available to be issued.

Note C - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:	
	Fair Value	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2013			
Pooled Separate Accounts	$ 1,145,424	$ 1,145,424	$ -
Investment contract with insurance company	17,624	-	17,624
Participant loans	40,996	-	40,996
Total	$ 1,204,044	$ 1,145,424	$ 58,620
December 31, 2012			
Pooled Separate Accounts	$ 854,010	$ 854,010	$ -
Investment contract with insurance company	15,143	-	15,143
Participant loans	30,261	-	30,261
Total	$ 899,414	$ 854,010	$ 45,404

The fair value measurement accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets and level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of the pooled separate accounts is the unit value calculated based on the observable net asset value of the underlying mutual fund investments.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

	Investment Contract	Participant Loans	Total
December 31, 2013	$ 15,143	$ 30,261	$ 45,404
Beginning Balance			
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits.	470	-	470
Purchases, sales, issuances, settlements (net)	2,011	10,735	12,746
Ending Balance	$ 17,624	$ 40,996	$ 58,620
December 31, 2012			
Beginning Balance	$ 11,370	$ 34,703	$ 46,073
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits.	338	-	338

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments.

During 2013, the Plans' investments (including gains, losses, and earnings on investments bought and sold, as well as held during the year) appreciated in value by $195,912.

Note E - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their employer contributions.

Note F - Separated Participants with Deferred Vested Benefits

At December 31, 2013 there were thirty seven separated participants with deferred vested benefits.

Note G - Tax Status

The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code (IRC), based upon an opinion letter issued by the National Office of the Internal Revenue Service, stating that the prototype is qualified under Section 401 of the IRC. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Plan Trustee

Prior to January 1, 2013, Hartford Life Insurance Company served as the trustee of the plan. Effective January 1, 2013, Massachusetts Mutual Life Insurance Company ("Mass Mutual") acquired the Hartford's Retirement Plans Group business and has been appointed by Hartford Life Insurance Company to provide all administrative services necessary to support the insurance contracts issued by Hartford Life Insurance Company in connection with the Retirement Plans Group business.

The fair value measurement accounting standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets and level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of the pooled separate accounts is the unit value calculated based on the observable net asset value of the underlying mutual fund investments.

Level 3 Fair Value Measurements

The guaranteed investment contract with an insurance company and participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed investment contract is determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. The fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

	Investment Contract	Participant Loans	Total
December 31, 2013	$ 15,143	$ 30,261	$ 45,404
Beginning Balance			
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits.	470	-	470
Purchases, sales, issuances, settlements (net)	2,011	10,735	12,746
Ending Balance	$ 17,624	$ 40,996	$ 58,620
December 31, 2012			
Beginning Balance	$ 11,370	$ 34,703	$ 46,073
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits.	338	-	338
Purchases, sales, issuances, settlements (net)	3,435	(4,442)	$ (1,007)
Ending Balance	$ 15,143	$ 30,261	$ 45,404

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2013 are reported in net appreciation in fair value of investments.

Note G - Tax Status

The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the Internal Revenue Code (IRC), based upon an opinion letter issued by the National Office of the Internal Revenue Service, stating that the prototype is qualified under Section 401 of the IRC. The plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note H - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note I - Plan Trustee

Prior to January 1, 2013, Hartford Life Insurance Company served as the trustee of the plan. Effective January 1, 2013, Massachusetts Mutual Life Insurance Company ("Mass Mutual") acquired the Hartford's Retirement Plans Group business and has been appointed by Hartford Life Insurance Company to provide all administrative services necessary to support the insurance contracts issued by Hartford Life Insurance Company in connection with the Retirement Plans Group business.
