### Toyotomi America Corporation 401(k) Plan

December 31, 2013 and 2012

#### Note A--Description of the Plan

The following description of Toyotomi America Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General--The Plan is a defined contribution plan covering all employees of Toyotomi America Corporation (the "Corporation") who have completed three consecutive months of service and are age eighteen or older. Employees not eligible to participate in the plan are (1) employees who are current or former participants in any retirement plan sponsored by Toyotomi-Kiko Co., LTD, the Parent Company, (2) leased employees, or (3) non-resident alien employees with no United States source income. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions--Each year, participants may contribute pretax annual compensation to the maximum allowed by law, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Corporation makes matching contributions equal to \$1.00 for each \$1.00 of elective contributions up to 4% of compensation for all eligible employees. Participants direct the investment of their contributions and the Corporation's contributions into various investment options offered by the Plan.

Notes Receivable from Participants--Participants may borrow from their fund account a minimum of \$1,000 up to a maximum of 50% of the vested account balance or \$50,000, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate of 5.25%. Principal and interest are paid through payroll deductions.

Participant Accounts--Each participant's account is credited with the participant's contribution and allocations of (a) the Corporation's contribution and (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant's earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting--Participants are immediately vested in their contributions and matching contributions plus actual earnings thereon.

Payment of Benefits--On termination of service due to death, disability or retirement, a participant receives a lump-sum amount equal to the value of their account.

December 31, 2013 and 2012

**Note B--Summary of Significant Accounting Policies**

Basis of Accounting--The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Management believes that contract value approximates the fair value and, accordingly, the investment contract is recorded at contract value in the statements of net assets available for benefits. The statements of changes in net assets available for benefits are prepared on the contract value basis.

Notes Receivable from Participants--Notes receivable from participants are recorded at their unpaid principal balances plus any accrued unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. Management estimates that all notes receivable from participants to be collectible as of December 31, 2013 and 2012.

Investment Valuation and Income Recognition--Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits--Benefits are recorded when paid.

Administrative Expenses--The Plan's administrative expenses are paid by the Corporation or from participant funds, as provided by the Plan document.

Estimates--The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications--Certain reclassifications have been made to the 2012 financial statement presentation to conform to the current year's format. There was no effect on net assets available for benefits and net increase in net assets due to these reclassifications.

Date of Management's Review--Subsequent events were evaluated through July 21, 2014, which is the date the financial statements were available to be issued.

**Toyotomi America Corporation 401(k) Plan**

December 31, 2013 and 2012

**Note C--Fair Value Measurements**

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

*Level 1 Fair Value Measurements*

The fair value of pooled separate accounts is based on quoted net asset values of the shares held by the Plan at year-end.

*Level 3 Fair Value Measurements*

The investment contract with an insurance company is not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment contract is recorded at contract value which is determined by the inputs (contributions, investment gains and interest earned) less the outputs (benefit payments, investment losses and administrative expenses paid by the plan) of the fund.

During 2013 and 2012, the Plans investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<b>Year Ended December 31</b>	
	<b>2013</b>	<b>2012</b>
Net appreciation in fair value of Guaranteed Interest Fund	\$ 68,494	\$ 94,687

	<u>\$ 1,725,005</u>	<u>\$ 742,645</u>
Interest income	<u>\$ 27,441</u>	<u>\$ 21,402</u>

**Note E--Investment Contract with Insurance Company**

The Guaranteed Interest Fund is a benefit-responsive investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Custodian is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. The investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by the Custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yields were approximately 3.45% and 3.44% for 2013 and 2012, respectively. The average crediting interest rates were approximately 3.45% and 3.40% for 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than three percent. Such interest rates are reviewed on a quarterly basis.

**Note E--Investment Contract with Insurance Company--Continued**

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

<u>Average yields:</u>

**Note F--Related Party Transactions**

Investment options available include The Standard Insurance funds. Investments in The Standard Insurance funds qualify as party-in-interest transactions. Fees paid by the Corporation for investment management and administrative services totaled \$6,195 and \$6,814 for the years ended December 31, 2013 and 2012, respectively.

**Note G--Termination of the Plan**

Although it has not expressed any intent to do so, the Corporation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Notes to Financial Statements--Continued

**Toyotomi America Corporation 401(k) Plan**

December 31, 2013 and 2012

**Note H--Tax Status**

The Internal Revenue Service ("IRS") has determined, and informed the Corporation by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although, the Plan has been amended subsequent to receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC, and therefore believe that the Plan is qualified. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan's Form 5500, *Annual Return/Report of Employee Benefit Plan*, for 2010 through 2013 is subject to examination by the IRS, generally for three years after they were filed.

**Note I--Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
