REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees Pacific Fibre Products, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Pacific Fibre Products, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

REPORT OF INDEPENDENT AUDITORS (continued)

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The schedule of assets (held at end of year) as of December 31, 2013, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplementary information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting for Reporting and Disclosure under ERISA.

Note 1 - Description of the Plan

The following description of the Pacific Fibre Products, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) profit sharing plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Employees not covered by a collective bargaining unit who have completed six months of service and are 21 years of age or older, may make salary deferrals into the plan. Employees who meet the criteria for the employee deferral, and who have completed one year of service, are eligible for profit sharing contributions.

Contributions

Participant contributions – Each year participants may contribute between 1% and 100% of eligible compensation subject to the annual limit allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match – The Company makes discretionary matching contributions based upon \$0.10 multiplied by the number of hours of service for which the participant made an elective deferral, up to 80 hours per pay period. For the year ended December 31, 2013 the Company made matching contributions of \$14,869.

Employer profit sharing – At the attainment of one year of service, the Company may, at its discretion, also make a profit sharing contribution of 4% of each participant's compensation (excluding bonuses and overtime) regardless of the Company's profit status. For the year ended December 31, 2013 the Company made profit sharing contributions of \$207,933.

Participant accounts – Each participant's account is credited with the participant's voluntary contribution and an allocation of the Company's contributions and Plan earnings. Allocations are based on the participant's earnings or account balances as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (continued)

Vesting – Participants are immediately vested in their voluntary salary reduction contributions plus earnings thereon, as well as in their rollover contributions to the Plan, excluding profit sharing contributions. Vesting in Company match and profit sharing contributions is based on years of continuous service or certain other events. The vesting percentage schedules for Company matching and profit sharing contributions are as follows:

	Vested
Company Match	Percentage
Years of service	
Less than 1	0%
1 year (but less than 2)	20%
2 years (but less than 3)	40%
3 years (but less than 4)	60%
4 years (but less than 5)	80%
5 or more	100%
	Vested
Profit Sharing	Vested Percentage
Profit Sharing	,
Profit Sharing Years of service	,
	,
Years of service	Percentage
Years of service Less than 2	Percentage 0%
Years of service Less than 2 2 years (but less than 3)	Percentage 0% 20%
Years of service Less than 2 2 years (but less than 3) 3 years (but less than 4)	Percentage 0% 20% 40%

Participants are 100% vested in all Company contributions upon reaching age 65 while employed by the Company, or in the event of disability. Participants also become 100% vested in all Company contributions in the event the Plan terminates.

Notes receivable from participants – Participants may borrow from their accounts up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loan is secured by the balance in the participant's account and bears interest at an amount established by the trustees. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed ten years. Principal and interest are to be paid ratably through payroll deductions. As of December 31, 2013, the rates of interest on outstanding loans were 3.25% with various maturities through September 2018.

Note 1 - Description of the Plan (continued)

Payments of benefits – Upon retirement, termination of services, disability or death, participants may elect to receive the vested amount of their accounts in (1) a joint and survivor annuity, (2) a joint and contingent survivor annuity, (3) a certain life annuity, (4) an annuity for a period certain, (5) periodic payments, (6) a lump sum, or (7) a partial distribution provided their account balance is in excess of \$5,000. Account balances less than \$5,000 will be distributed in a lump sum.

Forfeitures – All forfeitures of non-vested employer contributions made on behalf of participants who leave the Plan will be allocated to the employer matching and profit sharing contribution accounts of all eligible participants. There were forfeitures available of \$3,105 and \$2,861 at December 31, 2013 and 2012, respectively. Forfeitures of \$29 and \$2,832 were allocated towards match and profit sharing contributions, respectively, during the year ended December 31, 2013.

Note 2 - Summary of Significant Accounting Policies

Basis of accounting – The Plan's financial statements are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results may differ from those estimates.

Investment valuation – The deposit administration contract is stated at contract value and all other investments are stated at fair value as certified by the Plan's custodian, Standard Insurance Company.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The Plan Trustees determine the Plan's valuation policies utilizing information provided by the insurance company. See Note 4 for discussion of fair value measurements.

Investment contracts (deposit administration contract) held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Authoritative guidance requires the statements of net assets available for benefits present the fair value of the investments, as well as the adjustment from fair value to contract value for fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Note 2 - Summary of Significant Accounting Policies (continued)

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event and in accordance with the plan document.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in transaction fees. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through August 1, 2014, which is the date the financial statements were issued.

Reclassification – Certain amounts from the prior year statement of net assets available for benefits have been reclassified, in order to conform to the current year presentation.

Note 3 - Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2013	 2012
Pooled Separate Account A underlying investments:		
Harbor Bond Fund	\$ 495,912	\$ 1,015,012
Columbia Mid-Cap Index Fund	706,143	N/A
Vanguard 500 Index Signal Fund	656,546	494,819
T Rowe Price Growth Stock Fund	633,986	441,779
T Rowe Price Mid-Cap Growth Fund	547,246	375,628
Dodge and Cox International Stock Fund	538,701	442,213
T Rowe Price Equity Income Fund	427,527	N/A
Deposit administration contract		
Standard Insurance Company		
Stable Asset Fund II**	2,508,295	2,036,904

^{**} Contract value has been presented as it is the relevant measurement for financial statement purposes. N/A – investment does not represent 5% or more of net assets.

Note 4 - Fair Value Measurement

In accordance with authoritative guidance, the Plan classifies its investments based upon an established fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described below:

Basis of fair value measurement

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Measurement (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate account – Units held in the pooled separate account are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a pooled separate account is classified within level 2 of the valuation hierarchy. The following investments are held in the pooled separate account and exceed 5% of net assets as of December 31, 2013 or 2012:

Harbor Bond Fund – The fund seeks total return. The fund invests at least 80% of its net assets in a diversified portfolio of fixed income instruments, which may include forwards or derivatives such as options, futures contracts or swap agreements. The fund may invest up to 30% of total assets in non-U.S. dollar-denominated securities and may invest without limit in U.S. dollar-denominated securities of foreign issuers. It may invest up to 10% of total assets in preferred stock, convertible securities and other equity related securities.

Columbia Mid-Cap Index Fund – The investment seeks total return before fees and expenses that corresponds to the total return of the Standard & Poor's (S&P) MidCap 400 Index. The fund invests at least 80% of its net assets in common stock that comprise the S&P MidCap 400 Index. In seeking to match the performance of the index, the Investment Manager attempts to allocate the fund's assets among common stocks in approximately the same weightings as the index.

Vanguard 500 Index Signal Fund – The investment seeks to track the performance of a benchmark index that measures the investment return of large-capitalization stocks. The fund employs an indexing investment approach designed to track the performance of the Standard & Poor's 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies. It attempts to replicate the target index by investing all, or substantially all, of its assets in the stocks that make up the index, holding each stock in approximately the same proportion as its weighting in the index.

Note 4 - Fair Value Measurement (continued)

T Rowe Price Growth Stock Fund – The investment seeks long-term growth of capital and, secondarily, increasing dividend income. The fund normally invests at least 80% of its net assets (including any borrowings for investment purposes) in the common stocks of a diversified group of growth companies. It mostly seeks investments in companies that have the ability to pay increasing dividends through strong cash flow. The fund may invest in foreign stocks in keeping with the fund's objectives. It may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

T Rowe Price Mid-Cap Growth Fund – The investment seeks long-term capital appreciation. The fund normally invests at least 80% of net assets (including any borrowings for investment purposes) in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. It defines mid-cap companies as those whose market capitalization falls within the range of either the S&P MidCap 400 Index or the Russell Midcap Growth Index. While most assets will typically be invested in U.S. common stocks, the fund may invest in foreign stocks in keeping with the fund's objectives.

Dodge and Cox International Stock Fund – The investment seeks long-term growth of principal and income. The fund invests primarily in a diversified portfolio of equity securities issued by non-U.S. companies from at least three different countries, including emerging markets. It normally invests at least 80% of its total assets in common stocks, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks of non-U.S. companies. The fund invests primarily in medium-to-large well established companies based on standards of the applicable market.

T Rowe Price Equity-Income Fund – The investment seeks to provide substantial dividend income as well as long-term growth of capital. The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in common stocks, with 65% in the common stocks of well-established companies paying above-average dividends. It typically employs a "value" approach in selecting investments. The fund may invest in foreign stocks in keeping with the fund's objectives. It may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

Deposit administration account – The fair market value of the deposit administration contract is determined by the insurance company by using the income approach. This approach uses the discounted present value of future cash flows attributable to the projected index growth in excess of cash flows driven by the fixed interest rate guarantees for the contract. For 2013 the fixed interest rate set for each quarter was 2.55% and each quarterly investment matures in five years. As the input for the projected index growth for this calculation is unobservable, we have classified the deposit administration contract as level 3 in the fair value hierarchy. See Note 5.

Note 4 - Fair Value Measurement (continued)

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

		December 31, 2013				
		Unfunded	Redemption	Redemption		
	Fair Value	Commitments	Frequency	Notice Period		
Pooled Separate Account A	\$ 5,233,153	None	Daily	30 days		

The following tables disclose by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31:

	2013				
	Lev	rel 1	Level 2	Level 3	Total
Pooled separate account					
Growth funds	\$	-	\$ 1,741,587	\$ -	\$ 1,741,587
Blended funds		-	1,454,849	-	1,454,849
Value funds		-	884,259	-	884,259
Index funds		-	656,546	-	656,546
Bond fund		-	495,912	-	495,912
Deposit administration contract		-		2,508,295	2,508,295
	\$	-	\$ 5,233,153	\$ 2,508,295	\$ 7,741,448
			20	12	
	Lev	rel 1	Level 2	Level 3	Total
Pooled separate account					
Growth funds	\$	-	\$ 1,187,157	\$ -	\$ 1,187,157
Blended funds		-	1,101,940	-	1,101,940
Bond fund		-	1,015,012	-	1,015,012
Value funds		-	609,682	-	609,682
Index funds		-	494,819	-	494,819
Deposit administration contract				2,258,112	2,258,112
	\$	-	\$ 4,408,610	\$ 2,258,112	\$ 6,666,722

Note 4 - Fair Value Measurement (continued)

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses the summary of changes in the fair value of the Plan's level 3 investment assets for the year ended December 31, 2013:

	Deposit Administration Contract	
Balance, beginning of year	\$	2,258,112
Change in fair market value		(221,208)
Contributions		204,925
Interest income		34,572
Transfers from other funds		468,993
Loan payments		34,506
Administrative fees		(665)
Loan issuances		(15,222)
Benefits paid to participants		(255,718)
Balance, end of year	\$	2,508,295

As the guaranteed investment contracts are valued at contract value, there are no realized or unrealized gains or losses for these investments included in the net appreciation in fair value of investments.

The following table represents the Plan's level 3 financial instrument, the valuation technique used to measure the fair value of the instrument, and the significant unobservable inputs and the ranges of values for those inputs.

Name	Fair Value	Valuation Technique	Unobservable Inputs	Range of Input Values
Stable Asset Fund II	\$ 2,508,295	Discounted cash flow	Interest Rate Duration Payout Date Payout Percentage	2.10%-2.55% 0.25-5.00 years 3/31/14-12/31/18 20-100%

Note 5 - Deposit Administration Contract with Standard Insurance Company

The Plan's Stable Asset Fund II is a benefit-responsive deposit administration group annuity contract with Standard Insurance Company. This account is credited with interest at the rate specified in the contract and charged with participant withdrawals. As described in Note 2, because the deposit administration contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the deposit administration group annuity contract. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, less applicable penalties.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting rates on the investment contract are based on a formula agreed upon with the issuer, but may not be less than 0%. Interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The deposit administration contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Accounting standards require that the Plan provide the following disclosures regarding certain investments in deposit administration contracts:

	Average	Crediting	Stable Value Fund II		Adjustment to	
	Yield	Interest Rate	Fair Value	Contract Value	Contract Value	
December 31, 2013	1.38%	2.55%	\$ 2,508,295	\$ 2,508,295	\$ -	
December 31, 2012	1.61%	2.10%	\$ 2,258,112	\$ 2,036,904	\$ (221,208)	

The average yield is based upon annualized earnings of the investment, which may differ from the crediting interest rate, which is based upon the annualized earnings credited to participant accounts. Per the Plan's Custodian, the contract value approximates the fair value at December 31, 2013; accordingly no adjustment is needed for the year ended December 31, 2013.

Note 6 - Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Risks and Uncertainties

Investment securities are exposed to various risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

Note 8 - Information Certified by the Plan's Custodian

The Plan's administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company, the custodian of the Plan, has certified as to the completeness and accuracy of the fair value of investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012. Information contained in the accompanying financial statements, notes, and supplementary information which was certified by Standard Insurance Company is as follows:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net appreciation in fair value of investments and interest income, excluding interest income on notes receivable from participants, reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Investments reflected on the supplementary schedule of assets (held at end of year) as of December 31, 2013, excluding notes receivable from participants.

Note 9 - Party-in-Interest Transactions

As of December 31, 2013 and 2012, certain underlying Plan investments were units of pooled separate accounts managed by Standard Insurance Company, the custodian and, therefore, purchases and sales of these investments qualify as party-in-interest transactions. Certain trustees are also participants in the Plan. Benefit distribution and loan fees paid by the Plan to Standard Insurance Company for the year ended December 31, 2013 totaled \$2,387.

Note 10 - Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

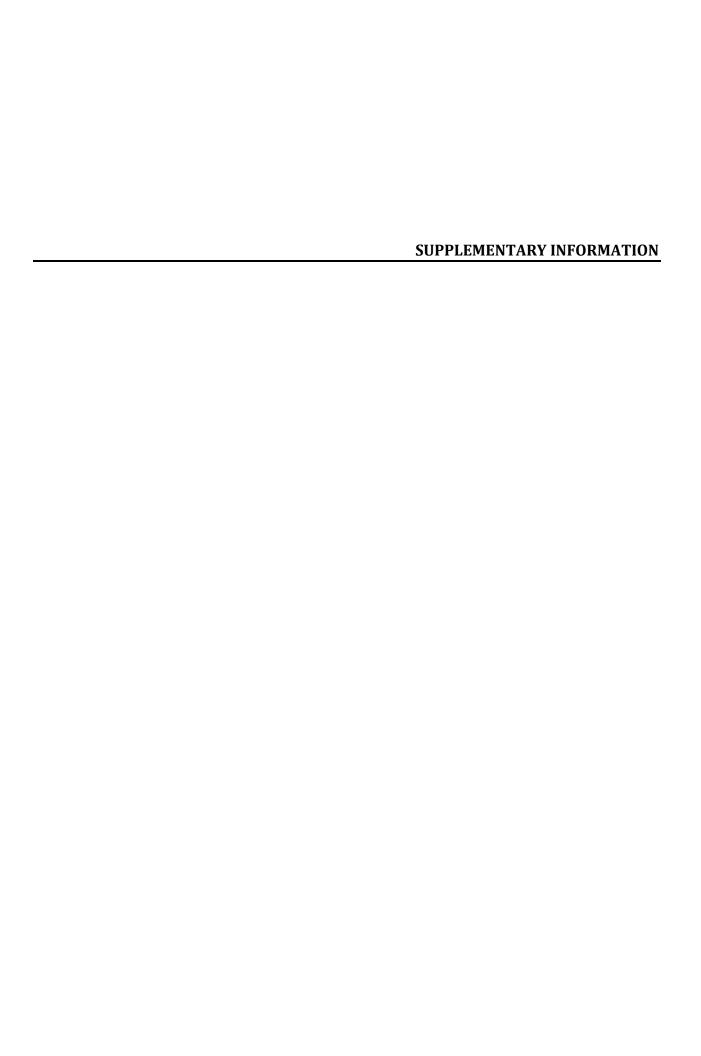

Note 11 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements and the net assets reported on Form 5500 as of December 31:

	2013	_	2012
Net assets available for benefits per the financial statements Participant contributions receivable Employer contributions receivable Rounding	\$ 7,960,843 - (2,398) -		\$ 6,702,254 (11,428) (8,047) (1)
Net assets per form 5500	\$ 7,958,445	_	\$ 6,682,778

The following is a reconciliation of the change in net assets available for benefits per the financial statements and the income reported on the Form 5500 for the year ended December 31:

	2013
Change in net assets per the financial statements Participant contributions receivable Employer contributions receivable Rounding	\$ 1,258,589 11,428 8,047 1
Net income per form 5500	\$ 1,278,065
