SGI, Inc. 401(k) Profit Sharing Plan
c/o David Ruan, CFO

We have conducted a DOL limited-scope audit of the financial statements of SGI, Inc. 401(k) Profit Sharing Plan ("the Plan") for the year ended December 31, 2013 and have issued our report thereon dated September 5, 2014. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3 to those financial statements. Because of the significance of the information that we did not audit, we are unable to, and have not, expressed an opinion on those financial statements and supplemental schedules taken as a whole. We did, however, audit the form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, in accordance with auditing standards generally accepted in the United States of America and found them to be presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated April 21, 2014. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2013. We noted no transactions entered into by the plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. We believe the fair value of the Plan's investments is

particularly sensitive because of their significance to the financial statements. We evaluated the key factors and assumptions used to develop such estimates in determining that they are reasonable in relation to the financial statements as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were related to the fair value of investments and Note 3 and the market and credit risk exposure to the Plan's investments. The financial statement disclosures are neutral, consistent, and clear. The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in performing and completing our audit

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated September 5, 2014.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of you and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We have also read the Plan's Form 5500 to be filed electronically with the DOL with the audited financial statements attached, and noted no material inconsistencies between the Form 5500 and the audited financial statements.

* * * * * * * * *

In planning and performing our audit of the financial statements of ***SGI, Inc. 401(k) Profit Sharing Plan*** (the "Plan") as of and for the year ended December 31, 2013 in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's internal control over financial reporting (internal controls) as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of internal controls. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

Our consideration of internal control was for the limited purpose described in the above paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. However, as discussed below, we identified deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency or combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We did not identify any deficiency in the Plan's internal control to be a significant deficiency:

We did note the following as control deficiencies, which are less severe than a significant deficiency:

Personnel Files

During our audit, we noted several discrepancies related to the date of hire and date of birth per the personnel files compared to the dates listed in the custodian reports.

Recommendation

We recommend that the Plan Sponsor conduct reconciliations between the personnel files and the custodian reports to ensure information is accurate as inaccurate dates will affect eligibility, distributions, catch-up contributions, etc.

Plan Governance and Fiduciary Oversight

During our inquiries with management, we noted that management does not review the SOC 1 Reports issued by the Record-keeper and Trustee of the Plan.

Recommendation

As most transactions are conducted by the Record-keeper/custodian, we recommend that Management review annual SOC 1 Reports and annual plan reports. While the Record-keeper's control activities are subjected to procedures by a service organization auditor, Plan management should be aware of any control deficiencies at the Record-keeper level so that appropriate (additional) controls can be implemented at the Plan Sponsor level to ensure accuracy of the Plan data.

We noted that there were only two formal meetings of plan management or the investment committee documented for the plan year ended December 31, 2013 and one meeting held through September 5, 2014, 2014 as it relates to the oversight of the Plan for the year ending, December 31, 2014. As fiduciaries of the Plan, plan management and/or the investment committee are responsible for administration of the Plan, making prudent decisions on behalf of the Plan, ensuring compliance with all laws and regulations, and determining investment options, etc.

Recommendation

We recommend that the fiduciaries of the Plan meet quarterly and formally document decisions made at committee meetings. It is also helpful to include the Plan administrator and/or Plan advisor in such meetings in order to ensure that decisions are made in accordance with current laws. Performing and documenting necessary, regular due diligence is important for proper plan operation and a prudent practice to aid fiduciary defense in the event of a claim or action against the Plan and/or the trustees.

Investment Options

During our inspection of the list of investments available in the Plan, we noted 33 investment options, which include 28 mutual funds, four common collective trust funds and one money market fund. Having this number of investment options can be confusing and frustrating for employees who are less familiar with investing. This could also discourage employees from participating in the Plan. In addition, we noted that 11% of total investments are in the money-market fund, which had $0 earnings for the plan year ended December 31, 2013.

Recommendation

In connection with the investment policy recommendation above, we recommend that the trustees of the Plan periodically evaluate the list of investment options and determine if 33 options make sense for your employees and their investment risks. Close consideration should be given to what the employees would want from their 401k Plan. In addition, regular investment option training should be provided to participants. Further, Plan management should consider implementing:

a. Formal education programs for the employees, in coordination with the Plan advisor
b. Default investment options so that funds are not maintained in non-interest bearing funds.

This information is intended solely for the use of management of ***SGI, Inc. 401(k) Profit Sharing Plan*** and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Haskell & White LLP

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
SGI, Inc. 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of SGI, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2013, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements referred to in the first paragraph.

Other Matter—Supplemental Schedule

The supplemental schedule of Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Other Matter—2012 Financial Statements

The financial statements of the Plan as of December 31, 2012, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by State Street Bank and Trust, the trustee of the Plan. Their report, dated September 9, 2013, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations 2013

The form and content of the information included in the 2013 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

SGI, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
For the Year Ended December 31, 2013

1. Plan Description

The following description of the SGI, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 as a defined-contribution plan covering substantially all employees of SGI, Inc. and its subsidiaries: A-Mark Precious Metals, Inc., Bowers and Merena Auctions, LLC, HR Harmer Nutmeg Auctions, Inc., Greg Martin Auctions, Inc., Spectrum Auction Services, Spectrum Numismatics International, Inc., Collateral Finance Corporation, Teletrade, Inc. and Spectrum Wine Auctions, LLC (collectively, the Plan Sponsor), and has been amended and restated effective March 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was most recently amended effective January 1, 2012 to exclude certain types of payments to employees from the definition of compensation.

Eligibility

Substantially all employees of the Company who reach the age of 21 and complete three months of service become eligible to participate in the Plan. Employees covered by a collective bargaining agreement are excluded from participation in the Plan if the agreement was subject to negotiations through which retirement benefits were the subject of good faith bargaining. However, if the agreement provides for participation in the Plan, employees covered by the agreement are eligible to participate in the Plan.

Contributions

Participants may contribute up to 90 percent of eligible compensation for the year up to the statutory limit. In addition, if the individual's age is 50 or over during the calendar year, then the employee may be permitted to make an additional catch-up contribution of 100 percent of the participant's compensation up to the statutory limit. Eligible participants are automatically enrolled in the Plan and begin contributing at 3 percent of eligible compensation as defined in the Plan. Each pay period, the Company contributes a matching contribution of 30 percent on the first 60 percent of a participant's compensation, which is contributed as an elective deferral. For the year ended December 31, 2013, the Company made matching contributions totaling $277,822 to the Plan. The Company may also contribute an additional nonelective (profit sharing) amount annually, subject to certain statutory limits, which the Company determines at its discretion. No such nonelective contributions were made to the Plan for the year ended December 31, 2013.

1. Plan Description (continued)

Participant investment options

Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Sponsor, which are more fully described in the Plan's literature.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, investment earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective March 1, 2010, participants are immediately vested in their voluntary contributions, Company matching contributions and nonelective contributions. Previously, Company matching contributions and nonelective contributions became fully vested after completion of one year of service.

Notes receivable from participants

Participants may borrow from their fund accounts in amounts ranging from $500 to $50,000, but not in excess of 50 percent of the vested account balance. Notes are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the note is used to acquire a principal residence, at a term not to exceed 30 years from the date of the note. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of benefits

Upon termination of service, a participant may elect to receive benefits in a lump-sum distribution, on an installment basis, or defer receipt to a date no later than that prescribed by government regulation. Terminated participants with vested account balances of $5,000 or less can be paid in a lump-sum cash amount.

1. Plan Description (continued)

Forfeitures

Forfeitures will be used to pay for Plan expenses or to reduce the Company's future matching contributions under the Plan. For the year ended December 31, 2013, the Company applied $0 of forfeitures to matching employer contributions. As of December 31, 2013 and 2012, there were $0 and $10, respectively, of unallocated forfeitures.

2. Summary of Accounting Policies

The financial statements of the Plan are prepared under the accrual method of accounting.

Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lower priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. Summary of Accounting Policies (continued)

Fair value measurements (continued)

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's valuation methodology used to measure the fair value of registered investment companies (mutual funds) is based on quoted market prices. Investments in common collective trust funds and money market fund are stated at estimated fair value, as determined by the Plan Sponsor. The common collective trust funds and money market fund are valued based primarily on the net asset value (NAV) of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodology used at December 31, 2013 and 2012.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income recognition

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when paid.

2. Summary of Accounting Policies (continued)

Use of estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of net assets available for Plan benefits and changes therein. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events

On February 11, 2014, the Plan rolled all participants employed with A-Mark Precious Metals, Inc., a total of 32 participants, out of the plan with an aggregate balance of $2,763,002.

The plan administrator has evaluated subsequent events through September 5, 2014, the date the financial statements were available to be issued.

3. Assets and Information Certified or Provided by State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company (State Street) and furnished to the plan administrator. The plan administrator has obtained certification from State Street that information provided to the plan administrator by State Street related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule.

See accompanying independent auditors' report.

The investment objectives of the above funds are to seek an investment return that approximates as closely as practicable, before expenses, the performance over the long term of the respective index noted below:

3. Assets and Information Certified or Provided by State Street Bank and Trust Company (continued)

(a) This fund seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share NAV, by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. The fund may invest in shares of other money market mutual funds. Although the fund invests substantially all of its assets in a registered money market mutual fund, the fund itself is not a registered money market fund and is not subject to the various rules and limitations that apply to such funds. There can be no assurance that the fund will maintain a stable NAV.

(b) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index (MidCap Index) over the long term. The fund will typically attempt to invest in the securities comprising the MidCap Index in the same proportions as they are represented in the MidCap Index. From time to time, the fund may purchase securities that are not yet represented in the MidCap Index or sell securities that have not yet been removed from the MidCap Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the MidCap Index, or to hold them in the same weightings as they represent in the MidCap Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund’s returns may vary from the returns of the MidCap Index.

(c) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 (the "Index") over the long term. The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index.

3. Assets and Information Certified or Provided by State Street Bank and Trust Company (continued)

(d) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the Russell 2000® Index (Russell Index) over the long term. The fund will typically attempt to invest in the securities comprising the Russell Index in the same proportions as they are represented in the Russell Index. From time to time, the fund may purchase securities that are not yet represented in the Russell Index or sell securities that have not yet been removed from the Russell Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Russell Index, or to hold them in the same weightings as they represent in the Russell Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund's returns may vary from the returns of the Russell Index.

(e) This fund seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI EAFE® Index (MSCI Index) over the long term. The fund will typically attempt to invest in the securities comprising the MSCI Index in the same proportions as they are represented in the MSCI Index. From time to time, the fund may purchase securities that are not yet represented in the MSCI Index or sell securities that have not yet been removed from the MSCI Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the MSCI Index, or to hold them in the same weightings as they represent in the MSCI Index. In those circumstances, the fund may employ a sampling or optimization technique to construct the portfolio in question. This fund's returns may vary from the returns of the MSCI Index.

4. Tax Status

Effective March 1, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan has received an opinion letter from the Internal Revenue Service, dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended; however, the plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

5. Related-Party Activity

The Plan invests in common collective trust funds managed by State Street Global Advisors (SSGA), a division of State Street Bank and Trust Company, the asset trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The majority of administrative expenses are paid by the Plan Sponsor.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time. In the event of Plan termination, participants would become 100 percent vested in their accounts.
