BRENNAN INDUSTRIES, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following brief description of the Brennan Industries, Inc. 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Brennan Industries, Inc. and Brennan Industries Cleveland Manufacturing Group (collectively, the Company). Each employee of the Company becomes a participant in the Plan on the first entry date following the date the employee attains the age of 21 and six months of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year eligible participants may elect to contribute up to 100% of their compensation to the Plan on a pre-tax basis or after-tax basis, as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company makes a matching contribution for those participants that are employed at year end, have been employed for six months, and earned a minimum of 1,000 hours of service during the Plan year. The matching contribution is a discretionary percentage determined by the Company on an annual basis. Company matching contributions were \$62,093 and \$55,203 for the years ended December 31, 2013 and 2012, respectively. The Company may also make additional discretionary profit sharing contributions to participants' accounts. No additional discretionary profit sharing contributions were made for the years ended December 31, 2013 and 2012. Total annual contributions made to the Plan on behalf of any participant are subject to limitations imposed under the Internal Revenue Code (IRC).

Participant Accounts

Each participant's account is credited with the participant's elective deferral, the Company's matching contributions and an allocation of discretionary profit sharing contributions, and Plan earnings thereon, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

BRENNAN INDUSTRIES, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (continued)

Forfeitures

Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. At December 31, 2013 and 2012, forfeited, nonvested accounts totaled \$3,563 and \$917, respectively. Forfeitures are used to reduce Company matching or discretionary profit sharing contributions. In 2013 and 2012, the Company used \$917 and \$2,491, respectively, of forfeitures to offset the Company's matching contributions.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service according to the following schedule:

<u>Years of service</u>	<u>Vested percentage</u>
Less than 2 years	0%
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's total vested account balance. Loan terms are not to exceed five years unless borrowed for the purchase of a primary residence. The loans are secured by the balance in the participant's vested account and bear interest at a rate commensurate with prevailing interest rates. Principal and interest are paid ratably through payroll deductions. Interest income of \$6,370 and \$5,098 for 2013 and 2012, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, or due to separation of service from the Company, a participant is entitled to receive a distribution of his or her vested account balance in the form of a lump-sum payment. A participant may also receive an in-service distribution if he or she experiences undue financial hardship or upon attainment of age requirements, as defined by the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

BRENNAN INDUSTRIES, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative expenses are paid by the Company. All other administrative expenses are paid by the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

Subsequent Events

The Company evaluated subsequent events through September 9, 2014, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. INVESTMENTS

The Plan's investments at December 31, 2013 and 2012 were held by Great West Life & Annuity Insurance Company and Great West Trust Company, LLC, the custodians. The investments and investment activity have been certified as complete and accurate by Great West Life & Annuity Insurance Company and Great West Trust Company, LLC and have not been audited by the independent auditors. Individual investments that represent 5% or more of the Plan's net assets are separately identified.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 includes those inputs other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts - The fair value of the mutual funds included in the underlying assets are used to determine the net asset value of the account.

Guaranteed portfolio fund - Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

BRENNAN INDUSTRIES, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

5. GUARANTEED PORTFOLIO FUND

During 2013 and 2012, the Plan was invested in a guaranteed portfolio fund through Great West Life & Annuity Insurance Company. This investment is valued at contract value based on a discounted cash flow valuation methodology where the interest rate is reset at least annually. The investment contract prevents the immediate and full payout of the contract value for plan-initiated transactions; therefore the investment is not benefit responsive.

6. TAX STATUS

The Company adopted a Prototype Non-Standardized Volume Submitter Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their account balances.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and a guaranteed portfolio fund managed by Great West Life & Annuity Insurance Company and Great West Trust Company, LLC. Great West Life & Annuity Insurance Company and Great West Trust Company, LLC are the custodians, and therefore, these transactions are considered party-in-interest transactions.

BRENNAN INDUSTRIES, INC. 401(k) RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

9. EXCESS CONTRIBUTIONS PAYABLE

In order to pass the 2013 and 2012 Actual Deferral Percentage (ADP) Test, the Plan administrator elected to refund excess elective deferrals and earnings thereon to highly-compensated employees. For the Plan year ended December 31, 2013, participants' contributions were reduced by \$15,358 and net appreciation was decreased by \$2,300. For the Plan year ended December 31, 2012, participants' contributions were reduced by \$36,849 and net appreciation was decreased by \$3,914. The reductions represent amounts payable to active participants to return to them excess deferrals, as required to satisfy the relevant nondiscrimination provisions of the Plan for the years ended December 31, 2013 and 2012. These amounts have been included as excess contributions payable in the accompanying Statements of Net Assets Available for Benefits.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
