Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in note 3, which was certified or provided by Standard Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's assets and executes transactions. The Plan administrator has obtained certifications from the custodian as of December 31, 2013 and 2012 and for the year ended December 31, 2013 and the period from July 1, 2012 (date of inception) through December 31, 2013 that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With the Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the DPT Laboratories, Ltd. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. DPT Laboratories, Ltd. is the Plan sponsor.

General

The Plan is a defined contribution plan that covers substantially all employees of DPT Laboratories, Ltd. and affiliate companies participating in the Plan (collectively, the "Company") who have completed 30 days of service and are age 18 or older. Certain employees of the Company are members of a union that provides retirement benefits. These employees are not eligible to participate in the Plan. Eligible participants are automatically enrolled in the Plan once they have completed 30 days of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In July 2013, the Plan was amended to allow participants to defer contributions into a Roth account.

Contributions

The Company may, at its discretion, make a primary matching contribution of the participant's contribution, limited to 5% of the participant's annual compensation, as defined by the Plan. For 2013 and 2012 the Company matched 50% of the participant's contribution up to 5% of the participant's annual compensation, as defined by the Plan. Participants eligible to receive matching contributions are those who have completed 1,000 hours of service, are age 18 or older, and are employed on December 31 for the respective year. Secondary profit-sharing amounts may be contributed at the option of the Company's Board of Directors. No secondary profit-sharing amounts were made for 2013 or 2012. Company contributions are subject to certain limitations.

Participants may elect to contribute up to the annual maximum amount allowed by the Internal Revenue Code ("IRC"). If automatically enrolled, a participant's deferral is automatically set at a contribution rate of 3% of compensation, as defined by the Plan. Participants can make an election not to participate, or choose a different percentage deferral. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts (rollovers) representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100% vested in their voluntary contributions.

Participant Accounts

Participants direct the investment of their contributions into various fund options offered by the Plan. Participants can change their investment options on a daily basis. If a participant is automatically enrolled, the participant's contributions are invested in the applicable life cycle fund based on the participant's age until the participant changes the investment election. Company contributions are allocated to the participant's investment options in the same manner as that of the participant's elective contributions.

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching contributions have a four year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 1 year	0%
1 year	25%
2 years	50%
3 years	75%
4 years	100%

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan administrator. Principal and interest are paid through payroll deductions. Loan terms range from 1 to 5 years, or up to 30 years for the purchase of a primary residence. Other than for the purchase of a primary residence, a participant may not have more than two loans outstanding at any point in time. Interest rates on loans outstanding at December 31, 2013 range from 5.25% to 10.00%.

Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contributions to the applicable participants prior to March 15, 2014.

Payment of Benefits

On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or periodic payments as defined by the Plan. Any balance under $5,000 is automatically paid out as soon as administratively possible. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are also available subject to certain limitations.

Forfeitures
Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. During 2013 and 2012, employer contributions were reduced by $22,102 and $49,873 from forfeited nonvested accounts, respectively. At December 31, 2013 and 2012, there were no unallocated forfeitures. In the event there are no employer contributions or Plan expenses for which the forfeitures can be used, the forfeitures are allocated to the participants per the Plan agreement.

Administrative Expenses
Administrative expenses may be paid by either the Plan sponsor or the Plan, as provided by the Plan document. Loan administration fees are paid by the participant electing the loan.

2. Summary of Significant Accounting Policies

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Basis of Accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Contract With Standard Insurance Company
Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
The Plan has evaluated subsequent events through August 1, 2014, the date the financial statements were available to be issued and found no events requiring disclosure.

3. Information Certified and Provided by Standard Insurance Company

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard Insurance Company ("Standard"), the custodian, has certified the following information included in the accompanying financial statements and supplemental schedule:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2013 and 2012

- Investment income and interest income on notes receivable from participants, as shown in the statements of changes in net assets available for benefits for the year ended December 31, 2013 and the period from July 1, 2012 (date of inception) through December 31, 2012

- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2013

- The contract and fair value of the fully benefit responsive investment contract as of December 31, 2013 and 2012

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

	2013	2012
Guaranteed Interest Fund	**$ 8,696,720**	$ 7,760,347
T. Rowe Price Mid-Cap Growth	**5,355,829**	4,023,683
T. Rowe Price Blue Chip Growth	**4,647,926**	3,444,136
Aston Fairpointe Mid Cap Fund I	**3,187,424**	*
Vanguard Windsor II Admiral	**3,026,500**	*
Vanguard 500 Index Signal	**2,994,400**	2,416,052
Harbor Bond Fund	*	2,676,805
Scout International	*	2,504,423

*Did not meet 5% criteria at respective financial statement date.

The Plan's investments, including gains and losses on investments bought and sold, as well as held during the year ended December 31, 2013 and the period ended December 31, 2012, appreciated in fair value by $10,306,281 and $2,424,857, respectively. The appreciation in fair value was attributable to pooled separate accounts.

5. Fair Value Measurements

The Financial Accounting Standards Board's ("FASB") Accounting Standards Codification ("ASC"), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's ASC, *Fair Value Measurements and Disclosures*, are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012:

- Guaranteed interest fund – Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is

determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology used by Standard, the DPT Laboratories 401(k) Plan Committee evaluates a variety of factors as supplied by Standard, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

- Pooled separate accounts – Primarily valued at net asset value per share based on quoted market prices of underlying investments.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	December 31, 2013

6. Investment Contract With Standard Insurance Company

The Plan offers as an investment option a benefit-responsive investment contract with an insurance company. Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract with Standard is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract with Standard. The investment contract with Standard is presented at fair value on the face of the statements of net assets available for benefits, with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Standard has approximated the fair value to be the contract value for the year ended December 31, 2013; therefore, no adjustment to total net assets is necessary.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract with Standard at December 31, 2013 and 2012 totaled $8,696,720 and $8,603,121, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The investment contract with Standard does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield and crediting rate was approximately 3.03% and 3.01% for 2013 and 2012, respectively.

7. Party-in-Interest Transactions

The Plan sponsor paid certain administrative expenses related to the Plan for year ended December 31, 2013 and the period from July 1, 2012 (date of inception) through December 31, 2012.

8. Plan Transfers

On July 1, 2012, an aggregate of $43,085,986 was transferred to the Plan from DFB Pharmaceuticals Inc. Employee Retirement Plan.

9. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan sponsor contributions.

10. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Effective July 1, 2012, the Plan adopted a standardized form of a prototype plan provided by Standard. The prototype plan has received a determination letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

11. Risks and Uncertainties

The Plan invests in various types of investments. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	December 31, **2013**	December 31, 2012
Net assets available for benefits per the financial statements	**$ 59,452,900**	$ 46,620,712
