THREE WAY CHEVROLET CO. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF THE PLAN:

The following description of the Three Way Chevrolet Co. 401(k) Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution covering all employees of Three-Way Chevrolet Company (The Company). The Plan was initiated on January 1, 1994. All full-time employees who have completed one year of continuous service, including 1,000 hours, and are age 21 or older are eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

AMENDMENT

Effective December 15, 2012, the Plan was amended and restated, and a new trustee was appointed. Plan assets transferred to the new trustee were transferred into funds comparable to those offered by the previous trustee. The conversion initiated a blackout period beginning December 16, 2012 and continuing through December 23, 2012. During this period, funds could not be applied to the employee-selected funds with the trustee or withdrawn from the Plan until the trustee had time to accurately complete the conversion.

TAX STATUS

The Plan had received a determination letter from the Internal Revenue Service dated March 31, 2008 stating that the Prototype Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Generally accepted accounting principles prescribe requirements for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken by the Plan. Management has evaluated the Plan's design and operation and has concluded that the Plan is designed and has been operated in compliance with the applicable requirements of the IRC. Further, management believes that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by the IRS and generally, the Plan's tax returns remain open for federal income tax examination for three years from the date of filing.

CONTRIBUTIONS

Participants may elect, by submitting a written request to the Plan administrator, to have their wage compensation reduced by a designated dollar amount of percentage up to the maximum percentage allowable under the limitations of IRC Sections 415, 401(k) and 404. This deferred amount flows directly to the Plan. Effective December 15, 2012, matching contributions were implemented by the Plan. Employer matching contributions are discretionary. Employer's contributions for 2013 and 2012 totaled $26,889 and $871, respectively. Participants may change their rate of contribution monthly and their investment election daily.

1. DESCRIPTION OF THE PLAN: (Continued)

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution, the employer's contributions, and an allocation of the Plan's earnings. The Plan's earnings and investment expenses are allocated according to participants' relative account balances in the investment options. Certain participant fees, if applicable, are also charged to participant accounts.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments. These participants share in the earnings of the investments.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range up to 5 years. The loans are collateralized by the balance in the participant's account and bear interest using the prime rate as specified in the Wall Street Journal. Principal and interest are paid ratably through payroll deductions. Loan processing fees are deducted from the borrowing participant's account.

VESTING

Participants of the Plan are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the employer's discretionary contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service. In the event of a participant's death, disability, or reaching age 65, participants become fully vested in their account.

FORFEITED ACCOUNTS

Forfeited non-vested accounts totaled $779 and $126 at December 31, 2013 and 2012, respectively. Forfeitures are available to reduce future employer contributions match and expenses.

PAYMENTS OF BENEFITS

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment, disability, or death, as a lump sum, or partial payments.

Distributions may be deferred until the participant reaches the age of 70½ if the value of the distribution is not less than $1,000. However, the Plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70½.

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their pre-tax deferral account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to deferred account balances and may not include any interest earned thereon.

In service distribution of employee deferral amounts may be taken after age 59½.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. The Plan's investments are stated at their fair market value. Shares of registered investment companies are valued at their quoted market prices, which represent the net asset value of shares held by the plan at year end. All purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends earned are recorded on the ex-dividend date.

INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's funds are stated at fair value. Except for the outstanding notes receivable from participants, fair value of the funds is determined based on the underlying investments of the related funds, as reported by Frontier Trust Company, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for plan withdrawals and administrative expenses incurred.

Purchases and sales of these investments are reflected on the trade dates. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principals generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

EXPENSES

Certain custodian and administrative expenses are paid by the Plan. Other expenses are paid by the Plan's sponsor. Management fees are operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation (depreciation) in fair market value of investments for such investments.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

SUBSEQUENT EVENTS

The plan administrator has evaluated subsequent events through September 10, 2014, the date the financial statements were available to be issued, and no events were found requiring recording or disclosure in these financial statements for the year ended December 31, 2013.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE (UNAUDITED):

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Frontier Trust Company, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013, and 2012, the supplemental Schedule H, line 4-Schedule of Assets (Held at End of Year) as of December 31, 2013; and the related investment activity reflected in the statements of changes in net assets available for benefits for the year ended December 31, 2013.

4. ASSETS HELD FOR INVESTMENT PURPOSES (UNAUDITED):

The following investments represent 5% or more of the net assets available for benefits as of:

	December 31, 2013	December 31, 2012
Interest in registered investment companies:		
Invesco Money Market Fund	$ 686,944	$ *
Pimco Total Return	329,041	513,846
Janus Triton Retirement	291,730	227,803
Templeton Global Bond	*	346,235
JP Morgan Intrepid Value	641,624	702,613
Victory Small Company Opportunity	282,402	242,956
Thornburg International Growth	443,938	324,530
Growth Fund America	868,027	817,298
Aberdeen Emerging Markets	332,515	*

* Less than 5% of net plan assets.

5. RELATED PARTY TRANSACTIONS:

During the period ended December 31, 2013 and 2012, there were no related-party transactions, which are prohibited by ERISA and for which there are no statutory or administrative exemptions.

The Plan investments at year end include assets managed by Ascensus as agent for Frontier Trust Company. Ascensus as agent for Frontier Trust Company is the trustee as defined by the Plan and, therefore these transactions qualify as party-in interest.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the board of directors of the Company has the right to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). In the event the Plan is terminated, each participant shall have a 100% vested interest in his or her account. In the event of a participant's death, disability or upon reaching age 65, participants are immediately vested in their accounts.

7. FAIR VALUE MEASUREMENTS:

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820-10 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quotes prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarch is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks, corporate bonds and U.S. government securities - Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds - Valued at the net assets value ("NAV") of shares held by the plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

7. FAIR VALUE MEASUREMENTS: (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

	Assets at Fair Value as of December 31, 2013

CHANGES IN FAIR VALUE LEVELS

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2, or 3.

8. RISK AND UNCERTAINTIES:

The Plan invests in various investments securities. Investment securities are exposed to various risk factors such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. RECONCILATION OF FINANCIAL STATEMENTS TO FORM 5500:
