Report of Independent Certified Public Accountants

To the Plan Administrator of
Georgia-Pacific LLC Hourly 401(k) Plan:

Report on the financial statements

We were engaged to audit the financial statements of **Georgia-Pacific LLC Hourly 401(k) Plan** (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 6, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of December 31, 2013 and 2012, and for the year ended December 31, 2013, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note 6, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following brief description of the Georgia-Pacific LLC Hourly 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for more complete information.

General

The Plan is a defined contribution plan covering certain groups of hourly employees of Georgia-Pacific LLC or its affiliates (the Company or Plan Sponsor) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Aon Hewitt Associates LLC (Hewitt) is the recordkeeper for the Plan and The Bank of New York Mellon/BNY Mellon, N.A. (BNY Mellon) is the Plan's trustee. BNY Mellon holds all investment assets of the Plan in the Koch Companies Defined Contribution Master Trust (Master Trust).

As described in the plan document, employment status changes permit the affected participants to voluntarily transfer their balances between plans sponsored by the Company or by one of its affiliates. Such transfers are reflected in the net plan transfers amount in the statement of changes in net assets available for benefits.

Eligibility

All hourly paid employees of the Company who are members of a participating group at a location where the Plan is in effect are eligible to participate in the Plan upon date of hire. Company matching contributions, if applicable, begin the first pay date of the month after completing one year of service.

Contributions and Vesting

The Plan allows for participants to contribute up to 75% of their eligible compensation on a pre-tax or a Roth post-tax basis subject to the annual limitation specified by the Internal Revenue Code (the Code). The percent of the Company's match (if any) and whether certain bonuses and compensation for unused vacation and holidays may be contributed are governed by the collective bargaining agreement, if any, applicable to the participant's respective location. Participants who have attained age 50 or older during the plan year are eligible to make additional contributions to the Plan.

Participants are immediately vested in their contributions and the Company's contributions.

For employees who are automatically enrolled in the Plan, the initial pre-tax contribution is 3% of eligible compensation and increases 1% per year until the total deferral is 6% of compensation. Participants may opt out of contributing at any time.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's share of the investment fund's earnings (losses), the Company's contributions and the participant's contributions. Allocation of earnings (losses) and administrative expenses are based on relative account balances and the participant's investment elections. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals Upon Termination of Employment

Withdrawals from participant accounts upon termination may be made for the following reasons: termination of employment, retirement, death, or disability. Upon occurrence of one of these events and upon election of the participant, the Plan will distribute to the participant up to 100% of the participant's vested account balance in a lump-sum payment.

Withdrawals While Employed

Hardship withdrawals are permitted if certain criteria are met, as defined by the Plan and are subject to taxes in the year received. Hardship withdrawals (either full or partial) are paid in cash and result in a suspension of the right for a participant to make elective contributions to the Plan for a period of six months. Other withdrawals while still employed include (if applicable) age 59 ½ withdrawals, rollover accounts withdrawals, certain grandfathered after-tax accounts, and active military withdrawals.

Notes Receivable from Participants

The Plan allows participants currently employed by the Company to obtain up to two loans equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have two loans outstanding at any time. Loans bear interest at a rate equal to the prime lending rate plus 1% at the date of origination of the loan and are secured by the balance of the participant's vested account. Loan repayments are generally made through payroll deductions and normally must be repaid within a five-year term, unless the loan was used to purchase a primary residence, which could extend the term to 15 years. An eligible borrower who terminates employment and has an outstanding loan may, if his or her account balance under the Plan equals or exceeds $5,000, continue to repay his or her loan directly to the Recordkeeper in accordance with his or her loan agreement until the earlier of the date the loan is repaid in full or the account is distributed.

2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires the Plan's management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment gain/loss includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Reporting of Guaranteed Investment Contracts

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, presents the fair value of the Plan's interest in the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

Subsequent Events

Effective January 2, 2014, participants' investment account balances of the Buckeye Retirement Plan (Buckeye Plan) of Buckeye Technologies, Inc. (Buckeye) were liquidated, and the cash and participant loans were transferred into the Georgia-Pacific LLC 401(k) Retirement Savings Plan (GP RSP) in the amount of $258,365,212. As the transferred balance included balances of both salaried and hourly employees, the account balances and participant loans of the hourly employees were subsequently transferred from GP RSP to the Plan in the amount of $140,086,302. As a result of the merger, former Buckeye Plan participants were allowed to begin participating in the Plan on the effective date.

The transfer was pursuant to the Agreement and Plan of Merger between the Plan Sponsor and Buckeye Technologies, Inc. (Buckeye) dated April 23, 2013 whereas the Plan Sponsor will provide for the transition of certain former and current employees with account balances under the Buckeye Plan.

The Plan administrator has evaluated any further subsequent events through July 28, 2014, the date the financial statements were available to be issued.

3 Investment in Master Trust

The Plan's interest in the net assets of the Master Trust was 17% and 17% at December 31, 2013 and 2012, respectively. Investment income (loss) of the Master Trust is allocated to individual plans based on average daily balances invested by each plan.

As described in Note 2, the Master Trust invests in a Stable Value Fund that holds fully benefit-responsive guaranteed investment contracts. The following table presents the net assets of the Master Trust including the fair value of the Stable Value Fund as well as the adjustment of the fully benefit-responsive guaranteed investment contracts from fair value to contract value:

December 31	2013	2012
Interest receivable	**$ 14,274**	$ 40,485
Investments at fair value:		
Mutual funds	**375,116,804**	382,678,285
Common collective trusts	**5,324,816,710**	4,456,107,391
Stable value fund	**461,590,138**	457,778,227
Investments at fair value	**6,161,523,652**	5,296,563,903
Accounts payable	**455,875**	417,495
Net assets of the Master Trust at fair value	**6,161,082,051**	5,296,186,893
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	**(390,269)**	(11,498,856)
Net assets of the Master Trust	**$ 6,160,691,782**	$ 5,284,688,037

Net investment gain of the Master Trust is as follows:

For the year ended December 31	2013
Appreciation (depreciation) in fair value of investments:	
Common collective trusts	**$ 940,387,480**
Stable value fund	**7,257,401**
Net appreciation in fair value of investments	**947,644,881**
Interest and dividends	**267,497**
Investment manager expense	**(2,140,973)**
Net investment gain	**$ 945,771,405**

4 Stable Value Fund

The Master Trust holds investments in synthetic guaranteed investment contracts (GICs) and other assets as part of the Stable Value Fund.

A synthetic GIC, also known as a wrapper contract, is an investment contract issued by an insurance company or other financial institutions designed to provide a contract value wrapper around a portfolio of bonds or other fixed income securities that are owned by the fund.

The fair value of each synthetic GIC contract is calculated based on the fair value of the investments underlying the contract, which are valued using the market approach. The fair value of each synthetic GIC wrapper is calculated using the replacement cost approach by discounting the difference between indicative replacement cost and the current annual fee multiplied by the contract value times the duration of the contract.

The contract value of synthetic GICs represents contributions made under the contract and reinvested income, less any withdrawals plus accrued income. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

The synthetic GICs provide a fixed return on principal over a specified period of time through fully benefit responsive contracts or wrapper contracts issued by a third party which are backed by underlying assets owned by the Stable Value Fund. The portfolio of assets underlying the synthetic GICs includes collective trust funds, U.S. government and agency securities, municipal bonds, and corporate notes and bonds.

The crediting interest rates for the synthetic GICs are calculated on a quarterly basis (or more frequently, if necessary) using the contract value, and the market value, yield and duration of the underlying securities, but cannot be less than zero. The crediting interest rate of the Stable Value Fund was 1.25% and 1.97% at December 31, 2013 and 2012, respectively.

The relationship of future crediting rates and the adjustment to contract value reported on the statement of net assets available for benefits is provided through the mechanism of the crediting rate formula. The difference between the contract value and the fair market value of the investment of each contract is periodically amortized into each contract's crediting rate. The amortization factor is calculated by dividing the difference between the fair market value of the investment and the contract value by the duration of the bond portfolio covered by the investment contract.

Key factors that could influence future average interest crediting rates include but are not limited to: Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund, and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer.

The average market value yield of the Stable Value Fund was 1.67% for 2013 (calculated by taking the average of the quarterly market value weighted yields of the investments). The average yield earned by the Stable Value Fund that reflects the actual interest credited to participants was 1.60% for 2013 (calculated by dividing annualized earnings credited to participants by the market value of the Stable Value Fund).

There are certain events not initiated by the Plan participants that could limit the ability of the Plan to transact with the issuer of a synthetic GIC at its contract value. Specific coverage provided by each synthetic GIC may be different from each issuer, and can be found in the individual synthetic GIC contracts held by the Plan. Examples of such events include but are not limited to: the Plan's failure to qualify under the Code; full or partial termination of the Plan; involuntary termination of employment as a result of a corporate merger, divestiture, spin-off or other significant business restructuring, which may include early retirement incentives or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing Plan by the plan sponsor, the introduction of a competing investment option or other plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from the Stable Value Fund; and events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations.

The Plan administrator does not believe that the occurrence of any of the aforementioned events, which will limit the Plan's ability to transact with the issuer of a GIC at its contract value with participants, is probable.

5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (FASB ASC) section 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

Collective trust funds: Valued based on the year-end unit value as determined by the issuer by dividing the fair values of the total net assets of the fund at year-end by the outstanding units. The fair value of the total net assets is determined by the nature of the fund's underlying investments.

Stable value fund: Valued at fair value measured as the net asset value (NAV) per unit based on the fair value of the underlying investments, which include synthetic investment contracts (See Note 4).

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, a summary of Master Trust investments at fair value as of December 31, 2013 and 2012:

December 31, 2013	Level 1	Level 2	Level 3	Total
Collective trust funds:				
Target date funds	**$ -**	**$ 1,188,120,252**	**$ -**	**$ 1,188,120,252**
Domestic equity	**-**	**2,529,472,074**	**-**	**2,529,472,074**
International equity	**-**	**744,800,090**	**-**	**744,800,090**
Fixed income	**-**	**484,139,894**	**-**	**484,139,894**

Total investments at fair value	**$ 375,116,804**	**$ 5,786,406,848**	**$ -**	**$ 6,161,523,652**

December 31, 2012	Level 1	Level 2	Level 3	Total
Collective trust funds:				
Target date funds	$ -	$ 947,456,078	$ -	$ 947,456,078
Domestic equity	-	1,881,341,172	-	1,881,341,172
International equity	-	649,284,316	-	649,284,316
Fixed income	-	656,551,032	-	656,551,032
Balanced	-	321,474,793	-	321,474,793
Mutual fund - money market	382,678,285	-	-	382,678,285
Stable value fund	-	457,778,227	-	457,778,227
Total investments at fair value	$ 382,678,285	$ 4,913,885,618	$ -	$ 5,296,563,903

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there were no significant transfers in or out of Levels 1, 2 or 3.

6 Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BNY Mellon, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net investment earnings and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013.

7 Plan Termination

The Company has reserved the right to amend, modify, suspend or terminate the Plan at any time, subject to the provisions of ERISA.

8 Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 19, 2012, that the Plan and related trust are designed in accordance with applicable section of the Code. The Plan has been amended since receiving the determination letter, however, the Plan administrative committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 and 2012, and for the year ended December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

9 Related-party Transactions

During the year ended December 31, 2013, the Koch Companies Defined Contribution Master Trust paid $343,993 in fees to BNY Mellon, the trustee, on behalf of the participants.

10 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

11 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

December 31	2013	2012
Net assets available for benefits per the financial statements	**$ 1,100,274,666**	$ 970,116,565
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	**44,072**	1,185,618
Net assets available for benefits per Form 5500	**$ 1,100,318,738**	$ 971,302,183

The following is a reconciliation of investment gain per the financial statements to Form 5500:

For the year ended December 31	2013
Investment gain per the financial statements	**$ 143,439,946**
Current period adjustment from fair value to contract value for fully benefit-responsive investment contract	**44,072**
Prior period adjustment from fair value to contract value for fully benefit-responsive investment contract	**(1,185,618)**
Investment gain per Form 5500	**$ 142,298,400**

12 Plan Transfers

During 2013, certain participants transferred their balances between the plans sponsored by the Company or by one of its affiliates. Plan transfers in totaled $349,498. Plan transfers out totaled $3,427,168.
