NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following brief description of the Fasteners for Retail, Inc. 401(k) Profit Sharing Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, covering certain employees of Fasteners for Retail, Inc. (the Company) who have completed six months of employment and have attained age 18. Certain employee groups are excluded as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2012, the Company made the decision to merge the Fasteners for Retail, Inc. Plan B Profit Sharing Plan and Trust (Plan B) into the Plan. In accordance with the merger, the majority of assets transferred on December 31, 2012. The total amount of assets transferred from Plan B was \$5,160,641, including \$199,837 recorded as a receivable as of December 31, 2012.

Contributions

Each year eligible participants may elect to have between 1% and 100% of their compensation contributed to the Plan through payroll reductions on a pre-tax or after-tax basis, as defined by the Plan. Participants are able to direct their contributions into a variety of investment options offered by the Plan.

The Company will make matching contributions to participants' accounts equal to 50% of their contributions up to 6%. The Company will also make a Safe Harbor non-elective contribution to participants' accounts at an amount equal to 3% of their compensation. The Company may also make discretionary contributions. Total annual contributions made to the Plan on behalf of any participant are subject to limitations imposed under the Internal Revenue Code (IRC). Participants may also rollover amounts representing distributions from other qualified defined benefit and defined contribution plans.

Company matching contributions were \$277,138 and \$200,555 for the years ended December 31, 2013 and 2012, respectively. Safe Harbor non-elective and discretionary contributions were \$446,442 and \$423,369 for the years ended December 31, 2013 and 2012, respectively.

The Company identified certain qualified compensation that was not included in the calculation of employee deferrals through December 31, 2013. The Company will be making corrective contributions to the Plan during 2014. The corrective contributions, totaling \$42,689, will be made using the self-correction method consisting of \$20,890 representing 50% of eligible employee deferrals, \$13,371 representing employer match contributions on 100% of employee deferrals, and \$8,428 of investment earnings on the total employee and employer contributions for that period. The corrective employee deferrals and investment earnings are reflected in the Company's contributions receivable in the 2013 Statement of Net Assets Available for Benefits. The corrective employer match contributions will be offset by Plan forfeitures.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (continued)

Administrative Expenses

Administrative expenses are paid by the Plan or the Company, at the discretion of the Company.

Vesting

Participants are immediately vested in their salary deferral contributions, Safe Harbor non-elective contributions and discretionary contributions plus actual earnings thereon. Participants are 100% vested in the remainder of their accounts after three years of service.

Participant Accounts

Each participant's account is credited with his or her payroll reduction contributions, rollovers, the Company's matching contribution, an allocation of Safe Harbor non-elective and discretionary contributions, investment earnings, and charged with an allocation of administrative expenses. The Company's Safe Harbor and discretionary contributions are allocated to participant accounts based on the participant's proportionate share of total compensation paid to all participants. Administrative expenses are allocated based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. At December 31, 2013 and 2012, forfeited, non-vested accounts totaled \$71,448 and \$3,462, respectively. There were no forfeitures used to offset the Company's matching contributions in 2013 and 2012, respectively.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000. Notes receivable terms range from one to five years or up to 15 years for the purchase of a primary residence. Notes receivable are secured by the balance in the participant's account and bear interest at the prime rate at the time of issuance. Principal and interest are paid ratably through payroll deductions. Interest income of \$14,978 and \$8,727 for the years ended December 31, 2013 and 2012, respectively, has been recorded as other income in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN (continued)

Payment of Benefits

Upon reaching age 59 ½, proven financial hardship, or termination of service due to death, disability or retirement, or separation of service from the Company, a participant is entitled to receive a distribution of his or her vested account. If the vested account balance is \$5,000 or less, the balance will be paid in the form of a lump-sum payment as soon as is administratively feasible following the event that entitles the participant to a distribution. If the vested account balance is greater than \$5,000, the participant can choose either a single lump-sum payment of a portion of the participant's account balance or a single lump-sum payment of the participant's entire account balance. Participants may elect to receive distributions in installments if they are subject to required minimum distributions. In the case of either retirement after age 65, death or disability during employment, the participant becomes 100% vested in his or her account balance. Hardship distributions are limited to employee deferrals, matching contributions, and rollovers from other plans.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. In 2012, the Plan invested in investment contracts through a common/collective trust and a group annuity contract. In 2013, the Plan invested in investment contracts through a group annuity contract. For the common/collective trust, contract value, as reported to the Plan by Fidelity Management Trust Company, the administrator of the common/collective trust, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses as of December 31, 2012. For the group annuity contract, as reported to the Plan by Great West Life and Annuity Insurance Company, contract value is calculated based on contributions plus earnings, less Plan withdrawals and administrative expenses. As of December 31, 2012, the Statement of Net Assets Available for Benefits presented the fair value of the common/collective trust as well as the adjustment from fair value to contract value. The Statements of Net Assets Available for Benefits should present the fair value of the investment in the group annuity contract as well as the adjustment of the investment in the group annuity contract from fair value to contract value; however, for the Plan, contract value approximates fair value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on the investments purchased and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Group Annuity Contract

The Plan has a group annuity contract that is fully benefit-responsive and is recorded at contract value. Earnings on the contract are based on interest calculated at a specified rate. The average yields for 2013 and 2012 were 1.26% and 1.45%, respectively. The crediting interest rates as of December 31, 2013 and 2012 were 1.26% and 1.45%, respectively. Crediting interest rates are determined daily by dividing earned income for the day by the new contract value. There are no events that may limit the ability of the Plan to transact at contract value. The investment advisor or the contract owner may terminate the group annuity contract with 60 days advance written notice to the other party.

Subsequent Events

The Company evaluated subsequent events through September 11, 2014, the date these financial statements were available to be issued. Other than the corrective contributions matters disclosed in Note 1 and Note 8, there were no subsequent events that required recognition or additional disclosure in these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 inputs include those other than quoted prices that are observable for the asset or liability. Level 2 inputs are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies – Valued at quoted market prices.

Common/collective trust – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Group annuity contract – Valued by using the fixed income rider formula, which takes into consideration index rates and declared interest rates relating to the group annuity contract.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FASTENERS FOR RETAIL, INC. 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO THE FINANCIAL STATEMENTS

5. COMMON/COLLECTIVE TRUST

During the year ended December, 31, 2012, the Plan invested in the Fidelity Managed Income Portfolio Fund (the Portfolio), a fully benefit-responsive investment contract through the Fidelity Group Trust for Employee Benefit Plans.

The Portfolio invested in assets (typically fixed-income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements), entered into "wrapper" contracts issued by third-parties, and invested in cash equivalents represented by shares in a money market fund.

Average Yields for the year ended December 31, 2012:

Based on actual earnings (underlying investment return)	1.70%
Based on interest rate credited to participants	1.05%

Distributions to the Portfolio's unit holders were declared daily from the net investment income and automatically reinvested in the Portfolio on a monthly basis, when paid.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) not consented to by the wrap issuer, (2) any communications with participants to induce them to transfer assets in or out of the portfolio, (3) any early retirement, group termination, facility closing, or other program or exclusion of previously eligible employees, (4) establishment of a plan that competes for employee contributions, (5) any change in law or regulation that could have a material adverse effect on the portfolio's cash flow, or (6) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their account balances.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments at December 31, 2013 and 2012 are invested in funds managed by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC. Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC are the trustees as defined by the Plan document and, therefore, these transactions are considered party-in-interest transactions.

FASTENERS FOR RETAIL, INC. 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO THE FINANCIAL STATEMENTS

8. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan and related trust were designed in accordance with applicable sections of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
