DESCRIPTION OF PLAN

The following description of the Townsend Leather Co., Inc. 401(k) Retirement Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Townsend Leather Co., Inc., the "Company", who have one year of service, that is greater than 1,000 hours of service, are age twenty-one or older, and are employed by the Company on the last day of the Plan year. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to a statutory limit of $17,500 and $17,000 of pretax annual compensation in 2013 and 2012, respectively. Participants who have attained the age of 50 before the end of the Plan years are eligible to make additional catch-up contributions of up to $5,500 each. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 11 mutual funds and a money market fund as investment options for participants. Effective May 1, 2002, the Company is required under the plan agreement to make annual safe harbor nonelective contributions of 3% of participants' base compensation. The Company may also make an additional discretionary contribution at the option of the Company's board of directors. Both of these contributions, if made, are invested in a portfolio of investments as directed by each participant.

During 2010, the Company amended the Plan, removing the requirement for making the 3% safe harbor nonelective contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's safe harbor and discretionary contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. For employer contributions and earnings, participants are vested according to a six-year vesting schedule.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates equal to regional bank rates for similar loans. Principal and interest is paid ratably through payroll deductions. The maximum term of the loan is 5 years.

DESCRIPTION OF PLAN (continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Effective for distributions commencing on or after January 1, 2010, the only form of payment under the plan is a single lump sum payment.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $1,358 and $8,494, respectively. These accounts are reallocated to the remaining participants during the following plan year in the same manner as employer contributions, and are included with the American Funds Money Market Fund balance in the schedule of assets (held at end of year) accompanying the Form 5500 for 2013. The forfeited amounts for 2012 appeared as cash in the schedule of assets (held at end of year) accompanying the 2012 Form 5500.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Shares of mutual funds are valued at the quoted net asset values, or closing market prices, of the shares held by the Plan at year-end. This is known as Level 1 fair value measurement. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Cash and Equivalents

Cash and equivalents include cash on deposit with financial institutions and money market investments.

Payment of Benefits

Benefits are recorded when paid.

Presentation of Financial Statements

The financial statements for December 31, 2012 have been presented in conformity with the December 31, 2013 format.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

Subsequent events were evaluated through August 20, 2014, the date the financial statements were available to be issued. No subsequent events have been recognized or disclosed.

FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The Plan generally uses quoted market prices to determine the fair value of investment securities on a recurring basis.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. Observable inputs are inputs that market participants would use in pricing the asset or liability, based on the best information available in the circumstances. The hierarchy consists of three broad levels based on the reliability of inputs as follows:

- Level 1 - Valuations based on quoted prices in active markets for identical assets that the Plan has the ability to access. Valuation adjustments are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these investments does not entail a significant degree of judgment.

The Plan's investments in mutual funds are valued utilizing Level 1 inputs.

- Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

The Plan's participant loans are valued utilizing Level 2 inputs.

- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The Plan currently has no assets using Level 3 inputs.

The fair value measurements and levels within the fair value hierarchy of those measurements for the assets reported at fair value on a recurring basis at December 31, 2013 are as follows:

Description	Fair value	Quoted prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 4,402,390	$ 4,402,390	$ -0-
Cash and equivalents	121,584	121,584	-0-
Participant loans	56,236	-0-	56,236
TOTALS	$ 4,580,210	$ 4,523,974	$ 56,236

FAIR VALUE MEASUREMENTS (continued)

The fair value measurements and levels within the fair value hierarchy of those measurements for the assets reported at fair value on a recurring basis at December 31, 2012 are as follows:

Description	Fair value	Quoted prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 3,845,517	$ 3,845,517	$ -0-
Cash and equivalents	119,012	119,012	-0-
Participant loans	64,253	-0-	64,253
TOTALS	$ 4,028,782	$ 3,964,529	$ 64,253

INVESTMENTS

Investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012 consisted of the following:

	2013	2012
Washington Mutual Investors Fund R3	$ 480,363	$ 368,894
The Growth Fund of America R3	716,364	533,472
The Income Fund of America R3	682,437	623,256
The Bond Fund of America R3	273,818	309,916
American Balanced Fund R3	709,323	613,676
Capital Income Builder R3	288,817	292,956
Capital World Growth and Income R3	674,555	569,901
US Government Securities Fund R3	less than 5%	234,800

During 2013 and 2012, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value $620,719 and $382,189, respectively.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated February 24, 2003, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the Plan administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.
