CLARKE POWER SERVICES, INC. PENSION PLAN (HOURLY EMPLOYEES)

Notes to Financial Statements

NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Clarke Power Services, Inc. Employee Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering hourly employees of Clarke Power Services, Inc. (the Company). Employees who have completed one hour of service, as defined in the Plan, are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective July 1, 2006, the Plan was frozen. Effective July 1, 2014, the Plan was amended to terminate the Plan. (See Note 11)

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (later of age 65 or fifth anniversary of participation) equal to a specific amount per year of credited service as follows:

- (a) \$10.00 multiplied by his Accrual Service before January 1, 1982.
- (b) \$15.00 multiplied by his Accrual Service on and after January 1, 1982 and before January 1, 1986.
- (c) \$20.00 multiplied by his Accrual Service on and after January 1, 1986 and before January 1, 1990.
- (d) \$25.00 multiplied by his Accrual Service on and after January 1, 1990 and before January 1, 1995.
- (e) \$30.00 multiplied by his Accrual Service on and after January 1, 1995.

The Plan permits early retirement at ages 55 – 64 for employees. If employees terminate before rendering five years of service, they will forfeit the right to receive the portion of their accumulated Plan benefits.

Employees may elect to receive the value of their accumulated Plan benefits as a lump-sum distribution upon retirement, or they may elect to receive their benefits as a life annuity payable monthly from retirement. For a married Plan participant, a qualified joint and survivor annuity is available.

Death and Disability Benefits

If an active employee dies before normal retirement age (65) and prior to actual retirement or any other severance of employment and has a vested interest, the employee's beneficiary will be entitled to a death benefit equal to 50% survivor annuity. Active employees who become totally disabled receive annual disability benefits.

CLARKE POWER SERVICES, INC. PENSION PLAN (HOURLY EMPLOYEES)

Notes to Financial Statements (Continued)

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Tax Status of Benefit Plan

The Plan obtained its latest determination letter on August 21, 2014 in which the Internal Revenue Service stated that the Plan was in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan's income tax returns are subject to review and examination by taxing jurisdictions; however, there are currently no audits in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Frozen Plan

Effective July 1, 2006, the Plan was deemed frozen. Therefore, there are no new entrants into the Plan and employees are no longer able to accrue benefits. The Plan will remain in existence until all employee benefit obligations are paid.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting using accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Payment of Benefits

The Plan pays all benefits to pensioners. Benefit payments to participants are recorded upon distribution.

CLARKE POWER SERVICES, INC. PENSION PLAN (HOURLY EMPLOYEES)

Notes to Financial Statements (Continued)

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Expenses

Certain professional and accounting fees incurred in connection with the operation of the Plan are paid by the Company and, accordingly, are not reflected in the Plan's financial statements.

Investment management fees and certain plan administration fees are charged to the Plan. In 2013 and 2012, approximately \$29,900 and \$28,000 of expenses were paid from Plan earnings, respectively.

Related Party Transactions

Certain Plan investments are in pooled separate accounts managed by Principal Trust Company. Principal Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets during the reporting period. Actual results may differ from those estimates.

Subsequent Events

In preparing its financial statements, the Company has evaluated events subsequent to the balance sheet date through September 2, 2014, which is the date the financial statements were available for issue.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

For the Statement of Accumulated Plan Benefits and the Statement of Changes in Accumulated Plan Benefits, accumulated Plan benefits are those future payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered to date and that are expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees and their beneficiaries, and (c) beneficiaries of employees who have died. Retired or terminated employees with five or more years of service or their beneficiaries are entitled to monthly pension benefits beginning at age 65 equal to a specific amount per year of credited service.

The actuarial present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected dates of payment.

Notes to Financial Statements (Continued)

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The components of the actuarial present value of accumulated Plan benefits as of January 1, 2013 and 2012 are:

The components of the changes in accumulated Plan benefits for the years ended January 1, 2013 and 2012 are:

	2013	2012
Actuarial present value of accumulated plan benefits at beginning of year	\$ 3,825,692	\$ 3,233,229
Increase (decrease) during the year attributable to:

Net increase	89,344	592,463
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 3,915,036</u>	<u>\$ 3,825,692</u>

Due to inherent uncertainties in actuarial estimates, it is reasonably possible that actuarial estimates could change in the near term.

NOTE 4 INVESTMENTS

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012 are as follows:

	2013	2012
Pooled Separate Accounts:		
Principal Partners Core Plus Bond I	\$ 1,251,235	\$ 1,037,545
Principal Bond and Mortgage Fund	1,248,206	983,371

Principal Partners Equity Income	*	244,203
Principal U.S. Property	*	241,968

* Balance is less than 5% of the Plan's net assets

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separate accounts appreciated in value by \$600,395 and \$537,376, respectively.

NOTE 5 FUNDING POLICY

The Plan provides for regular annual funding by the Company. Employer contributions are based on actuarially determined deposit amounts in accordance with the minimum funding requirements of ERISA. The Plan has met the ERISA funding requirements.

CLARKE POWER SERVICES, INC. PENSION PLAN (HOURLY EMPLOYEES)

Notes to Financial Statements (Continued)

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan and contributions thereunder, in whole or in part, at any time by action of its Trustees. If the Plan is terminated or partially terminated, benefits will be distributed pursuant to the terms of the Plan. Its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Generally, the Plan provides the following priorities:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation.
3. Other noninsured vested benefits.
4. All other nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2013, that ceiling is \$4,790 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial conditions of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Subsequent to year-end, The Board of Directors voted to terminate the Plan in a standard termination under applicable rules prescribed by the PBGC. (See Note 11).

NOTE 8 GENERAL ACTUARIAL DATA (CONTINUED)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The assumptions prescribed by law have changed. The actuary used the 2013 prescribed mortality table and the compensation and maximum benefit limitations in effect at the beginning of the year. The 2013 segment interest rates have changed from 2012. The net effect of the assumption changes is to 1.) decrease Funding Target for Annual Cost and Adjusted Funding Target Attainment Percentage (AFTAP) purposes and 2.) increase Funding Target for Calculated IRC Section 404 Deduction, HCE Benefit Payment Restrictions, PBGC Variable Rate Premium and ERISA 4010 Funding Notice purposes.

NOTE 9 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels based on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 9 FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation approaches used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: The net asset value ("NAV") of the pooled separate account is based on the market value of its underlying investments. The pooled separate account is not a publicly-quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

NOTE 10 INVESTMENT RESTRICTIONS

The Principal Life Insurance Company has a withdrawal limitation due to market turmoil and cash flow issues. Limitations exist for all requests to transfer out of the Separate Account, take a loan or terminate distributions. Death, disability, qualified retirements and hardship withdrawals are still being paid out. The limitation will be in effect at least until adequate liquidity exists to meet all requests impacted by the withdrawal limitations. At December 31, 2013, all assets in the Clarke Power Services, Inc. Pension Plan (Hourly Employees) have transfer limitations in place allowing one transfer within a 30-day period.

NOTE 11 SUBSEQUENT EVENT

The Board of Directors of the Company voted in January 2014 to terminate the Plan effective July 1, 2014. The Plan was amended and ultimately terminated on that date. The Company anticipates that Plan funds will not be distributed to Plan participants until 2015.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
 CLARKE POWER SERVICES, INC. PENSION PLAN (HOURLY EMPLOYEES)
 EIN 31-0682368 Plan No. 002

Assumptions Prescribed by Law	
Mortality	<u>During Benefit Payment Period</u> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. <u>Before Benefit Payment Period</u> IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
Assumptions Selected by Actuary	
Asset Return	6.50% for the current plan year.
Expected Expense	\$28,000 included in Target Normal Cost.
Retirement Age	Normal Retirement Age as defined in Plan Provisions
Disability	1987 Commissioner's Group Disability Table, six month elimination period, male and female.
Marriage	75% married; husbands are 3 years older than wives.
Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 0.80.
Inflation	2.25% increase per year
Form of Benefit and Basis	100% of active participants will elect a benefit paid in a lump sum at the assumed retirement age based on the applicable mortality and the plan's funding target interest rates used in the Annual Cost calculation. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement age.
Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.

Methods Selected by Plan Sponsor	
Asset Method	The asset valuation method is prescribed by law for plans that elect to use a value other than market value. For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years. The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value. When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.
Segment Rates	24 month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 01/01/2012 plan year and must continue for five years before a change can be made.
Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by: • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv).
Vested Benefits	A benefit is included in vested benefits when the participant will meet age and service eligibility requirements at the valuation date. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit except as noted in the Plan Provisions.
