The Company, at its sole discretion, may make additional contributions equal to 3% of eligible compensation. Company discretionary contributions amounted to \$1,590,110 for the year ended December 31, 2013 and \$1,545,169 for the year ended December 31, 2012.

In addition, the Company is required to make a pension equalization benefit contribution equal to 7% of eligible compensation to certain participants, as defined in the Plan Document. Pension equalization benefit contributions amounted to \$2,150,249 for the year ended December 31, 2013 and \$2,175,728 for the year ended December 31, 2012 .

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable From Participants

Participants are allowed to borrow a minimum of \$500 up to \$50,000 or 50% of their vested account balance, excluding certain Company contributions, as defined in the Plan Document. Loans must be repaid over a period not to exceed four years, extended to nine years if the loans are used to purchase a primary residence. The loans are repaid through payroll withholdings, including principal and interest at the prime rate plus 1%.

Vesting

Participants are at all times 100% vested in their elective deferral contributions and earnings thereon. Vesting in the Company's matching, discretionary and pension equalization benefit contributions are based on years of service. A participant vests 20% each year after one year of service, becoming fully vested after five years of service. Participants also become fully vested upon reaching normal retirement age (55), death or upon becoming disabled.

Forfeitures

Forfeitures of nonvested participant balances are used to reduce future Company contributions. Forfeitures available for future use at December 31, 2013 and 2012 amounted to \$21,285 and \$83,438, respectively. Forfeitures of \$90,720 and \$118,157 were used to reduce Company contributions during the year ended December 31, 2013 and 2012, respectively.

Payment Of Benefits

Upon retirement, death, disability, or termination of employment, a participant may take a distribution of their vested account balance in a lump-sum payment.

In-Service Withdrawals

Active participants who reach age 59½ or experience a qualifying financial hardship may withdraw all or part of their vested accounts. Hardship withdrawals will be approved only if they conform to Plan provisions and established IRC safe harbors.

Administrative Expenses

Significant administrative expenses are paid by the Company.

2. Significant Accounting Policies

Basis Of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

EMPLOYEE SAVINGS INVESTMENT PLAN

Notes To Financial Statements (*Continued*)

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Investment Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the collective investment trust, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract-value basis.

Interest income is recorded as earned on the accrual basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment Of Benefits

Benefits are recorded when paid.

3. Certified Financial Information

Financial information related to the investments and notes receivable from participants and earnings thereon as of December 31, 2013 and 2012 and for the year ended December 31, 2013, are included in the accompanying financial statements and are based on information provided by the Trustee. This information, which has not been audited by the Plan's independent auditors, has been certified as complete and accurate by the Trustee.

The investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2013 and 2012 are as follows:

	December 31,	
	2013	2012
Emerson Common Stock Fund	\$ 28,558,407	\$ 24,585,923
Vanguard Institutional Index Fund	14,424,106	10,555,264
Vanguard Mid-Cap Growth Fund	9,333,995	6,590,839
Dodge & Cox Stock Fund	7,699,903	5,262,220 *
Vanguard Retirement Savings Trust (at Contract Value)	20,404,781	17,769,200

* Investment does not represent 5% or more of net assets at the end of the respective Plan year.

The Plan's investments include the Emerson Common Stock Fund (the Fund), which invests solely in the common stock of Emerson. This investment was part of a transfer of assets from the Emerson Plan in 2010. Participants are allowed to redeem shares of the Fund at anytime; however, no new contributions are allowed to be invested in the Fund.

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical investments (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standards are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical investments in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar investments in active markets;• Quoted prices for identical or similar investments in inactive markets;• Inputs other than quoted prices that are observable for the investment;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the investment has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the investment. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The investment's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NIDEC MOTOR CORPORATION

EMPLOYEE SAVINGS INVESTMENT PLAN

Notes To Financial Statements (*Continued*)

The following is a description of the valuation methodologies used for investments measured at fair value:

Registered Investment Companies

Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common Stock Fund

Valued at the NAV of shares held by the Plan at year end. The NAV is determined by dividing the net assets of the Emerson Common Stock Fund (the Fund) by the number of units outstanding on the day of valuation. The Fund is comprised solely of Emerson Electric Co. common stock that is traded on an active market.

Collective Investment Trust

Valued at NAV based on the market value of the underlying investment assets divided by the number of units outstanding at the end of the Plan year. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status Of Plan

The Plan received a favorable letter of determination from the Internal Revenue Service, (the IRS) dated December 27, 2012, indicating compliance with the IRC, and exemption under the provisions of Section 501(a) of the IRC. The Plan has been amended since the date of the determination letter, and the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2010 and later remain subject to examination by taxing authorities.

6. Party-In-Interest Transactions

Plan investments include shares of registered investment companies and a collective investment trust managed by the Trustee, as defined by the Plan and, therefore, these transactions qualify as allowable party-in-interest transactions.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation Of Financial Statements To Form 5500
