Note 1. Plan Description

The following description of Curbell, Inc. Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by Curbell, Inc., Curbell Medical Products, Inc., and Curbell Plastics, Inc. (collectively the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustees are responsible for oversight of the Plan, determine the appropriateness of the Plan's investment offerings, and monitor investment performance.

Eligibility:

Employees of the Company are eligible to participate in the Plan on the first of the month following completion of thirty days of service and once they have reached the age of 21. Employees of the Company are eligible to receive employer matching contributions once they have reached the age of 21, worked 1,000 hours within a twelve-month period, and completed one year of continuous service, as defined.

Contributions:

Participants may make voluntary pre-tax contributions to the Plan from 1% up to the maximum amount which will not cause the Plan to violate certain tests or exceed the maximum amount allowable as a deduction to the employer under Section 404 of the Internal Revenue Code (IRC). Participants who are fifty years and older may make additional contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover).

The employer contributes 50% of the participant's contribution. The employer matching contribution is limited to the first 6% of the participant's compensation. The Board of Directors can determine an amount to be contributed on a discretionary basis to the profit sharing portion of the Plan. For each of the years ended December 31, 2013 and 2012, there was no discretionary profit sharing contribution to the Plan.

Contributions are subject to certain limitations of the IRC. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant accounts:

Each participant's account is credited with the participant's contributions, Company matching contributions, an allocation of Plan earnings, reduced for benefits paid, and charged directly for loan origination and benefit processing fees, if applicable. Allocations of Plan earnings are based on the investments held by the participant. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting:

Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Discretionary employer contributions become 20% vested after two years of credited service, as defined, with vesting increasing at 20% increments each year thereafter, to 100% after six years of credited service. A participant also becomes 100% vested if the Plan is terminated, the participant reaches age 65 while employed, or the participant retires, dies, or becomes disabled.

Forfeitures:

At December 31, 2013 and 2012, forfeited nonvested accounts totaled $204 and $49, respectively. Forfeitures of nonvested Company contributions are used to pay administrative expenses of the Plan or to reduce the Company's contributions. Forfeitures reduced Company contributions by $-0- and $8,807 in 2013 and 2012, respectively.

Payment of benefits:

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic payments. Distributions are also permitted in the event of financial hardship, as defined by the Plan, and for participants who have attained age 59½.

Notes receivable from participants:

Participants may borrow from their account a minimum of $1,000 up to a maximum loan equal to the lesser of $50,000 or 50% of their vested account. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the Plan Administrator. Loans must be repaid in a maximum term of 5 years for personal loans and 15 years for the purchase of a participant's primary residence. Principal and interest are paid ratably through bi-weekly payroll deductions. Loans are secured by the balance in the participant's account.

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. The Plan pays for fees related to the origination of notes receivable from participants and benefit processing fees which are charged directly to the participant's account. Investment expenses related to fund management are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting:

The accompanying financial statements have been prepared using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis for fully benefit-responsive investment contracts.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians and the record keeper. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded when received. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent loans are treated as distributions based on the terms of the Plan document. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a deemed distribution is recorded.

Benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Subsequent events:

Subsequent events have been evaluated through September 10, 2014, which is the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following table presents the fair value of assets of the Plan that has been certified by Reliance Trust Company (Reliance) at December 31, 2013 and 2012. Investments that represent 5% or more of the Plan's net assets available for benefits at either December 31, 2013 or 2012 are separately identified as follows:

Total investment income	$ **4,874,899**	$ 2,998,411

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies: Registered investment companies include mutual funds and exchange traded funds and are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

Common/collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2013 and 2012:

	2013			
	Level 1	**Level 2**	**Level 3**	**Total**

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012, respectively:

Investment	**Fair value at December 31, 2013**	Fair value at December 31, 2012	Redemption Frequency	Redemption Notice Period
Common/collective trust – stable value fund	**$2,097,567**	$ 2,329,377	Daily	30 days

There were no unfunded commitments related to the common/collective trust at December 31, 2013 or 2012.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 6. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7. Party-In-Interest Transactions

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. Certain notes receivable from participants and income thereon qualify as party-in-interest transactions.

Certain Plan investments are shares of mutual funds held by Reliance. Reliance is the Trustee as defined by the Plan, The Newport Group is the Plan recordkeeper, and Angell Pension Group Inc. is the Plan advisor. Therefore, transactions with these parties qualify as party-in-interest transactions. Fees paid by the Plan for these services amounted to $13,482 and $16,264 for the years ended December 31, 2013 and 2012, respectively. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Differences between these Financial Statements to Form 5500 and the Financial Information Required on Form 5500
