CLARKE POWER SERVICES, INC. EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Clarke Power Services, Inc. Employee Retirement Savings Plan (the "Plan") are prepared under the accrual basis of accounting using accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants

For reporting purposes, participant loans are classified as notes receivable from participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Related-Party Transactions

In 2013 and 2012, certain Plan investments are invested in funds with a registered investment company managed by Delaware Charter Guarantee and Trust Company d.b.a. Principal Trust Company. Principal Trust Company is the asset custodian as defined by the Plan. Therefore, these transactions qualify as party-in-interest.

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees to the Plan.

Notes to Financial Statements (Continued)

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

In preparing its financial statements, the Plan sponsor has evaluated events subsequent to the balance sheet date through September 2, 2014, which is the date the financial statements were available to be issued.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to their Clarke Power Services, Inc. Employee Retirement Savings Plan handbook for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Clarke Power Services, Inc. and Clarke Fire Protection Products, Inc. (the Company) who are 18 years of age. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

A participant may contribute up to 75% of eligible compensation. Participants designate the percentage of their total contribution to be invested in any of the Plan's investment funds. Participants may change the percentage of contributions invested in each account and may make transfers between accounts anytime during the year. Contributions may not exceed limitations established under Section 402(g) of the Internal Revenue Code of 1986 as amended (\$17,500 at December 31, 2013). For 2013, Section 414(v) of the Internal Revenue Code of 1986 as amended allowed a maximum catch-up contribution of \$5,500.

The Plan requires the Company to make employer matching contributions to the Plan. In 2013, the Company made a contribution of 50% of participant's contributions, up to \$100. The total amount of the matching contribution was \$62,569 for the year ended December 31, 2013.

The Plan requires the Company to make a qualified non-elective contribution in the amount equal to 3% of compensation each pay period for all active participants. Contributions are 100% vested in the Plan. The total amount of this employer contribution was \$1,093,220 for the year ended December 31, 2013.

CLARKE POWER SERVICES, INC. EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Contributions (Continued)

Discretionary contributions may be made for each Plan year in an amount determined by the Company to salaried and salaried non-exempt employees. No discretionary contributions were made in 2013.

Rollover Contributions

Participants may roll over their taxable portion of funds previously held for their account in another qualified employee benefit plan to the Plan on a tax-free basis.

Participant Accounts

Each participant's account is credited with the participant's and Company's contributions and a pro-rata allocation of the Plan's earnings. The pro-rata allocation is based upon the proportion of individual account balances to total participants' account balances in the respective investment funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants become immediately vested at the time of participation in the Plan in their contributions and qualified nonelective contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts, plus actual earnings thereon is based on years of continuous service. Participants become 100% vested after one year of credited service. Non-vested portions of participant accounts that are forfeited upon payment of benefits are retained in the Plan and used to reduce administrative expenses.

Forfeitures

Forfeitures of the Plan are intended to first reduce administrative expenses of the Plan and then to reduce the employer matching contributions to the Plan. At December 31, 2013 and 2012, the amounts of unallocated forfeitures were nominal. During 2013, forfeitures in the amount of \$6,550 were used to reduce the employer contributions.

Payment of Benefits

Upon a participant's retirement date, the participant may receive benefit in accordance with the Plan's provisions and existing laws and regulations.

In conditions of "financial hardship", a participant may apply to the Plan administrator for approval to withdraw that portion of his 401(k) retirement account balance necessary to meet the financial hardship, subject to the limitations of the Plan and the Internal Revenue Code.

Upon termination of the Plan, the assets will be distributed to participants in accordance with the Plan's provisions and existing laws and regulations.

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are available on amounts in the participant's account. The minimum note receivable amount is \$1,000 and the maximum is the lesser of one-half of the participant's vested account balance or \$50,000. The vested participant account balance will be used as collateral for any note receivable. All notes receivable shall bear a reasonable rate of interest as determined by the Plan administrator. Note receivable terms range from one to five years or beyond five years, as agreed upon by the Participant and the Administrator, for the purchase of a primary residence.

Administrative Expenses

Certain Plan expenses are paid by the Plan sponsor. In 2013, the sponsor paid approximately \$19,200 in expenses on behalf of the Plan.

NOTE 3 INVESTMENTS

Investments at fair value that represent five percent or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

NOTE 3 INVESTMENTS (CONTINUED)

During the year ended December 31, 2013, the Plan's investments (including investments purchased, sold, and held during the year) appreciated/(depreciated) in fair value as follows:

Pooled separate accounts	\$ 4,733,970
Collective trust	50,498
Registered investment companies	22,759
Self directed portfolio	
Shares of registered investment companies	14,332
Common stocks	<u>(38,972)</u>
Total net appreciation	<u>\$ 4,782,587</u>

NOTE 4 INVESTMENT CONTRACT

The Plan entered into a benefit-responsive investment contract (the "Fund") with KeyBank National Association (KeyBank). KeyBank maintains the contributions in a separate account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value is secured by the general assets of KeyBank.

As described in Note 1, because the collective trust is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by KeyBank, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average market yield of the Fund for the years ended December 31, 2013 and 2012 was 1.69% and 2.12%, respectively. This yield is calculated based on actual investment income from the underlying investments for the last month of the year, annualized and divided by the fair value of the investment portfolio on the respective balance sheet date. The average yield of the Fund with an adjustment to reflect the actual interest rate credited to participants in the Fund was 1.60% and 2.09%, respectively, for the years ended December 31, 2013 and 2012.

The future crediting rate of the Fund will be impacted by an adjustment every quarter based on the book value of the contract, the market yield of the underlying assets, the fair value of the underlying assets, and the average duration of the underlying assets and will not be less than 0%. Participants should consult the audited statements of the Fund for a sensitivity analysis on the crediting rate.

Certain events may require an adjustment to contract value. Such events may include but are not limited to: Fund administration is amended or changed, merger or consolidation of investors, group terminations or layoffs, implementation of an early retirement program, termination or partial termination of the Fund, failure to meet certain tax qualifications, participant communication that is designed to influence participants not to invest in the Fund, transfers to competing options without meeting the equity wash provisions of the Fund, and plan sponsor withdrawals without the appropriate notice to the Fund and/or issuer.

NOTE 6 TAX STATUS

The IRS has determined and informed the Plan sponsor by a letter dated November 24, 2009 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan's income tax returns are subject to review and examination by taxing jurisdictions; however, there are currently no audits in progress. The plan administrator believes it is no longer subject to income tax examination for the years prior to 2010.

NOTE 7 INFORMATION CERTIFIED BY ASSET CUSTODIAN

The following information provided by Delaware Charter Guarantee and Trust Company dba Principal Trust Company for the years ended December 31, 2013 and 2012, was certified by them to be complete and accurate:

- (a) The assets held by Principal Life Insurance Company and Delaware Charter Guarantee & Trust Company dba Principal Trust Company as of December 31, 2013 and 2012, as well as the transactions involving these assets for the year ended December 31, 2013.
- (b) The amount of investment income for the year ended December 31, 2013.
- (c) The Schedule H, Line 4i – Schedule of Assets (Held at End of Year) for the year ended December 31, 2013.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 9 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels based on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

CLARKE POWER SERVICES, INC. EMPLOYEE RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

NOTE 9 FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation approaches used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: Valued at the net asset value of shares held by the Plan at year-end.

Pooled separate accounts: The NAV of the pooled separate account is based on the market value of its underlying investments. The pooled separate account is not a publicly-quoted price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different approaches or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Withdrawals needed for benefit payments and loan advances of participating employee benefit plans are generally permitted daily. Withdrawals for other purposes require twelve-month advance notice to the Fund. At its discretion, the Fund may affect these withdrawals prior to the end of the twelve-month period.

The Principal Life Insurance Company has a withdrawal limitation due to market turmoil and cash flow issues. Limitations exist for all requests to transfer out of the Separate Account, take a loan or terminate distributions. Death, disability, qualified retirements and hardship withdrawals are still being paid out. The limitations will be in effect at least until adequate liquidity exists to meet all requests impacted by the withdrawal limitations. At December 31, 2013, all assets in the Clarke Power Services, Inc. Employee Retirement Savings Plan, except for the Principal Large Cap Value III Separate Account, Principal Mid Cap Growth III Separate Account, Principal Small Cap Growth Separate II Account and Mutual Global Discovery A Fund have transfer limitations in place allowing one transfer within a 30-day period.
