Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by ING Life Insurance and Annuity Company, the Custodian of the Plan (the "Custodian"), except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the Custodian as of January 7, 2014 and December 31, 2013 and for the period January 1, 2014 through January 7, 2014 and for the year ended December 31, 2013, that the information provided to the plan administrator by Custodian is complete and accurate.

(1) Description of plan

The following description of the Devcon Security Services Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan was a defined contribution plan sponsored by Devcon Security Services Corp. (the "Company") for the benefit of its full-time employees who completed three months of service. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees had overall responsibility for the operation and administration of the Plan. The Board of Trustees determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Effective August 2, 2013, the Company was acquired by ADT LLC, which resulted in a change in ownership of the Company. As a result of the acquisition, the Board of Trustees of the Plan voted to merge the Plan into the ADT Corporation Retirement Savings and Investment Plan (the "Successor Plan"), a defined contribution plan sponsored by ADT, LLC (Note 8).

Contributions - Participants were permitted to contribute up to 100% of pretax annual compensation, as defined in the plan document. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who were making contributions to the Plan, were allowed to make catch-up contributions as defined in the plan document. The Company could make a discretionary profit sharing contribution to the Plan. The Company made no such contributions in 2014 and 2013. Contributions were subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants directed the investment of all contributions into various investment options offered by the Plan. The Plan offered various pooled separate accounts and a fixed account as investment options for participants.

Participant accounts - Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting - Participants were immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100% vested after six years of credited service. All participants became 100% vested in the Company's contributions as of December 31, 2013 (Note 8).

Notes receivable from participants - Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes were secured by the balance in the participant's account and bore interest at rates which were commensurate with local prevailing rates as determined by the plan administrator. Principal and interest were paid ratably through payroll deductions.

(1) Description of plan (continued)

Payment of benefits - On termination of service due to death, disability or retirement, or other reasons, a participant was allowed to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, unless the participant elected otherwise. For termination of service due to other reasons, a participant was allowed to receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeited accounts - At January 7, 2014 and December 31, 2013, forfeited nonvested accounts totaled $0 and $12,743, respectively. These accounts were to be used to reduce future employer contributions and/or used to pay the Plan's administrative expenses. Also, for the period January 1, 2014 through January 7, 2014 and the year ended December 31, 2013, administrative expenses totaling $11,500 and $16,500, respectively, were paid from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan were prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presented fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits were prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment valuation and income recognition - Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determined the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold, as well as held during the year.

(2) Summary of significant accounting policies (continued)

Notes receivable from participants - Notes receivable from participants were measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when incurred. No allowance for credit losses was recorded as of January 7, 2014 or December 31, 2013. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant's loan balance was reduced and a benefit payment was recorded.

Unit values - Individual participant accounts for the pooled separate investments were maintained on a unit value basis. Participants did not have beneficial ownership in the specific underlying securities or other assets in the funds, but did have an interest therein represented by units valued daily. The funds earned dividends and interest which were automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund were converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts were charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits were recorded when paid.

Administrative expenses - Certain expenses of the Plan were paid by the Company and were not included in the statements of changes in net assets available for benefits. Investment related expenses were included in net appreciation (depreciation) of fair value of investments.

Transfer in - The Pinnacle Security, LLC 401(k) Plan, a plan which was sponsored by a related party, was merged into the Plan on January 1, 2013, at which time its employees became eligible to participate in the Plan. On May 28, 2013, participant accounts totaling $656,648 were transferred from the Pinnacle Security, LLC 401(k) Plan to the Plan.

Transfers out - On November 19, 2013, two divisions of the plan sponsor were sold to an unrelated entity. As a result, effective December 12, 2013, participant loan balances totaling $81,744 were transferred from the Plan to the defined contribution plan sponsored by the unrelated entity and the account balances of affected participants were recorded as benefit payments.

On January 7, 2014, participant accounts totaling $3,045,640 were transferred from the Plan to the Successor Plan.

(3) Investments

The following investments represented 5% or more of the Plan's net assets at the measurement dates:

	January 7, 2014	December 31, 2013
ING Fixed Account **	$ -	$ 679,045
Pooled separate accounts:		
Voya Solution 2035 Portfolio - Service Class	-	852,802
Voya Solution 2025 Portfolio - Service Class	-	429,214

** At contract value

During the period January 1, 2014 through January 7, 2014 and the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the period/year) appreciated (depreciated) in value as follows:

	Period January 1, 2014 through January 7, 2014	Year Ended December 31, 2013
Fixed account	$ (32,276)	$ -
Pooled separate accounts	(12,191)	648,097
	$ (44,467)	$ 648,097

(4) Information prepared and certified by the Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING Life Insurance and Annuity Company ("ING" or the "Custodian") has certified that the following data included in the accompanying financial statements was complete and accurate with respect to investments:

- Investments at fair and contract value
- Net appreciation (depreciation) in fair value of investments
- Interest income

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

(5) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

(5) Fair value measurements (continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that were observable for the asset or liability; inputs that were derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability had a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the period January 1, 2014 through January 7, 2014 and during the year ended December 31, 2013.

Fixed account: Valued utilizing inputs and a formula provided by ING to determine the fair value, including the credited rate, account balance and any market value adjustments or surrender charges. Determining fair value could require significant judgment and the use of information that could not be observable to market participants. See Note 6.

Pooled separate accounts: Valued at the Net Asset Value ("NAV") of units of the separate account. The NAV, as provided by the Custodian, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) could occur daily.

Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described could produce a fair value calculation that could not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting dates.

(5) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Lifecycle	$ -	$ 1,584,898	$ -	$ 1,584,898
Moderate allocation	-	161,477	-	161,477
Mid-cap blend and value	-	102,250	-	102,250
Large growth	-	100,726	-	100,726
Large value	-	95,271	-	95,271
Bonds	-	84,519	-	84,519
World stock	-	78,812	-	78,812
Large blend	-	61,832	-	61,832
Foreign large blend	-	58,689	-	58,689
Mid-cap growth	-	14,831	-	14,831
Money market	-	12,744	-	12,744
Small growth	-	8,030	-	8,030
Total pooled separate accounts	-	2,364,079	-	2,364,079
Fixed account	-	650,332	-	650,332
Total investments at fair value	$ -	$ 3,014,411	$ -	$ 3,014,411

The fair value of the investments in the pooled separate accounts was estimated using the NAV of the investments. The pooled separate accounts listed in the above charts were redeemed on a daily basis and did not have any redemption restrictions. Additionally, there were no unfunded commitments.

(6) Fixed account with insurance company

The Plan had a benefit-responsive fixed account with ING. ING maintained the contributions in a general account. The account was credited with earnings on the underlying investments and was charged for participant withdrawals and administrative expenses. The fixed account issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan, the minimum interest rate was 1.5%

Because the fixed account was fully benefit responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed account. The fixed account was presented on the face of the statements of net assets available benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, was reported to the Plan by ING, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(6) Fixed account with insurance company (continued)

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at January 7, 2014 and December 31, 2013 was $0 and $650,332, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but could not be less than 2.60% through December 31, 2013.

Certain events limited the ability of the plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan.) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. In addition, in the event of a full or partial contract surrender, a contractually defined market value adjustment may be applied. The plan administrator did not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants were probable of occurring.

The fixed account did not permit the insurance company to terminate the agreement prior to the scheduled maturity date. The fair value, average yield, and crediting interest rate for the year ended December 31, 2013 for the fixed account were as follows:

	Year Ended December 31, 2013
Fair value	$ 650,332
Average yield	2.60%
Crediting interest rate	2.60%

When the plan transferred its investments to the ADT Plan, the Plan surrendered the fixed account and incurred a market value adjustment loss of $32,276.

(7) Exempt party-in-interest transactions

Certain Plan investments were shares in pooled separate accounts managed by ING. The Plan also utilized the services of Barron Benefit Advisors, Inc. ("Barron"). ING was the Custodian as defined by the Plan and Barron was the third party administrator, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services were included in net appreciation (depreciation) in the fair value of the investments, as they were paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of approximately $20,500 for the year ended December 31, 2013, which were not covered by revenue sharing. Additionally, the Plan paid another service provider $11,500 and $7,500 for auditing services during the period January 1, 2014 through January 7, 2014 and during the year ended December 31, 2013, respectively. The plan sponsor paid directly any other fees related to the plan's operations.

(8) Plan merger

The Board of Trustees of the Plan voted to merge the Plan effective December 31, 2013 in to the Successor Plan. In connection with the merger and immediately prior to the transfer of plan assets to the Successor Plan, all participants' account balances became 100% vested.

(9) Tax status

The Internal Revenue Service determined and issued an opinion letter dated May 16, 2011, that the Plan and related Trust were designed in accordance with the applicable sections of the IRC. Although the Plan was amended since receipt of this letter, the plan administrator believed that the Plan, as amended, continued to qualify and operate in compliance with the applicable requirements of the IRC through January 7, 2014, the date the Plan's assets were transferred to the Successor Plan.

Accounting principles generally accepted in the United States of America required the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator analyzed the tax positions taken by the Plan, and concluded that as of January 7, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(10) Delinquent participant contributions

Sponsors of defined contribution plans are required to remit employee contributions, including participant note repayments, to the Plan as soon as they can be reasonably segregated from the employer's general assets. Contributions, which included participant note repayments, totaling $20,323 were not remitted within the required time for the year ended December 31, 2013. During the year ended December 31, 2013, the Company remitted these delinquent employee contributions, including lost earnings.

(11) Reconciliation to form 5500

Certain income and expense line items reported on Schedule H of Form 5500 for the period January 1, 2014 through January 7, 2014 have been reclassified on the accompanying statement of changes of net assets available for benefits. These reclassifications have no impact on net assets available for benefits at January 7, 2014, or changes in net assets available for benefits for the period then ended.

(12) Subsequent events

The Plan has evaluated subsequent events through September 9, 2014, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
