NOTE A - DESCRIPTION OF PLAN

The following description of the EKOS Corporation 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. <u>General</u>

The Plan is a defined contribution plan, established February 1, 1999, covering all eligible employees of EKOS Corporation (the "Company"). The Plan provides for contributions pursuant to Section 401(a) of the Internal Revenue Code and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On July 5, 2013, the Company was acquired by BTG International. As part of the acquisition, the Plan merged into the acquirer's plan, and all plan assets were transferred to a new account in the BTG International, Inc. Profit Sharing 401(k) Plan, effective December 31, 2013.

2. <u>Plan Amendment</u>

During 2013, the Plan was amended, effective March 1, 2013. The amendment did not have a material effect on the presentation or disclosure in the 2013 financial statements.

3. <u>Eligibility</u>

Employees become eligible for the Plan the first day of each month.

4. <u>Contributions</u>

Plan participants may contribute up to 60% of their qualified compensation to the Plan, subject to Internal Revenue Code regulations. Participants may also contribute amounts representing rollover distributions from other qualified plans.

The Company does not match contributions made by participants. The Company may make qualified nonelective contributions and profit-sharing contributions at the discretion of the Board of Directors. There were no discretionary contributions for the year ended December 31, 2013.

5. <u>Participant Accounts</u>

Participants' accounts are credited with their contributions, any Company contributions and earnings on the investment funds in their accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN - CONTINUED

6. <u>Vesting</u>

Participants' contributions, employer-qualified, non-elective contributions and all earnings thereon are 100% vested at all times. Employer profit-sharing contributions vest at 25% for each year of service and are 100% vested after four years.

In the event of death, disability, or retirement at the age of 65, participants become fully vested in all of their accounts, regardless of the vesting percentage attained at that date.

7. <u>Investment Options</u>

Participants may select one or more predetermined investment options for the investing of contributions and earnings. Contributions are deposited directly into the participant-elected investment vehicles by the trustee and custodian of the Plan.

8. <u>Notes Receivable from Participants</u>

Plan participants may borrow from their vested fund accounts, generally for periods not to exceed five years, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. If loans are for the purchase of a primary residence, repayment periods can be up to ten years. Participants may apply for one loan each calendar year and are only allowed to have one loan outstanding at any given time. Interest is paid by the borrower at a rate determined by the administrator and is fixed over the life of the note. As of December 31, 2013, there were no loans remaining in the Plan. As of December 31, 2012, interest rates on outstanding loans ranged from 5% to 8% per annum. Interest payments become part of the participant's account balance. As part of the Plan merger, outstanding loans were transferred to the BTG International Inc. Profit Sharing 401(k) Plan.

9. <u>Distribution of Benefits</u>

Upon retirement, disability, or termination, a participant may elect to take a distribution up to the vested balance of the participant's account, which is paid as a lump sum payment of cash, rollover the vested balance into another qualified plan, or a combination of distribution and rollover. The Plan has the option to distribute all account balances less than \$1,000 upon participant termination without participant consent. Upon death, the stated beneficiary is entitled to receive the account balance. The Plan also allows hardship withdrawals, subject to a \$500 minimum, to meet certain defined financial needs.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE A - DESCRIPTION OF PLAN - Continued

10. <u>Tax Status</u>

The Company has adopted a Prototype Standardized Profit Sharing/401(k) Plan with a deferral arrangement, which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008. The opinion letter stated that the Plan and its related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended and restated. In the opinion of the Plan Administrator, the Plan and its related trust are designed and currently operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

11. Forfeitures

Forfeitures of non-vested account balances may be used to pay administrative expenses under the Plan or to reduce future employer contributions. There were no forfeitures in 2013.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Benefits are recorded when paid.

2. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest and dividend income are accrued as earned. Net appreciation or depreciation in fair value is the net gain or loss on disposition of investments plus the net unrealized increase or decrease in fair value during the year for investments held at year end.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE B - SUMMARY OF ACCOUNTING POLICIES - Continued

3. <u>Risks and Uncertainties</u>

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

4. <u>Payment of Benefits</u>

Benefits are recorded when paid.

5. <u>Administrative Expenses</u>

The Plan's administrative fees are paid by the Plan Sponsor.

6. <u>Use of Estimates</u>

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

NOTE C - CERTIFIED INVESTMENT INFORMATION

The Plan Administrator has obtained certification from Fidelity Management Trust Company, Trustee of the Plan, that the following unaudited information included in the Plan's financial statements and supplemental schedule is complete and accurate:

- Investment assets and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Trust transactions, including investment income, securities transactions and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013.

The Plan Administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under the provisions of ERISA, information certified by a trust company or an insurance company need not be subjected to independent audit.

NOTES TO FINANCIAL STATEMENTS

For the years ended December 31, 2013 and 2012

NOTE D - FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or
	liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include:
	• quoted prices for similar assets or liabilities in active markets;
	• quoted prices for identical or similar assets or liabilities in inactive markets;
	• inputs other than quoted prices that are observable for the asset or liability;
	• inputs that are derived principally from or corroborated by observable market data by
	correlation or other means.
	If the asset or liability has a specified (contractual) term, the level 2 input must be observable
	for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value
	measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013.

Mutual funds: Valued at the quoted market value of the fund, which represents the net asset value ("NAV") of shares held by the Plan at year end.

Money market funds: Valued at cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2013 and 2012

NOTE D - FAIR VALUE MEASUREMENTS - Continued

There were no investments held by the Plan as of December 31, 2013. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012.

NOTE E - PLAN MERGER

The Company was acquired in July 2013, and as a result of that acquisition, all the Plan's assets were merged into the purchaser's benefit plan. Participants' assets and loan balances were transferred to the BTG International, Inc. Profit Sharing 401(k) Plan effective December 31, 2013.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by an entity affiliated with Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions.
