Trico Products, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Trico Products, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan available to all employees of Trico Products Corporation (the "Company") who are not members of a collective bargaining unit and who have performed an hour of service for the Company or an affiliated employer. Temporary employees (as classified by the Company) are eligible to become members after the completion of one year of eligibility service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to have a portion of their compensation contributed to the Plan on a pretax basis, through regular payroll deductions, in amounts authorized by each participant via an executed salary reduction agreement in effect with the Company. No more than 30 percent of compensation may be contributed for a particular pay period, subject to IRS limitations. Participants who are eligible for catch-up contributions may make catch-up contributions in line with IRS limitations. Compensation is defined in the plan document and excludes severance pay.

Participants may also make voluntary, nondeductible, after-tax contributions. In addition, participants may roll over distributions received from a prior employer's qualified plan, if allowed by the plan administrator. Contributions are subject to certain limitations.

The Company makes a nondiscretionary match equal to the lesser of 50 percent of a participant's deferral contributions of 4 percent of eligible compensation. The Company may make annual discretionary profit-sharing contributions in an amount to be determined at year end by the board of directors. A participant must be employed on the last day of the year to be eligible for any profit-sharing contributions that may be made for the year. For the year ended December 31, 2013 and 2012, the Company did not elect to make profit-sharing contributions to the Plan.

Vesting - Participants who are actively employed with the employer are at all times 100 percent vested in, and have a nonforfeitable right to, all of their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Trico Products, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Payment of Benefits - Payment of benefits due to termination or death may be made in a lump sum if the vested portion of the member's account is \$1,000 or less. The vested portion of a participants account that exceeds \$1,000 is subject to specific distribution rules outlined in the plan document. In accordance with plan provisions, pre-tax savings may also be withdrawn for reasons of immediate and heavy financial need such as medical expenses, purchase of principal residence, tuition payments, eviction prevention, and funeral expenses, subject to certain limitations as defined under federal law.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate. Notes are paid back via payroll deductions over the terms established in the note receivable. The Company had deemed distributions of \$1,782 during the year ended December 31, 2013.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants shall remain 100 percent vested in their account balances.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Participant Accounts - Each year, a participant's account is credited with the participant's contribution, the Company's contribution, and allocations of Plan earnings and expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Note 2 - Summary of Significant Accounting Policies

Modified Cash Basis - The accompanying financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). On a modified cash basis of accounting, revenue is recognized when cash is received and expenses are recognized when paid. On a GAAP basis of accounting, revenue is recognized as earned and expenses are recognized when the obligation is incurred. Investments are recognized at fair value in the accompanying financial statements, which is consistent with a GAAP basis of accounting.

Trico Products, Inc. 401(k) Plan

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - The Plan's administrator monitors the performance of the Plan's recordkeeper and Trustee. The Company pays substantially all expenses of the Plan, including expenses relating to plan maintenance, wire transfers, the Plan's audit, and regulatory filings.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 11, 2014, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that comprise a significant portion of end of year net assets are as follows:

Note 4 - Tax Status

On December 5, 2001, the Internal Revenue Service stated that the prototype plan adopted by the Company, as then designed, qualifies under Section 401(k) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself; however, the plan administrator believes that the Plan was designed and is currently being operated in accordance with applicable requirements of the IRC. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Notes to Financial Statements December 31, 2013 and 2012

Note 5 - Fair Value Measurements (Continued)

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset. The plan held no assets during 2013 or 2012 for which Level 3 inputs were utilized.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.
