NOTE 1 DESCRIPTION OF PLAN

The following description of *Walters Metal Fabrication, Inc. 401(k) Salary and Savings Plan* (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 and last amended on January 1, 2011 by *Walters Metal Fabrication, Inc.* (the "Plan Sponsor"). Collectively, the Plan is a multi-employer plan covering all non-collectively bargained employees of the Plan Sponsor, *Metro Marble and Granite of Columbia, Industrial Piping Systems, LLC, Missouri Steel Fabrication, Inc., Metro Marble and Granite, LLC, CDS Engineering Company,* and *Premiere Hardwoods, LLC. Industrial Piping Systems, LLC* ceased operations effective January 1, 2012 and had no active participants as of December 31, 2012.

The Plan is a defined contribution plan for the benefit of its employees who are age 21 or older. An employee will become eligible for participation after completing the Plan's eligibility requirements as stated in the Plan Agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may defer salary up to an annual maximum of the lesser of 100% of eligible compensation or the amount specified by the Internal Revenue Service for the years ended December 31, 2013 and 2012. The total of participant and employer contributions for a given year cannot exceed the lesser of the amount specified by the Internal Revenue Service for the years ended December 31, 2013 and 2012 or 100% of the participant's annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also rollover distributions from other qualified defined benefit or defined contribution plans.

The Plan was amended January 1, 2011 to allow elective deferrals to a Roth individual retirement account ("Roth IRA"). The Plan will also permit a rollover contribution to a Roth IRA elective deferral account on or after the effective date of the amendment. Roth IRA elective deferrals will be included in the participant's gross income at the time of deferral. Those deferrals, along with gains and losses, will be separately accounted for as sub-accounts of each participant account. Neither the Roth IRA elective deferral account, nor the Roth IRA rollover account may be withdrawn as a participant loan, but can be withdrawn for a hardship distribution.

Each year, the Plan Sponsor may make matching contributions to be determined annually based on a percentage of participant salary deferrals. For the year ended December 31, 2013, the Plan Sponsor did not elect to make matching contributions. In addition, the Plan Sponsor may make a discretionary profit sharing contribution to be determined by the Plan Sponsor. Each eligible participant will receive a portion of this discretionary profit sharing contribution based on their eligible compensation. The Plan Sponsor did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2013.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant account is credited with the participant's contributions, employer matching contributions, if any, an allocation of the Plan Sponsor's discretionary contribution, if any, and Plan earnings. Each account is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account balance is based on years of continuous service. Participants vest in their employer contributions plus actual earnings thereon at a rate of 20 percent per year and are fully vested after five years of credited service.

Participant Hardship Withdrawals

Participants may withdraw from the Plan the portion of their account resulting from salary deferrals in the event of undue financial hardship. The maximum hardship withdrawal is the total of a participant's vested balance.

Payment of Benefits

The Plan provides for retirement benefits to begin upon retirement age of 59 ½, but no later than April 1 of the calendar year in which participants attain age 70 ½. Upon death and total or permanent disability of a participant while employed, the account balance becomes fully vested. On termination of service, participants with vested account balances less than $5,000 will receive a lump sum amount equal to the value of their vested account balance. The distribution will be made as soon as administratively feasible. Participants with account balances greater than $5,000 may elect for an immediate lump sum distribution for the value of their vested account balance. Participants may elect to receive the distribution or have the distribution paid as a direct rollover to another qualified plan.

Investment Options

Upon enrollment in the Plan, participants may direct contributions in any of the applicable investment options available to Plan participants.

Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their employer contributions.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Administrative Expenses

Administrative expenses of the Plan are paid both by the Plan Sponsor and the participants of the Plan.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimated amounts.

Payment of Benefits

Benefits are recorded when paid.

Common Collective Trust

Investments in common collective trusts holding fully responsive benefit contracts are reported at fair value. However, contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment from fair value to contract value attributable to the Plan's investment in fully benefit-responsive investment contracts held by a common collective trust.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (quoted market prices). The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisers and custodians. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Subsequent Events

Management has evaluated subsequent events through the date of the independent auditors' report, the date which the financial statements were available to be issued and did not note any other items which require disclosure.

NOTE 3 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds (registered investment companies): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

NOTE 5 EXCESS PARTICIPANT CONTRIBUTIONS PAYABLE

Benefit distributions of $5,579 for the Plan year ended December 31, 2013 were made to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's Statement of Net Assets Available for Plan Benefits as corrective distributions payable at December 31, 2013.

NOTE 6 TAX STATUS

The Plan is designed to be a qualified trust under Section 410(a) of the Internal Revenue Code ("IRC") that provides that a qualified trust is exempt from federal income taxes. The Plan is required to operate in accordance with the Plan Agreement and the applicable federal laws in order to maintain its qualification. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan is not aware of any action or event that has occurred that might affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2010.

NOTE 7 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Schwab. Schwab is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are included in the net appreciation in fair value of the investment. *Retirement Plan Services, LLC* is the third party administrator for the Plan and is therefore also considered a party-in-interest. As disclosed in Note 2, the administrative fees are paid by both the Plan and the Plan Sponsor.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTE 10 BENEFIT OBLIGATIONS
