## NOTE 1 – PLAN SUMMARY AND DESCRIPTION:

The following description of the Wheaton Eye Clinic ("Company") 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

### Contributions

Each year, participants may contribute a percentage or flat dollar amount of eligible compensation, as defined in the plan. Some or all of the participant's deferral contribution may be designated as a Roth Deferral Contribution at the time the deferral election is made. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions, as well as the matching Company contribution and additional profit sharing amounts that may be contributed to the option of the Company's board of directors into various investment options offered by the Plan. The Plan currently offers several families of mutual funds as investment options for participants. Participants may also invest in self-directed brokerage accounts, as permitted by the Plan. The company contributes 100% of the first 4% of base compensation that a participant contributes to the Plan. In addition, for each year that an employee is eligible to share in contributions, the Company may contribute an amount equal to a percentage of the employee's eligible compensation plus 5.7% of their compensation in excess of Social Security taxable wage base. Contributions are subject to certain limitations.

### Participant Account

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 – PLAN SUMMARY AND DESCRIPTION (continued):

Vesting

Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear the interest at rates commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the fair value of the participant's vested interest in his or her account, installment distribution in equal amounts over a period of time, or purchase of an annuity. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, or partial withdrawal of any portion of the vested balance. Distributions are also permitted prior to termination if certain age requirements are met.

Forfeited Accounts

There were no forfeited nonvested accounts as of December 31, 2013 and 2012. Employer contributions were reduced by forfeitures of $10,506 and $22,435 in 2013 and 2012, respectively.

## NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

### Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

### Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

### Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

### Payment of Benefits

Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS:

FASB ASC 820, *Fair Value Measurements and Disclosures*, established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The hierarchy consists of three broad levels:

Level One – Inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

Level Two – Inputs are inputs other than quoted prices included within Level One that are observable for the asset or liability, either directly or indirectly.

Level Three – Inputs are unobservable inputs for the asset or liability.

The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair value of common stocks and options are based on the closing price reported on the active market where the individual securities are traded.

NOTE 3 – FAIR VALUE MEASUREMENTS (continued):
