Report on the Financial Statements

We have audited the accompanying financial statements of The Haskell Company Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

THE HASKELL COMPANY STOCK OWNERSHIP PLAN

Notes to Financial Statements

December 31, 2013 and 2012

1. **Description of Plan**

The following description of the The Haskell Company (the "Company") Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Company established the Plan effective as of January 1, 2008. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company common shares using the proceeds of borrowings from the Company, and holds the stock in a trust established under the Plan. The borrowings are to be repaid according to the terms described in Note 6 by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

i. the accounts of employees with rights in allocated stock (Allocated) and
ii. stock not yet allocated to employees (Unallocated).

Eligibility - Employees of the Company are generally eligible to participate in the Plan after attainment of age 18 and completion of one year of service providing they worked at least 1,000 hours during such year. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year. An eligible employee will still receive an allocation of the Company contributions for a plan year if employment is terminated on account of retirement, death, or disability in such year.

Participant Accounts - The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustees from the unallocated account and forfeitures of terminated participants' non-vested accounts. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on the proportion that an individual's compensation for the plan year bears to the compensation of all participants for the plan year. At December 31, 2013 and 2012 there were no forfeited non-vested accounts. During the year ended December 31, 2013, 4.066 shares of stock and $11 in cash were forfeited.

Vesting - If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service in the Plan. A participant is 20 percent vested after two years of credited service and are 100 percent vested after five years of credited service.

Payment of Benefits – Distributions of benefits are made in cash. In the event of retirement, total disability or death of a participant, benefits will commence no later than the last day of the Plan year following the Plan year on which a participant retires, suffers a disability, or dies while employed by the Company. Distributions related to terminations may commence no later than one year after the end of the fifth Plan year following the Plan year in which the participant separated from service. The full benefits will be paid in either a lump sum, in five substantially equal annual installments, or in as many substantially equal annual installments as permitted under Code Section 409(o)(1)(C)(ii).

Regardless of the provisions listed above, any Company common stock allocated to a participant's account that was acquired by the Plan with the proceeds of a loan is not required to be distributed until the loan is completely repaid by the Plan. If a participant has met one of the conditions above, at the time the loan is repaid, the distribution must begin by the end of the year in which the loan is repaid.

Voting Rights - Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account under certain specified circumstances and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Plan Termination - The Company reserves the right to terminate or amend the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the

Employee Benefits Administration Committee shall direct the trustees to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Put Option - Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Trust buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Trust can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification - Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Years of participation in The Haskell Company Tax Deferred Savings Plan (401(k)) (the "401(k) Plan") is considered when calculating the 10 year requirement. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant my diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. For those participants who elect to diversify, Company common stock will be liquidated and the proceeds will be transferred to the 401(k) Plan for investment at their discretion.

Plan Amendment – The Company acquired two companies in December 2012. Effective January 1, 2013, the Company amended the Plan to include active employees of the acquired companies as of the acquisition dates to receive credit for hours of service on or after January 1, 2012. These employees merged into the Plan in 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividends are recorded on the payment date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded upon distribution.

Administrative Expenses – Certain Plan expenses are deducted from participant's accounts and the remaining expenses are paid by the Company. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events – The plan has evaluated subsequent events through September 9, 2014, the date the financial statements were available to be issued.

3. **Investments**

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
Sponsor Company Common Stock	$ 53,757,930	$ 49,156,198

The Plan's investment in Company common stock at December 31, 2013 and 2012 is as follows:

	2013		2012	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	64,544	48,855	60,667	52,732
Cost	$ 23,386,228	$ 17,701,632	$ 21,981,474	$ 19,106,386
Market	$ 30,597,585	$ 23,160,345	$ 26,297,845	$ 22,858,353

During the year ended December 31, 2013, the Plan had net appreciation (including gains and losses on investments bought and sold as well as held during the year) in the fair value of its investments as follows:

Company common stock	$ 4,601,732
Mutual funds	55,685
	$ 4,657,417

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that is either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Fair Value
Mutual funds:				
Growth	$ 666,088	$ -	$ -	$ 666,088

Common Stock	-	-	49,156,198	49,156,198
Total assets at fair value	$ 3,121,310	$ -	$ 49,156,198	$ 52,277,508

The following table illustrates the activity Level 3 assets measured at fair value on a recurring basis from December, 31, 2012 to December 31, 2013:

	Sponsor Company Common Stock
Fair value at December 31, 2012	$ 49,156,198
Unrealized gains	4,601,732
Fair value at December 31, 2013	$ 53,757,930

The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation approaches. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Unrealized gains included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

5. Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal of the loan, which is reimbursed to the trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee's fees are paid directly by the Plan.

6. Loan Payable

On November 13, 2008, the Plan entered into a $25,844,637 term loan agreement with the Company. The proceeds of the loan were used to purchase 71,329 shares of the Company's common stock. Unallocated shares are collateral for the loan. The agreement provides for the loan to be repaid over twenty years at an interest rate of 4.24% per annum.

The schedule of amortization of the loan for the next five years and thereafter is as follows:

2014	$ 1,135,486
2015	1,183,630
2016	1,233,816
2017	1,286,130
2018	1,340,662
Thereafter	12,849,548
Total	$ 19,029,272

7. Employer Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

The amount contributed by the Company for 2013 was $964,000. The Plan utilized $1,242,327 in dividends in order to make the loan payment of $1,942,327, of which $1,089,299 represents principal repayment and $853,028 represents interest.

8. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

9. **Tax Status**

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated January 10, 2012, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Under the statute of limitations, the plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

10. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

11. **Reconciliation of Financial Statements to Form 5500**

The following is a reconciliation of net assets available for benefits per the accompanying 2013 and 2012 financial statements to Schedule H of Form 5500:

	December 31, 2013	December 31, 2012
