Report of Independent Certified Public Accountants

Administrative Committee of
URS Corporation 401(k) Retirement Plan for Specified Contract Employees

Report on the financial statements

We were engaged to audit the accompanying financial statements of URS Corporation 401(k) Retirement Plan for Specified Contract Employees (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 5, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entities meet the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from these entities as of December 31, 2013 and 2012, and for the year ended December 31, 2013, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the certified information described in Note 5, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

URS CORPORATION 401(k) RETIREMENT PLAN FOR SPECIFIED CONTRACT EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the URS Corporation 401(k) Retirement Plan for Specified Contract Employees (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General: The Plan was established on January 1, 2011, to provide retirement benefits for employees of URS Corporation and certain of its affiliates (collectively, the “Company”). The Plan is a defined contribution plan covering all eligible employees who have attained eighteen years of age, are members of a specified contract or employed at a specific job location, and not covered under the URS Corporation 401(k) Retirement Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan’s operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions: Participants may voluntarily make contributions between 1% and 75% of their annual pre-tax compensation (the “Salary Reduction Contributions”), limited to \$17,500 for the year ended December 31, 2013. Participants who are 50 years of age and over may voluntarily make additional contributions up to \$5,500 (the “Catch-up Contributions”). Catch-up Contributions are counted as part of the 75% limitation on the Salary Reduction Contributions. Participants also may voluntarily make after-tax and Roth elective deferral contributions. If participants are highly-compensated employees, the maximum contribution percentage may be subject to further limitation.

The Plan also provides for an automatic enrollment feature. Eligible employees will be automatically enrolled as participants in the Plan on the first day of the pay period that is as soon as administratively feasible following their “Automatic Enrollment Date.” A participant’s Automatic Enrollment Date is 45 days after the date on which the participant first completes one hour of service. Eligible employees will not be automatically enrolled in the Plan if they affirmatively elect to make deferral contributions at the time and in the manner specified by the Company or elect not to participate in the Plan prior to their Automatic Enrollment Date. A participant’s Salary Reduction Contributions under the automatic enrollment feature will be 1% until either a participant elects to discontinue or change his or her automatic enrollment contributions.

Employer Contributions: The Company may make discretionary contributions to eligible participants. In addition to the Company’s discretionary contributions, certain participants may be eligible to receive Company matching contributions based on the provisions specified in the Plan document. All discretionary and required employer contributions are subject to limitations

imposed by applicable provisions of the Internal Revenue Code (“IRC”). No discretionary contributions were made to the Plan in 2013.

Certain work locations contribute to the Plan regardless if the employee made a contribution. The amount of the contribution is determined by the work location and is based either on a specific amount per hour worked or a percentage of eligible pay as specified in the Plan document.

Participant Accounts: Each participant’s account is credited with the participant’s contributions and Company contributions, if any, which are directly made to a participant’s account and allocations of (a) certain Company discretionary or required contributions, if any, and (b) Plan investment earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan document. Certain administration fees are paid from the participant’s account unless the participant is a member of an exempted group per the Plan document. The benefit to which a participant is entitled is the benefit that may be provided from the participant’s vested account.

Vesting: Participants are immediately vested in their voluntary contributions, rollover contributions, and employer contributions, plus actual earnings thereon.

Notes Receivable from Participants: Participants may borrow from their vested account balances provided they meet the Plan’s eligibility requirements. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant’s vested account balance or \$50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence. A participant may have no more than two loans outstanding at the same time. Notes receivable from participants bear interest at rates that range from 4.25% to 9.25% and 4.00% to 9.25% at December 31, 2013 and 2012, respectively, which are commensurate with prevailing rates at the time of the loan as determined by the Plan administrator and remain fixed throughout the life of the loan. Loans are collateralized by the borrower’s account balance in the Plan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: The Plan provides for the distribution of benefits to the participant (or, if applicable, the beneficiary) if the participant (a) attains age 70½ or, (b) upon retirement, death, disability, or termination of employment. Hardship withdrawals, certain in-service withdrawals, and withdrawals of roll-over contributions, as defined in the Plan, are also permitted. Participants may elect to receive their benefits in the form of a lump sum payment, installment payments or a direct rollover distribution to another qualified plan. Participants who separate from service and have vested account balances of less than \$1,000 receive a lump sum distribution in cash as determined by the Plan administrator.

Forfeited Accounts: Forfeitures may be used to reduce the Company’s contributions, to pay Plan expenses, and to restore non-vested accounts of employees who are rehired. The balance of unallocated forfeitures at December 31, 2013 and 2012 was approximately \$10,000 and \$44,000, respectively. Forfeitures used by the Company to reduce the Company’s contributions totaled \$65,000 during the year ended December 31, 2013.

Unallocated Contribution Funding Accounts: The Company quarterly funds estimated future required contributions for the participants of one participating affiliate of URS Corporation into

an unallocated contribution funding account of the URS Corporation 401(k) Retirement Plan (the 'URS Plan'). At December 31, 2013 and December 31, 2012, approximately \$867,000 and \$1.0 million, respectively, was due to the Plan from the URS Plan related to this funding.

Administrative Expenses: The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Options: Upon enrollment in the Plan, a participant is allowed to direct the investment of his or her account, in one percent increments, into a variety of diversified investment fund options allowed by the Plan. If a participant is automatically enrolled in the Plan and has not selected an investment fund to invest their contributions to the Plan, those contributions will be invested in the Retirement Date Fund closest to the year in which the employee would obtain retirement age. Participants may change their investment options at any time.

Transfers to and from Affiliated Plans: On December 31, 2013, a defined contribution plan sponsored by one of the Company's business groups was merged into the Plan. The net assets transferred in of \$7.4 million consisted of \$6.7 million in cash and \$0.7 million in notes receivable from participants.

If during the year the eligibility of an active participant in the Plan or the URS Plan changes, fully vested benefits are transferred to the plan that the participant is eligible to participate in. Those transfers accounted for a net transfer of approximately \$1.8 million from the Plan to the URS Plan during 2013.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The Plan's financial statements are prepared under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure

of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements under Accounting Standards Codification (“ASC”) 820. Investment income (loss) and realized and unrealized gains or losses are reported as a single amount as Plan interest in investment income of the Master Trust. (See Note 4 for information about the Master Trust).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments includes gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). When available, the Master Trust and Plan measure fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and Plan have the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

Following is a description of the valuation methodologies used to measure the fair value of the assets held within the Master Trust. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Funds: Valued based on quoted market prices of the fund in active markets.

Collective Trust Funds and Commingled Pools: Stated at the net asset value (NAV) of shares held at end of year based on the quoted market prices of the underlying assets.

Stocks: Valued at the quoted market price of the security.

Synthetic Investment Contracts: Valued at fair value and then adjusted to contract value. Fair value is based on the underlying fixed income securities and contract wrappers. Certain underlying fixed income securities are valued at prices determined using other significant observable inputs such as the quoted prices for similar securities, interest rates, credit risks and others. One component is valued based on quoted market prices of the fund in active markets. The fair value of the contract wrappers represents replacement costs.

Cash and certificates of deposit: Valued at the cash balance held at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust and the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – INTEREST IN MASTER TRUST

The Plan's investment assets are held in a trust account at Fidelity Management Trust Company ("Trustee") and consist of an undivided interest in an investment account of the URS Corporation Retirement Plans Master Trust ("Master Trust"), a master trust established by URS Corporation and administered by the Trustee. Use of the Master Trust permits the commingling of trust assets with the assets of the URS Plan for investment and administrative purposes. Although assets of the two retirement plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment funds to the participating plans. The net investment income (loss) of the Master Trust investment funds is allocated by the Trustee to each participating plan based on that plan's interest in each investment fund, as compared with the total interest of all the participating plans in each

investment fund. Investment income (loss) is recognized as earned based on the terms of the investments and the period during which the investments are held by the Master Trust. The Plan's interest in the Master Trust represented approximately 6.4% of the total assets in the Master Trust at December 31, 2013 and 2012.

The following table presents the net assets of the Master Trust as of December 31:

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, no audit procedures were performed with respect to the information certified by the Trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, and certified by Bank of Oklahoma as of December 31, 2013, except to compare such information to the information included in the accompanying financial statements and supplemental schedule. Bank of Oklahoma was the trustee of the affiliated plan merged into the Plan on December 31, 2013.

Information certified by the Trustee and Bank of Oklahoma includes the fair value of the investments held in the Master Trust and notes receivable from participants included in the accompanying Statements of Net Assets Available for Benefits; interest in investment income (loss) for the Master Trust, and interest income on notes receivable from participants included in the accompanying Statement of Changes in Net Assets Available for Benefits; information regarding the investments held in the Master Trust presented in Note 4; and notes receivable from participants included in Schedule H, Line 4i: Schedule of Assets (Held at End of Year).

NOTE 6 – SYNTHETIC INVESTMENT CONTRACTS

The Master Trust, in which the Plan’s investment assets are held, includes investments in synthetic investment contracts (“SICs”). A liquidity agreement (“wrapper”) is entered into for a fee with a financially responsible third party that guarantees a minimum rate of return and provides benefit responsiveness. These companies have Standard and Poor’s financial strength ratings of AA- to AAA. There are no reserves currently considered necessary against contract value for credit risk of these companies or otherwise. Contract value, as reported to the Master Trust by the financially responsible third parties, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fair value of the SICs was determined based on the underlying fixed income securities and contract wrappers as discussed in Note 3. The contract wrappers held in the Master Trust were \$42,000 and \$219,000 at December 31, 2013 and 2012, respectively. The investments in SICs are presented at fair value on the Statements of Net Assets Available for Benefits in the line item “Plan investment in URS Corporation Retirement Plans Master Trust” at December 31, 2013 and 2012. An adjustment is also included in the Statements of Net Assets Available for Benefits, so that ending net assets available for benefits reflect the contract value of the SICs.

The SIC contracts are between the respective issuers thereof and the Master Trust and prohibit the Master Trust from selling or assigning such contracts without issuer consent. Terms of such contracts allow all participant-initiated transactions to occur at contract value. The crediting interest rate is set at the time such contracts are negotiated and, depending on the terms of such contracts, is fixed through the maturity date or is re-set quarterly, semiannually or annually depending on the performance of the investments being managed. The minimum crediting rate is zero percent. Key factors that could influence future crediting interest rates include, but are not limited to, the following: (1) the level or market interest rates, (2) the amount and timing of participant contributions, transfers and withdrawals into/out of such contracts, (3) the investment returns generated by the fixed income investments that support the contract wrapper, or (4) the duration of the underlying investments supporting such contracts.

There are certain events not initiated by Plan participants that limit the ability of the Master Trust to transact with the issuer of a SIC at its contract value. Specific coverage provided by each SIC may be different for each issuer, and can be found in the individual SIC contracts held by the Master Trust. Examples of such events include: the Plan's failure to qualify under the Internal Revenue Code of 1986 as amended; full or partial termination of the Plan, involuntary termination of employment as a result of a corporate merger, divestiture, spin-off, or other significant business restructuring, which may include early retirement incentive programs or bankruptcy; changes to the administration of the Plan which decreases employee or employer contributions, the establishment of a competing plan by the Plan sponsor, the introduction of a competing investment option, or other Plan amendment that has not been approved by the contract issuers; dissemination of a participant communication that is designed to induce participants to transfer assets from this investment option; events resulting in a material and adverse financial impact on the contract issuer, including changes in the tax code, laws or regulations. The Company does not believe that the occurrence of any of the aforementioned events, which would limit the Master Trust's ability to transact with the issuer of a SIC at its contract value with participants, is probable.

The SICs generally impose conditions on both the Master Trust and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Master Trust to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Master Trust agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Master Trust were unable to obtain a replacement investment contract, withdrawing plans may experience losses if the value of the Master Trust's assets no longer covered by the contract is below contract value.

The Master Trust may seek to add additional issuers over time to diversify the Master Trust's exposure to such risk, but there is no assurance the Master Trust may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Master Trust unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract

termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay to the Master Trust the excess, if any, of contract value over market value on the date of termination.

If a SIC terminates due to a decline in the ratings of the issuer, the issuer may be required to pay to the Master Trust the cost of acquiring a replacement contract (i.e. replacement cost) within the meaning of the contract.

If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Master Trust to the extent necessary for the Master Trust to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

The average yield based on actual earnings was approximately 1.24% and 1.49%, and the average yield based on interest rate credited to participants was approximately 1.20% and 1.31% at December 31, 2013 and 2012, respectively.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination from among the investments currently being offered. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the economic environment in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 8 – TAX STATUS

In January 2014, the Plan requested a determination letter from the Internal Revenue Service ("IRS"). The Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC; and therefore, would be considered tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon

examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 9 – RELATED PARTY TRANSACTIONS

The Plan has certain investments that are managed by Fidelity, the Trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules of ERISA.

NOTE 10 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will continue to be 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.
