RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

Note 1 – Description of the Plan

P.A.M. Transport, Inc. (the Company or Employer) sponsors the P.A.M. Transport, Inc. 401(k) Retirement Savings Plan (the Plan). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the Company's employees, except for employees covered under a collective bargaining agreement, nonresident aliens, leased employees or employees of any member of a controlled group who does not affirmatively adopt this Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by a committee appointed by the Company. Transamerica Financial Life Insurance Company, Inc. (TFLIC) and State Street Bank and Trust Company (collectively, the Custodians) serve as the custodians of the Plan. State Street Bank and Trust Company (the Trustee) also serves as the trustee of the Plan. Diversified Retirement Corporation, whose name changed to Transamerica Retirement Solutions Corporation (Transamerica) effective April 1, 2013, processes and maintains the records of the participant data and is affiliated with the Custodians.

Eligibility

Nonexcluded employees who have reached 18 years of age and have completed one month of service are eligible to participate in the Plan. Participants may enroll in the Plan on the first day of the month immediately following or coinciding with the date eligibility requirements are met.

Contributions

Each year, participants may contribute up to 100% of pretax compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trust funds and a guaranteed investment contract as investment options for participants.

The Plan provides for Employer matching contributions equal to 50% of the participant's elective contributions up to a maximum of 1.5% of the participant's compensation. Employer matching contributions are calculated annually. Additional amounts may be contributed by the Employer under the Plan's nonelective provisions at the discretion of the Company's Board of Directors. Allocations of such nonelective contributions are based on the proportion of each participant's compensation to the total of all participants' compensation. No nonelective discretionary contributions were made for the year ended December 31, 2013. Participants must have completed one year of service, as defined, be employed on

the last day of the year and be at least age 18 in order to be eligible for Employer contributions. These requirements are waived in the case of death, disability or retirement.

Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Employer's contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's contributions is based upon years of continuous service as follows:

Years of Service	Vesting Percentage
Less than one year	0%
One, but less than two	20%
Two, but less than three	40%
Three, but less than four	60%
Four, but less than five	80%
Five years or more	100%

Participants automatically become 100% vested upon: 1) normal retirement (attainment of age 65); 2) disability; or 3) death. Participants who terminate for any other reason are entitled to the vested amount of their accounts.

Notes receivable from participants

Notes receivable from participants are not permitted by the Plan.

Payments of benefits

Upon retirement, termination, disability or death, a participant may elect to receive a distribution equal to the value of the participant's vested interest in his or her account. The normal distribution is one lump-sum payment. Other distributions available include installment or partial payments, direct rollover, life annuity, term certain annuity with payments guaranteed for five, ten or 15 years and joint survivor annuity options. Additionally, participants may take an in-service distribution upon reaching the age of 59½. Upon termination, automatic distributions are required for balances of less than $5,000. Automatic distributions above $1,000 made without the participant's consent are rolled into an individual retirement account designated by the Trustee. Generally, certain minimum distributions are required for participants who have separated from service and have reached age 70½.

The Plan allows hardship withdrawals, subject to account balance limits and applicable laws.

Forfeitures

Forfeitures are used first to restore participant balances previously forfeited, if applicable, then to pay administrative expenses and then to reduce Employer contributions. For the year ended December 31, 2013, forfeitures in the amount of $13,384 were used to reduce Employer contributions. The Plan had $11,582 and $11,113 in unallocated forfeitures at December 31, 2013 and 2012, respectively.

Administrative expenses

The Plan allows administrative expenses to be paid from the Plan's assets.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The Plan has a fully benefit responsive guaranteed investment contract as an investment. This type of investment contract is required to be reported at fair value. However, contract value is the relevant measurement for fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the guaranteed investment contract as well as the adjustment of the fully benefit responsive investment contract from fair value to contract value, if fair value does not approximate contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefit payments are recorded when paid. There were no benefits requested before year-end that were not paid.

Subsequent events

The Plan Administrator has evaluated subsequent events through August 15, 2014, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2013 and 2012;
- Net investment activity as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2013;
- Investment information included in the footnotes and supplemental schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4 – Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

Investment	2013	2012
Diversified Long Horizon Asset Allocation Fund	$ 1,974,312	$ 1,661,279
TFLIC Stable Fund	1,306,416	1,677,686
Diversified Intermediate/Long Horizon Asset Allocation Fund	1,231,949	1,219,156
American Funds Growth Fund of America R2	1,195,393	923,246
Diversified Balanced Fund	874,854	720,529
Diversified Intermediate Horizon Asset Allocation Fund	764,786	715,054
Diversified Core Bond Fund	-	642,982

For the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $1,885,875 as follows:

Common collective trust funds	$ 1,233,867
Mutual funds	652,008
	$ 1,885,875

Note 5 – Fair Value Measurements

Accounting guidance provides a framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Unadjusted quoted prices for identical, unrestricted assets or liabilities in active markets that a plan has the ability to access.
Level 2	Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means for substantially the full term of the assets or liabilities.
Level 3	Significant unobservable inputs.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2013 and 2012. During the year ended December 31, 2013, there were no transfers of financial instruments into or out of Level 3.

Following is a description of the valuation methodologies used for assets measured at fair value:

Common collective trust funds – Stated at fair value as determined by the issuer of the common collective trust funds based on the fair market value of the underlying investments. There are no restrictions on redemptions from the common collective trust funds, and there are no unfunded commitments as of December 31, 2013.

Guaranteed investment contract (GIC) – Valued at the beginning balance of the account, plus any deposits and credited interest, less any withdrawals, charges or expenses.

Generally, Plan participants may withdrawal from the GIC upon a 30-day advance written notice to TFLIC. In the event of a withdrawal from the GIC, the Plan will be subject to a market value adjustment, as described in the contract. Monies transferred from the GIC to a non-Fixed Income Fund may not thereafter be transferred to a Fixed Income Fund for at least three months. TFLIC may impose a holding period at the contract level in the event of a full or partial contract discontinuance. There are no unfunded commitments as of December 31, 2013.

Mutual funds – Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31:

The following table represents the Plan's Level 3 asset, the valuation technique used to measure the fair value of that asset as of December 31, 2013, and the significant unobservable inputs and the ranges of values for those inputs:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Discount Rate
TFLIC Stable Fund	$ 1,242,924	Discounted cash flow	Discount rate	4.86%

The Plan Administrator has selected Transamerica as a vendor to provide funding vehicles under the Plan, and has selected the TFLIC Stable Fund as an investment account to be offered under the TFLIC funding vehicles. Transamerica values the TFLIC Stable Fund at contract value, which equals the deposits made to the TFLIC Stable Fund, plus interest credited under the terms of the contract, less any withdrawals. Transamerica has provided specific information to the Plan Administrator regarding the contract value and the estimated fair market value at December 31, 2013, under the contract termination provisions for the single sum transfer option. The Plan Administrator has utilized and relied on the information provided by Transamerica to determine the Plan's valuation policy for the TFLIC Stable Fund.

Note 6 – Guaranteed Investment Contract with Insurance Company

In 1999, the Plan entered into a benefit responsive investment contract with TFLIC. TFLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan.

Because the GIC is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of

the statements of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits, if fair value does not approximate contract value. Contract value, as reported to the Plan by TFLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was $1,242,924 and $1,635,073, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2.75%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, a merger, consolidation, spin-off, sale of assets, acquisition, layoffs, bankruptcy, full or partial Plan termination, and early retirement incentive programs. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurrence.

The GIC only permits the insurance company to terminate the contract if the Plan no longer qualifies as a tax-qualified plan according to the Internal Revenue Code (the Code), TFLIC determines that it can no longer provide benefits under the contract due to a change in the Plan provisions, or due to noncompliance with the terms of the contract.

Average Yields	2013	2012
Based on actual earnings	1.59%	2.00%
Based on interest rate credited to participants	1.25%	1.00%

Note 7 – Party-in-Interest Transactions

Certain administrative expenses, totaling approximately $35,000 were paid by the Company on behalf of the Plan for the year ended December 31, 2013. The Company does not expect reimbursement from the Plan for these expenses. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services.

Certain Plan investments are managed by the TFLIC or Diversified Investment Advisors. These transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in the fair value of investments.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Employer contribution portion of their account.

Note 9 – Tax Status

The Company adopted a prototype nonstandardized profit sharing plan with CODA (the Prototype Plan) sponsored by Diversified Investment Advisors. The Internal Revenue Service has determined and

informed the Prototype Plan sponsor by a favorable opinion letter dated March 31, 2008, that the Prototype Plan is designed in accordance with the applicable sections of the Code. The Prototype Plan's opinion letter is being relied on by the Plan. Although the Plan has been amended since receiving the opinion letter, the Plan's management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code, and therefore, believes the Plan is qualified and the related trust is tax-exempt. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	2013	2012
Net assets available for benefits per the financial statements	$ 12,671,814	$ 11,675,054
Adjustment from contract value to fair value for fully benefit responsive contract	-	(42,613)
Net assets available for benefits per the Form 5500	$ 12,671,814	$ 11,632,441
