The accompanying notes are an integral part of these financial statements.

1. Description of Plan

The following description of the Slomin's, Inc. 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a "salary reduction" or 401(k) retirement savings plan covering all full-time non-union employees of Slomin's, Inc. (the "Company") who attained the age of twenty-one. In addition, the Plan is covering all part time non-union employees of the Company who attained the age of twenty-one and have completed at least 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
In 2013 and 2012, participants may contribute up to a maximum of $17,500 and $17,000, respectively, of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions of up to $5,500. The Plan provides for discretionary matching employer contributions at the option of the Company's management. Participants may also rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts
Each participant's account is credited with (a) the participant's contribution, (b) an allocation of Plan earnings, and (c) the Employer's discretionary matching contribution. Allocation of earnings is based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested after three years of credited service in employer contributions to the Plan.

Notes Receivable from Participants
Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 5.00%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or payments under various installment options. The Plan also permits distributions to participants upon disability or death, or upon attaining the age of 59½ while still in service. Withdrawals from the Plan may also be made upon the circumstances of financial hardship.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Forfeitures
Forfeitures of terminated participants' non-vested balances are applied to reduce employer contributions. There were no forfeitures for the years ended December 31, 2013 and 2012.

Risks and Uncertainties
The Plan's investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

3. Investment Information Certified by the Plan's Trustee

The following is a summary of the investment information regarding the Plan as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, which was prepared or derived by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustee that such information is complete and accurate.

Investments which represent 5% or more of the Plan's net assets available for benefits in December 31, 2013 and 2012 are separately identified.

Plan's investments	2013
Mutual funds	$ 1,550,699
Interest and dividends	$ 560,580

4. Fair Value Measurement

The Plan adopted the Financial Accounting Standards Board's authoritative guidance on Fair Value Measurement accounting, which establishes a framework for measuring fair value and expands disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds: Valued at quoted market prices at active markets which represent the net asset value of the shares of underlying investment securities held by the Plan at year-end.

The following is a summary of the fair value measurement of the investments as of December 31, 2013 and 2012 as required by the financial accounting standards:

5. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their employer contributions.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC) Section 401 (a). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Plan Administrative Expenses

The Company has paid certain administrative expenses of the Plan.

8. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the administrative service provider and trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of $698 which was not covered by revenue sharing.

9. Subsequent Events

The Plan has evaluated subsequent events through September 18, 2014, the date which the financial statements were available to be issued.
