N.A.N.I. PHYSICIANS SERVICES PROFIT SHARING
AND RETIREMENT SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the N.A.N.I. Physicians Services Profit Sharing and Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Nephrology Associates of Northern Illinois, Ltd. and Nephrology Associates of Northern Indiana, P.C. (collectively N.A.N.I. Physicians Services) and Subsidiary (collectively referred to as "the Company") who have 1,000 hours of service in a twelve-month period and are age 19 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended by subsequent legislation.

Contributions - Each year participants may contribute up to 15% of pre-tax annual compensation, as defined in the Plan, not to exceed the annual federal statutory limits of $17,500 and $17,000 in 2013 and 2012, respectively. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500 per plan year in 2013 and 2012. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make discretionary matching and profit sharing contributions to the participants' accounts. For 2013 and 2012, the Company made profit sharing contributions in the amounts of $2,345,386 and $2,221,836, respectively.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants receive quarterly statements detailing the activity in their accounts.

Vesting - Participants are vested immediately in their contributions. Vesting in the employer contributions is based on years of continuous service. A participant is 100% vested after four years of service based on a graduated vesting schedule.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Interest rates range from 3.25% to 6.00% at December 31, 2013. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service due to death, disability or retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in a lump-sum amount or in the form of an annuity as provided for in the Plan.

Hardship Withdrawal - Subject to approval by the plan administrator, participants may withdraw their employee pre-tax contributions, if any, to satisfy immediate and heavy financial needs, as defined in the Plan.

1. Description of Plan (Cont.)

Forfeitures - At December 31, 2013 and 2012, forfeited non-vested accounts totaled $35,075 and $35,003, respectively. These accounts may be used to reduce Company contributions and/or to offset administrative expenses. Any remaining forfeitures are allocated to participants. In 2013, administrative expenses were reduced by $4,592 from forfeited non-vested accounts. In 2012, the Company did not use any forfeitures to reduce Company contributions or pay administrative expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative expenses of the Plan are paid by the Company. Other administrative expenses are incurred and paid by participants in connection with certain transactions. Certain investment management fees are included in the net appreciation in fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition - Shares of registered investment companies are valued at quoted market prices which represent net asset value of shares held by the Plan. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As of December 31, 2013 and 2012, the contract value of the investment contract approximates fair value. The statement of changes in net assets available for benefits is prepared on the contract basis. Contract value represents contributions made under the contract plus earnings, less withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan provides for investments that, in general, are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants - Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

3. Information Certified by the Plan's Trustees

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Capital Bank & Trust Company and Bank of America, N.A., the trustees of the Plan, have certified to the completeness and accuracy of all investments, at fair value, and notes receivable from participants reflected on the accompanying statements of net assets available for benefits at December 31, 2013 and 2012, the supplemental schedule of assets (held at end of year) at December 31, 2013, and all investment income components and interest income from participant notes receivable reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.

Registered investment companies	$ 4,855,209	$ 1,841,109

5. Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

The fair value of shares of registered investment companies is determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of the Plan's interest in common/collective trusts is based upon the net asset values of such funds reflecting investments at fair value, largely short-term, high quality investment contracts and money market funds that seek to maintain a stable value. Such investments are classified in Level 2 of the fair value hierarchy (Level 2 inputs).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Cont.)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

		Fair Value Measurements at Reporting Date Using

(a) The common/collective trusts invest largely in short-term, high quality investment contracts and money market funds that seek to maintain a stable value. These investments are credited with earnings on underlying investments and charged for Plan withdrawals and administrative expenses. The value of the investment is not guaranteed. The investment may be redeemed daily, with no prior notice, at the current net asset value per share based on the fair value of the underlying assets.

6. Tax Status

The Plan is covered under CPI Qualified Plan Consultants Inc. Volume Submitter Money Purchase Pension Plan opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the opinion letter. However, the plan administrator believes that the Plan is currently designed and being operating in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

7. Related Party Transactions

Certain Plan investments were managed by Capital Bank & Trust Company and Bank of America, N.A., the trustees of the Plan; therefore, these transactions qualify as exempt party-in-interest transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

9. Late Deposits

During the plan year ended December 31, 2013, the Plan engaged in prohibited transactions related to late deposits of employee deferrals totaling $116,709. Additionally, $13,511 of loan payments were considered late. The plan sponsor has calculated late deposits and corrected the contributions in 2013.

10. Subsequent Events

Management has evaluated subsequent events through August 18, 2014, the date which the financial statements were available to be issued.
