The Board of Directors
Center for Emergency Medicine

We were engaged to audit the accompanying financial statements of Center for Emergency Medicine Defined Contribution Retirement Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matters described in the Basis for Disclaimer of Opinion paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2013 and 2012, and for the year ended December 31, 2013, stating that the investment information provided to the plan administrator is complete and accurate.

Additionally, the Center for Emergency Medicine Defined Contribution Retirement Plan has not maintained sufficient accounting records and supporting documents relating to annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Disclaimer of Opinion on Supplemental Schedule

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraphs, we do not express an opinion on the supplemental schedule referred to above.

Center for Emergency Medicine Defined Contribution Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The following description of the Center for Emergency Medicine Defined Contribution Retirement Plan (the Plan) provides general information about the Plan's provisions. Center for Emergency Medicine (CEM or the Company), an affiliate of University of Pittsburgh Medical Center (UPMC), is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering substantially all full-time employees of the Company. Employees were eligible to start making pretax deferrals into the Plan upon hire and became eligible to receive matching and discretionary employer contributions upon completion of at least two consecutive years of service.

CEM is responsible for the general administration of the Plan. The Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF) is the custodian and record-keeper for the Plan.

Contributions

Prior to July 1, 2009, participants could contribute up to 100% of pretax compensation, as defined in the Plan. The Company also made contributions equal to 2% of pretax compensation for all eligible participants and matching contributions equal to 100% of the first 3% of compensation that an eligible participant contributed to the Plan.

Effective July 1, 2009, contributions to the Plan ceased upon CEM's integration into the UPMC Payroll and Benefits Program and the Plan became frozen. Active CEM employees have the option to transfer their assets to the UPMC 403(b) Retirement Savings Plan (UPMC 403(b) Plan) or may retain their accounts at TIAA-CREF. Transfers of assets are restricted to the UPMC 403(b) Plan only as long as participants are actively employed at UPMC or CEM.

Each participant was able to elect to have his or her contributions and employer contributions invested in any of the funds offered by the Plan.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

An individual account is maintained for each participating employee.

Vesting

Participants are fully and immediately vested in amounts attributable to contributions made into the Plan when such contributions are made.

Administrative Expenses

As permitted by the Plan, certain plan expenses are paid by CEM.

Payment of Benefits

The benefit to which a participant is entitled is the balance in the participant's account. Distributions from the participant's account may be paid out when a participant attains age 59 1/2, separates from service, dies, or becomes disabled.

Loans

TIAA-CREF offers loans which are issued directly from funds owned by TIAA-CREF and not directly from a participant's account. Adequate security is required and a portion of the participant's account is reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The collateral is held in the TIAA Traditional Annuity. These loans are not assets of the Plan.

Plan Termination

Although it has not expressed any intent to do so, Center for Emergency Medicine has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). However, in any such event, the participants' rights to their accrued benefits are nonforfeitable.

Center for Emergency Medicine Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

2. Significant Accounting Policies

Basis of Accounting

The Plan reports its financial statements on the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for further discussion and disclosures related to fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation in variable annuities, net appreciation in the pooled separate account, net appreciation in the guaranteed annuity contract, and interest income from the guaranteed annuity contract for the year ended December 31, 2013, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by TIAA-CREF.

Center for Emergency Medicine Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

3. Investments (continued)

Individual investments that represent 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2013	2012
CREF Stock Fund	\$ 2,024,470	\$ 1,733,398
TIAA Traditional Fund	1,394,324	1,385,766
CREF Money Market Fund	607,909	642,685
CREF Growth Fund	872,413	668,556
CREF Global Equities Fund	612,279	499,546
TIAA Real Estate Fund	408,245	390,123
CREF Equity Index Fund	459,019	375,161

4. Fair Value Measurements

Fair value is defined under Accounting Standards Codification (ASC) 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active
 - Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)

Center for Emergency Medicine Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value:

Variable Annuities (CREF Accounts) consist of eight investment portfolios: the Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation-Linked Bond, Social Choice, and Money Market Accounts (individually referred to as the Account or collectively referred to as the Accounts). CREF is registered with the Securities and Exchange Commission under the Investment Company Act of 1940 as an open-end management investment company; however, the CREF Accounts themselves are not traded on an exchange in an active market. These Accounts are variable annuities which are primarily valued using market quotations or prices obtained from independent pricing sources which may employ various pricing methods to value the investments, including matrix pricing, except for the Money Market Account which is generally valued at amortized cost. Each Account determines its net asset value (NAV) on a daily basis and is redeemable at NAV on the valuation date.

Pooled Separate Account (PSA) (TIAA Real Estate Account) is a non-fully benefit-responsive investment valued principally from the market value of the underlying real estate holdings or real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The PSA also sometimes holds securities which are generally priced using values obtained from independent pricing sources. Unit values (NAV) are calculated each day and the fund is redeemable at NAV daily. The PSA itself is not traded on an exchange in an active market.

Center for Emergency Medicine Defined Contribution Retirement Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Guaranteed Annuity Contract (TIAA Traditional Fund) is offered to participants of the Plan through Retirement Annuity (RA) and Group Retirement Annuity (GRA) contracts, which are not fully benefit-responsive, and through Group Supplemental Retirement Annuity (GSRA) contracts, which are fully benefit-responsive. The TIAA Traditional Fund is valued at contract value, which approximates fair value. The contract value of the fund equals the accumulated cash contributions, interest credited to the Plan's contracts, transfers, if any, less any withdrawals. Since the investment is not available for sale or transfer on any securities exchange, transactions in similar investment instruments are not observable. As a guaranteed annuity backed by TIAA's claims-paying ability, the TIAA Traditional Fund guarantees principal and a guaranteed minimum rate of interest, plus the opportunity for additional amounts in excess of the guaranteed rate. The guaranteed minimum interest rate during the accumulation phase is generally 3%. These guarantees of principal and minimum interest rates ensure that each participant's accumulation is protected from loss and will always increase in value. These additional amounts, when declared by the TIAA Board of Trustees, are determined on a year-by-year basis and remain in effect for the "declaration year." The declaration year begins each March 1 for accumulating annuities and each January 1 for lifetime pay-out annuities.

Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account. TIAA uses a "vintage" method of crediting interest for funds in the TIAA Traditional Fund. Because the yields available on new long-term investments tend to vary over time, TIAA groups the funds received over discrete time periods into vintages. The interest credited to each vintage reflects the investment returns initially obtained on TIAA's investments during each period. When the accumulation in the TIAA Traditional Fund is converted to an annuity based on life expectancy, the present value of the stream of payments is equal to the accumulation. The average yield earned by the Plan and credited to participants in the Plan for all fully benefit-responsive investment contracts is 3.5% and 3.9% at December 31, 2013 and 2012, respectively.

In determining the reasonableness of the methodology, the Plan Sponsor's Board of Directors Committee evaluates a variety of factors, including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data.

4. Fair Value Measurements (continued)

- (a) The investment objective of this account is to achieve a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks.
- (b) The investment objective of this account is to achieve high current income consistent with maintaining liquidity and preserving capital. Substantially all of the account's assets are invested in securities maturing in 397 days or less, including commercial paper, obligations of commercial banks, U.S. government securities, and other foreign and domestic debt obligations.
- (c) The investment objective of this account is to achieve a favorable long-term rate of return that reflects the investment performance of the financial markets, while giving special consideration to certain social criteria. The account invests in a diversified set of domestic and foreign stocks and other equity securities, bonds and other fixed-income securities, as well as money market instruments, and other short-term debt instruments.
- (d) The investment objective of this account is to achieve a favorable long-term rate of return through high current income consistent with preserving capital. The majority of the account's assets are invested in U.S. Treasury and Agency securities, corporate bonds, and mortgage-backed or other asset-backed securities.
- (e) The investment objective of this account is to achieve a favorable long-term rate of return through capital appreciation and investment income from a broadly diversified portfolio that consists of foreign and domestic stocks.
- (f) The investment objective of this account is to achieve a favorable long-term rate of return, mainly through capital appreciation, primarily from a diversified portfolio of common stocks that present the opportunity for exceptional growth.
- (g) The investment objective of this account is to achieve a favorable long-term rate of return from a diversified portfolio selected to track the overall market for common stocks publicly traded in the United States, as represented by a broad stock market index. The account is designed to track the U.S. stock market as a whole and invests in stocks in its benchmark index, the Russell 3000 Index.
- (h) The investment objective of this account is to achieve a favorable long-term rate of return that outpaces inflation, primarily through investment in inflation-indexed bonds – fixed-income securities whose returns are designed to track a specified inflation index over the life of the bond.

4. Fair Value Measurements (continued)

- (i) The investment objective of this fund is to achieve long-term returns primarily through rental income and appreciation of real estate investments owned by the account. The account will also invest in publicly traded securities and short-term higher-quality liquid investments that are easily converted to cash to enable the account to meet participant redemption requests, purchase or improve properties, or cover other expense needs. There are currently no redemption restrictions on this investment. Liquidity is guaranteed since the fund is backed by the TIAA general account.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2013 and 2012:

Investment (by Class)	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range
December 31, 2013				
Guaranteed Annuity Contract	\$ 1,394,324	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted Discount rate applied*	2.55%–5.35%
December 31, 2012				
Guaranteed Annuity Contract	\$ 1,385,766	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted Discount rate applied*	3.00%–5.00%

* Unobservable inputs include discount rate applied.

4. Fair Value Measurements (continued)

TIAA Traditional Fund's account balances are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals, if any. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. Additionally, the discretionary rate applied to contributions received during a reporting period may vary from the discretionary rate applied to account balances at the end of the prior reporting period. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with TIAA Traditional Fund's historical crediting rates.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013:

	<u>Level 3 Assets</u> <u>Guaranteed</u> <u>Annuity</u> <u>Contract</u>
Balance, beginning of year	\$ 1,385,766
Realized gains	8,566
Unrealized gains relating to instruments still held at the reporting date	33,284
Interest	16,144
Transfers within Plan to another investment option	29,145
Transfers out	(13,273)
Sales	(65,308)
Balance, end of year	<u><u>\$ 1,394,324</u></u>

5. Related-Party Transactions

The Plan's investments are managed by TIAA-CREF, which is the custodian and record-keeper of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from prohibited transaction rules under ERISA.

6. Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code) and therefore it is not currently eligible to receive a determination letter from the Internal Revenue Service (IRS). The Plan is required to operate in conformity with the Code to maintain its qualification under Section 403(b). The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Subsequent Events

Management evaluated subsequent events for the Plan through September 17, 2014, the date the financial statements were available to be issued.
