NOTES TO FINANCIAL STATEMENTS
Boedeker Plastics, Inc. 401(k) Plan
December 31, 2013 and 2012

1. Summary of Significant Accounting Policies

A summary of the major accounting policies followed by the Boedeker Plastics, Inc. ("Company") 401 (K) Plan ("Plan") in the preparation of the accompanying financial statements is presented below.

The Plan's investments in mutual funds are reported at fair value as determined by Fidelity Management Trust Company, based on quoted market values of underlying assets. Purchases and sales of securities are recorded on a trade-date basis.

The financial statements of the Plan are prepared using the modified cash basis method of accounting. Additions are recognized when cash is received and deductions are recognized when cash is paid.

The 401(k) Plan is qualified under Section 401(a) of the Internal Revenue Code and is exempt from Federal Income Taxes under 501(a) of the Internal Revenue Code (IRC).

The Internal Revenue Service has determined and informed Fidelity Management and Trust Company, custodian and trustee of the plan, by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is currently being operated in compliance with the applicable requirements of the IRC.

The presentation of financial statements in conformity with the modified cash basis method of accounting requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. Cash and Investments

The Plan's investments are held by a retirement plan service company and are composed of money market, growth and income funds.

3. Plan Participants' Equity

The net assets available for Plan benefits are composed of the following company participants: Boedeker Plastics, Inc., Boedeker Precision, Inc., and Moulton Precision, LLC.

4. Description of Plan

The following description of Boedeker Plastics, Inc.'s 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

4. Description of Plan (Continued)

GENERAL

The Plan is a defined contribution plan covering all full-time employees of the company who are at least eighteen years of age and have more than one year (1,000 hours within 12 months) of service. It is subject to the provisions of the Employee Retirement Security Act (ERISA).

The trustee of the Plan is the plan administrator, who is the managing shareholder of the plan sponsor/Company. Among other duties, the trustee is responsible for overseeing the Plan and evaluating plan management and service providers. Fidelity Management Trust Company serves as the custodian of the Plan's assets. The custodian's duties include receiving contributions, holding and investing the fund assets in accordance with the directions of the participants, and making distributions as directed by the plan participants. Fidelity Management Trust Company serves as the third party administrator, responsible for plan administration, recordkeeping, and transaction processing, including maintaining complete and accurate account records for all plan participants, allocating contributions and earnings, posting distributions and forfeiture information to participant accounts, and preparing participant statements and reports.

CONTRIBUTIONS

Participants may contribute a percentage of their annual wages up to the federal mandated limit of $17,500, with an additional $5,500 catch-up contribution for employees at age 50 by the end of the year. The Plan also allows for discretionary and non-discretionary employer matching and/or profit sharing contributions that are determined and funded on an annual basis. In 2013, a non-discretionary matching contribution of 15% was made as well as a discretionary matching and profit sharing contribution of $69,000. In 2012, a non-discretionary matching contribution of 15% was made as well as a discretionary matching and profit sharing contribution of $69,400.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings as determined by the plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

ADMINISTRATIVE CHARGES

All administrative expenses of the Plan, except amounts paid for certain investments, advisory services and bank charges, are paid by the Company participant.

4. Description of Plan (Continued)

VESTING

Participants are always 100% vested in amounts contributed from their salary deferrals.

Participants are vested in employer contributions from 0% with less than one year of service, 20% with two years of service, 40% with three years of service, 60% with four years of service, 80% with five years of service and 100% with six or more years of service.

Participants will always be vested if they are employed on or after their normal retirement age.

FORFEITURES

The non-vested portion of a terminated participant's account balance remains in the Plan. Forfeitures will be used to reduce future employer contributions, and/or plan related administrative expenses. Forfeited non-vested accounts total $1,751 and $3,021 at December 31, 2013 and 2012.

PAYMENT OF BENEFITS

On termination of service due to death, disability or retirement, a participant will be entitled to receive 100% of their account balance in either a lump sum amount or in annual installments over a specified period of time.

On termination of service for reasons other than death, disability or retirement, a participant will be entitled to receive only the "vested percentage" of their account balance and the remainder of their account will be forfeited. Only contributions made by the Employer are subject to forfeiture.

LOANS

Participants are able to borrow up to the lesser of 50% of their vested balances or $50,000. All loans bear a reasonable interest rate based on current market rates and all loans have a definite repayment period not to exceed five years, unless the loan is for purchase of principal residence, in which case it may not exceed ten years. Loan repayments at a minimum are made on a quarterly basis and must be paid by payroll deductions. As of December 31, 2013, interest rates on outstanding loans range from 3.25% to 8.25% with payback periods ranging from one to nine years.

5. Continuation of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

6. Participant Directed Investments

Investments held by the Plan represent participant-directed accounts. That is, individual participants decide how funds held in trust for them are allocated among various investments. Participants should see the Fidelity Management Trust Company website for the mutual fund choices offered.

7. Party-in-Interest Transactions

Plan investments are money market accounts and mutual funds managed by Fidelity Management Trust Company, an entity that is a party-in-interest with respect to the Plan. These transactions are exempt and covered by the Prohibited Transaction Exemption provisions of ERISA and the Code.

8. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologiesor assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:
December 31, 2013	Fair Value	Quoted Prices in Active Markets (Level 1)
Mutual Funds	$ 10,384,370	$ 10,384,370
December 31, 2012		
Mutual Funds	$ 8,232,570	$ 8,232,570

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

8. Fair Value Measurements (continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

9. Certification Information

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information prepared and certified by a bank or insurance company, which is regulated, supervised and subject to periodic examination by a state or federal agency, need not be audited. The plan administrator has obtained certifications from Fidelity Management Trust Company (custodian) that all information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation (depreciation) in fair value of investments, interest income and all information in the Supplemental Schedule H, line 4i, Schedule of Assets (held at year end), is presented solely upon reliance on those certifications. The independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information in the financial statements, notes to financial statements, and supplemental schedule.

10. Investments Requiring Disclosure

Investments that represent 5% or more of the plan assets at December 31:

		2013	2012
Fidelity	MAINSTAY LGCP GR R1	$ 1,798,553	$ 1,433,664

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events

Subsequent events were evaluated through August 28, 2014, which is the date the financial statements were available to be issued.

The Plan's investments are reported at fair value in the accompanying statement of net assets available for plan benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologiesor assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

		Fair Value Measurements Using:
December 31, 2013	Fair Value	Quoted Prices in Active Markets (Level 1)
Mutual Funds	$ 10,384,370	$ 10,384,370
December 31, 2012		
Mutual Funds	$ 8,232,570	$ 8,232,570

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

8. Fair Value Measurements (continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

9. Certification Information

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, information prepared and certified by a bank or insurance company, which is regulated, supervised and subject to periodic examination by a state or federal agency, need not be audited. The plan administrator has obtained certifications from Fidelity Management Trust Company (custodian) that all information provided by them is complete and accurate. Information included in the accompanying financial statements and notes to financial statements as to investments, net appreciation (depreciation) in fair value of investments, interest income and all information in the Supplemental Schedule H, line 4i, Schedule of Assets (held at year end), is presented solely upon reliance on those certifications. The independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information in the financial statements, notes to financial statements, and supplemental schedule.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events

Subsequent events were evaluated through August 28, 2014, which is the date the financial statements were available to be issued.
