NOTES TO FINANCIAL STATEMENTS
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of The Fives North American Combustion, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering substantially all full-time employees of Fives North American Combustion, Inc. (the “Company”). The Plan excludes non-resident aliens, leased employees, and employees under a cooperative study program under which periods of employment are alternated with periods of schooling. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may contribute up to 75% of their pre-tax compensation, as defined in the Plan, subject to maximum limitations set by the Internal Revenue Code (the “Code”). Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Effective January 1, 2011, the Plan became a Safe Harbor Plan whereby the Company matching contributions will be made in an amount equal to 100% of the participant’s elective deferrals that do not exceed 6% of the participant’s compensation.

Participants direct the investment of their accounts to any of the investment options offered under the Plan.

Participant Accounts and Vesting

Each participant’s account is credited with the participant’s contributions and allocations of (a) the Company’s matching contributions and (b) Plan earnings. Allocations are based on participant compensation, participant elections, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participants are immediately vested in their contributions and the Company contributions plus actual earnings thereon.

Payment of Benefits

Upon termination of service for death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of his or her account. For termination of service for other reasons, a participant may receive the value in his or her account as a lump-sum distribution. The Plan also provides for hardship withdrawals.

Effective June 1, 2012 the Plan was amended to allow participants to elect to receive benefits as partial or installment payments in addition to receiving their benefit payments as a lump sum.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF THE PLAN– CONTINUED

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a termination, the total balance in each participant's account becomes immediately distributable in accordance with the terms of the Plan.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the modified cash basis of accounting which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under the modified cash basis of accounting, contributions and interest and dividend income are recognized when received by the Plan, rather than when earned and certain expenses and the related liabilities are recognized when paid rather than when the obligation is incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. Contract value for this collective trust is principal plus accrued interest. The Statements of Net Assets Available for Benefits presents the fair value of investment contracts as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of the financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES – CONTINUED

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company.

Benefit Payments

Benefits are recorded when paid.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all investment information disclosed in the accompanying financial statements and investment disclosures, (except for the leveling within the fair value hierarchy in Note 4 and the adjustment between contract value and fair value of the stable value fund), and supplemental schedule, relating to investments of the Plan and investment income, were certified by PNC Bank, NA, the trustee. Information as to the Plan's investments have been certified by the trustee as of December 31, 2013 and 2012 and for the year ended December 31, 2013 as being complete and accurate. Amounts certified by the trustee have not been subjected to auditing procedures.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value and expands disclosures about fair value measurements in financial statements. The framework includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets and liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full terms of the assets and liabilities.

Level 3 – Inputs to the valuation methodology that are unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the net asset value (NAV) of the shares held by the Plan at year end, as determined by quoted market prices.

Collective trust funds: The Plan invests in the FFTW Income Plus Fund, a fully benefit-responsive stable value fund, which is stated at fair value and adjusted to contract value. Fair value is based on the NAV per unit based on the fair value of the underlying investments (primary guaranteed investment contracts, synthetic investment contracts, and money market funds). Contract value is principal plus accrued interest. Reference the FFTW Income Plus Fund discussion below for further information related to the valuation of this investment. The S&P 500 Flagship Fund is valued at the NAV of the fund which is based on the fair value of the underlying investments, using quoted market prices.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

The following table sets forth additional disclosures for the fair value measurements of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013 and 2012.

Collective Trusts	Fair Value Estimated Using Net Asset Value per Share As of December 31, 2013 and 2012					
	Fair Value *		Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions	Redemption Notice Period
	2013	2012				
Stable value fund (a)	\$17,229,626	\$20,274,388	\$ -	Daily	Equity Wash – cannot purchase into competing funds for 90 days after sale. Competing funds would be any other stable value funds, money market funds, or mutual funds with duration less than 1.5 years	None
Equity fund (b)	1,367,094	855,990	-	Daily	Redemptions in cash or in-kind	None

* The fair value of the investments have been estimated using the net asset value of the investment.

(a) Stable Value strategies seek to provide capital while using insurance contracts to guarantee against fluctuation in share prices.

(b) Equity (domestic and foreign) strategies (passive and active) that seek to provide long-term total return.

FFTW Income Plus Fund

The fully benefit-responsive stable value fund, the FFTW Income Plus Fund (“IPF”), invests primarily in GICs, SICs and money market funds. Money market funds are valued at net asset value. Investments in GICs represent deposits that guarantee a stated interest rate for the term of the contract. The fair value of the GIC is determined based on the present value of the contract’s expected cash flows, discounted at current market interest rates for like quality and duration investments. SICs are comprised of an underlying pool of securities combined with a wrapper instrument issued by a separate entity that allows for participants to transact at contract value for qualified withdrawals. The securities supporting the SICs are valued by independent pricing sources. The fair value of the wrap contracts is determined by the trustee based on the change in the present value of the contract’s expected cash flows, discounted at current market rates. The fair value of the IPF is then adjusted to contract value (cost plus accrued interest) in the Statements of Net Assets Available for Benefits.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

Certain events or conditions could potentially limit the ability of the IPF to transact at contract value. Examples of such events or conditions include, but are not limited to, partial or complete legal termination of the IPF or the Plan, tax disqualification of the IPF or the Plan, withdrawal of the Plan Sponsor, and certain IPF amendments if issuers' consent is not obtained. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 5 – INVESTMENTS

Investments that represent 5% or more of the Plan's net assets available for benefits at either December 31, 2013 or 2012 are as follows:

	December 31	
	2013	2012
American Balanced Fund CL-A American Funds #11	\$ 5,670,854	\$ 4,214,289

* Formerly the ABN AMBRO Income Advantage Fund

During 2013, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated in value by \$4,376,817 as follows:

Collective trust fund	\$ 300,201
Mutual funds	4,076,616
	<u>\$ 4,376,817</u>

NOTE 6 – TAX STATUS

On March 31, 2008, the Internal Revenue Service (IRS) stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Code. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended and restated since the date of the opinion letter; however, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code.

NOTES TO FINANCIAL STATEMENTS – CONTINUED
(Modified Cash Basis)

December 31, 2013 and 2012

NOTE 6 – TAX STATUS – CONTINUED

Plan management must evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 8 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:
