Report on the Financial Statements

We have audited the accompanying financial statements of the Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the year ended December 31, 2013, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2013 and delinquent participant contributions for the year ended December 31, 2013 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN

The following description of Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan) (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document and Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan, which was established effective September 30, 1986, and most recently amended and restated effective January 1, 2012, is a defined contribution plan covering employees of Air Distribution Technologies, Inc., and certain subsidiary participating companies (the “Company” or ADTI”), the Plan Sponsor.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (“ERISA”). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee and Administration of the Plan

The Air Distribution Technologies, Inc. Retirement Committee (the “Plan Administrator” or “Retirement Committee”) is the administrator of the Plan. The Plan Administrator has full power, authority and responsibility to control and manage the operations and administration of the Plan. The Retirement Committee determines the appropriateness of the Plan’s investment offerings and monitors investment performance.

Charles Schwab Bank (“Charles Schwab”) (as appointed by the Retirement Committee) is the trustee for the Plan. Charles Schwab Retirement Plan Services Company (“Schwab Retirement”) serves as the recordkeeper of the Plan.

As of December 31, 2012 and through March 4, 2013, the Plan participated in the Tomkins Defined Contribution Master Retirement Savings Trust (the “Master Trust”), which held the assets of the Stable Value Option, which were collectively invested for the Plan and the Gates Matchmaker Plan (“Matchmaker Plan”) in the Master Trust.

Effective March 4, 2013, the Master Trust was terminated. Upon termination, approximately \$45,000,000 and \$178,000,000 was transferred out of the Master Trust and into the Plan and Matchmaker Plan trusts, respectively. All remaining Master Trust investments were transferred in-kind into two newly created stable value funds: the ADTI Stable Value Fund, established for the benefit of the Plan; and the Gates Stable Value Fund, established for the benefit of the Matchmaker Plan.

Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

Northern Trust (“Northern Trust”) acted as the sub-custodian of the Master Trust and was then appointed by the Retirement Committee to act as sub-custodian of the ADTI Stable Value fund.

Eligibility

Employees are eligible to participate in the Plan immediately upon employment. Employees on special projects, contract employees, or leased employees are not eligible to participate in the Plan. Members of collective bargaining groups participate in accordance with the terms of their most recent collective bargaining agreement.

Contributions

Participants may elect to defer between 1% and 75% of their annual eligible compensation as pre-tax and Roth contributions, subject to certain Internal Revenue Code (“IRC”) limitations (\$17,500 for 2013). Participants who have attained or will attain the age of 50 by the last day of the plan year may elect to make catch-up contributions, as defined by the Plan, subject to IRC limitations (\$5,500 for 2013). Participants may increase or decrease their deferral percentages on the first day of any pay period, in accordance with administrative procedures.

Each pay period, the Company makes a safe harbor basic contribution of 3% of compensation, as defined, for all eligible participants, regardless of whether they are contributing to the Plan. The Company also makes a matching contribution equal to 100% of the first 4% of the participant’s pre-tax and Roth contributions made during the year. Participants must have one year of service to receive the safe harbor basic and matching contributions. Certain union locations have negotiated matching contributions equal to 25% of the first 6% of the participant’s pre-tax and Roth contributions made during the year.

A true-up match contribution process is in place that reviews each participant’s employer matching contribution quarterly to ensure that they received the maximum employer matching contribution based on annual compensation and employee pre-tax and Roth contributions.

The Company may contribute a discretionary retirement contribution to all eligible participants who have met the one year service requirement and are employed on the last day of the plan year. These discretionary contributions are allocated in the ratio that a participant’s annual total compensation bears to the compensation paid to all eligible participants for the plan year. No discretionary retirement contributions were made for the 2013 plan year.

Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

Certain union locations have negotiated union retirement contributions based on their collective bargaining agreements, subject to various vesting schedules. The Company made union retirement contributions of \$686,310 for the Plan year ended December 31, 2013, which was subsequently funded in 2014.

Rollover contributions transferred from other qualified retirement plans or Individual Retirement Accounts ("IRA") are accepted as permitted by the Plan Document.

Participants' Accounts and Investment Options

Each participant's account is credited with the participant's pre-tax, Roth, catch-up, and rollover contributions; the Company's employer matching, safe harbor basic, and profit sharing contributions; and an allocation of plan earnings or losses. Each participant's account is charged with withdrawals and expenses. Investment earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan, and may change their investment elections at any time. The Plan offers various registered investment companies and a stable value fund as investment options for participants. The benefit to which participants are entitled is the vested portion of their accounts. If a participant does not affirmatively elect an investment allocation, the Qualified Default Investment Alternative ("QDIA") will be selected for them.

Vesting

Participants are immediately 100% vested in their own contributions, employer matching contributions (made prior to January 1, 2012) and employer safe harbor basic contributions. Employer matching contributions (made after January 1, 2012) and employer retirement contributions vest on a six year graded schedule. Union retirement contributions vest on a five or six year graded schedule. Participants are fully vested at age 65, disability (as defined) or death.

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

Unallocated Amounts

At December 31, 2013 and 2012, unallocated amounts held for the Plan totaled \$788,840 and \$786,042, respectively. These unallocated funds are comprised of forfeited non-vested accounts, monthly fees charged to participants pending payment of expenses incurred (the “fee account”), and accounts held for former employees who cannot be located. Forfeited non-vested accounts can be used to reduce future employer contributions or pay plan administrative expenses. During the year ended December 31, 2013, \$158,944 of forfeitures was used to reduce employer contributions and \$424,246 was used to pay plan administrative expenses. The majority of the Plan’s expenses are paid by Plan participants through the use of the fee account.

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000 reduced by the highest outstanding note balance over the past twelve months or the total of the participant’s pre-tax, Roth, and rollover balances. Note terms cannot exceed four and one half years, except for principal residence notes that were grandfathered into the Plan. Notes are secured by the participant’s account and bear interest at a rate of 1% above the lowest prime rate used by the trustee and are fixed for the term of the note. Principal and interest are paid ratably through payroll deductions unless the Plan member elects to accelerate payment in a lump sum payment by check. Effective January 1, 2010, the maximum number of outstanding notes are limited to one. Notes outstanding that exceed, in quantity, the number of new notes available will be repaid until they are paid in full under the original terms of the note.

Payment of Benefits

A participant’s vested interest in the Plan is payable upon termination of employment for any reason or upon death. Upon termination of service, the participant may elect to receive the distribution in a lump sum or to receive annual, semi-annual, quarterly or monthly installments over any period designated by the participant, not to exceed the life expectancy of the participant or their beneficiary, to roll over their account balance to another qualified plan or IRA, or to leave the account in the Plan up to age 70½, at which time one of the above distribution options must be selected if no longer employed.

Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN (CONTINUED)

If a participant dies before benefits have begun, the vested portion of the account is paid to the beneficiary in a lump sum. If the participant had elected distribution in installments, the remainder of the installments is paid to the beneficiary in a lump sum. If the participant dies before payment of the account begins, and if the beneficiary is the surviving spouse, the surviving spouse may elect to defer distribution until the participant would have reached the age of 70½. However, if the beneficiary is other than the surviving spouse, the beneficiary may defer distribution until five years following the anniversary of the participant's death.

Terminated participants, whose account value does not exceed \$1,000, will receive a lump-sum payment as soon as administratively feasible. Terminated participants may elect to withdraw any portion of their accounts at any time after they terminate, provided the minimum amount requested is at least \$5,000; or the total account balance if at that time is less than \$5,000.

An actively employed participant can begin drawing their employer matching contribution account along with their pre-tax, Roth, after-tax and rollover balances without penalty at age 59½. In service hardship distributions are allowed if certain criteria are met. A beneficiary may elect to rollover any eligible rollover distribution if it were made by a member, surviving spouse or alternate payee.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, amounts credited to the individual participant's accounts would become 100% vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Air Distribution Technologies, Inc.

Retirement Plan

(f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee and sub-custodian. The investment in the Master Trust represents the Plan's share of the Master Trust's net assets, which were valued at fair value. See Note 4, *Fair Value Measurements and Disclosures* for a discussion of fair value measurements.

Interest and dividend income is recorded when earned or on the ex-dividend date, respectively. Net appreciation (depreciation), including capital gain distributions, in the fair value of investments represents the realized and unrealized gains and losses on the investments. Purchases and sales are recorded on a trade-date basis.

As further described in Note 3, *Investments*, the Plan's share of the income (loss), net appreciation (depreciation) in fair value of investments and expenses of the Master Trust represents the Plan's allocation of these items from the Master Trust.

Separately Managed Stable Value Fund

Investment contracts held directly by a plan, or indirectly through participation in a master trust, are required to be reported at fair value. In addition, investment contracts should also report contract value which is the relevant measurement of net assets available for benefit payments for fully benefit responsive investment contracts. As required, the Statements of Net Assets Available for Benefits presents the Plan's interest in the fair value of the fully benefit-responsive investment contracts held by the Plan at December 31, 2013 and the Master Trust at December 31, 2012 with an adjustment to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. Contract value represents contributions made, plus earnings, less participant withdrawals, losses and administrative expenses. All earnings from the ADTI Stable Value Fund are reported in interest and dividends in the accompanying Statement of Changes in Net Assets Available for Benefits.

Air Distribution Technologies, Inc.

Retirement Plan

(f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued but unpaid interest was de minimus. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Concentrations, Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in the economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is possible that changes in the value of investment securities could occur in the near term and that such changes could affect the amounts reported in the Statements of Net Assets Available for Benefits. See Note 3, *Investments* for a listing of investments at fair value, which individually are greater than 5% of net assets held by the Plan or by the Master Trust.

Payment of Benefits

Benefit payments to participants are recorded when paid. As of December 31, 2013 and 2012 there were \$179,743 and \$20,432 in pending distributions, respectively.

Contributions

Participant contributions and related employer contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation.

Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

The Plan may pay for investment management fees, custodial fees, investment review fees, recordkeeping fees, trustee fees, eligible legal expenses and audit expenses as provided by the Plan Document. A fee of \$50 is charged to the participant for initiation and processing of a participant loan. A flat fee of \$500 is charged to the participant for external legal expense of review and qualification of a Domestic Relations Order. The Plan allows for a flat fee to be charged to each participant's account each month to cover certain plan administrative expenses. Expenses of \$525,549 were paid by the Plan for the year ended December 31, 2013. All other expenses of the Plan incurred during 2013 were paid by the Company and are excluded from these financial statements.

3. INVESTMENTS

The Retirement Committee adheres to the Air Distribution Technologies, Inc. Defined Contribution Retirement Plan Investment Policy (the "Investment Policy"), which is periodically reviewed and updated. All investments are managed in accordance with the applicable fund prospectus by which the investment managers have been given the authority to make individual investment decisions that are consistent with the Investment Policy. As stated in the Investment Policy, each participant is responsible for directing the investment of his/her account balance.

Investments held outside the Master Trust

During 2013, the Plan's investments in registered investment companies held (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$19,834,071.

Notes to Financial Statements

3. INVESTMENTS (CONTINUED)

The fair value of individual investments held outside the Master Trust that represent 5% or more of the Plan's net assets as of December 31, 2013 and 2012 are as follows:

	2013	2012
PIMCO Total Return Institutional	\$19,952,068	\$ 23,108,820

American Funds Fundamental Investors R6	8,910,002	8,585,405

* Held within the ADTI Stable Value Fund. No other individual investment within the separately managed fund exceeded 5%.

Separately Managed Stable Value Fund

The ADTI Stable Value Fund is a separately managed account for the benefit of members of the Plan. All assets of the ADTI Stable Value Fund are held in the name of the Plan for the exclusive use of Plan members. As permitted by the Plan's investment policy and investment management agreement, the Stable Value Fund may invest in wrap contracts issued by insurance companies selected by the investment manager. Wrap contracts guarantee the book value of the underlying portfolio of corporate bonds, government backed fixed income securities, asset backed securities, mortgage backed securities against depreciation due to interest rate fluctuation. Wrap contracts enables the Plan to execute participant directed transactions without regard to volatility from appreciation or depreciation in the day-to-day value of the underlying assets.

The effective yields on these contracts represent the crediting rate, less the "wrapper" fee paid to the insurance carrier. Wraps do not expire as assets are sold or mature; instead, the wrap remains intact and the maturity of the contract is open-ended. The underlying investments are valued at quoted redemption values on the last business day of the Plan's year-end. The fair value of the stable value fund equals the total of the fair value of the underlying assets plus the total wrap rebid value. Net assets are adjusted to contract value, which represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

The weighted average yield based on the interest rate credited to the fund based on the interest rate credited to participants was 2.20% for the year ended December 31, 2013. The weighted average yield of the fund based on the actual earnings of underlying assets in the fund was 1.75% for the year ended December 31, 2013. There were no valuation reserves recorded to adjust contract amounts during the plan years. Crediting rate resets were applied to specific investment contracts, as determined at the time of purchase and are generally reset quarterly. Crediting rates cannot be less than 0%. The reset values for security-backed investment rates were a function of contract value, market value, yield, and duration. General account investment rates were based on a pre-determined index rate of return plus a fixed-basis point spread.

Synthetic GICs, backed by underlying assets, provide for a guaranteed return on principal and accrue interest over a specified period of time (i.e., period of time before the crediting rate reset) through benefit-responsive wrapper contracts issued by a third party, assuming that the underlying assets meet the requirements of the GIC. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

3. INVESTMENTS (CONTINUED)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value for plan permitted transactions. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan; or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. There were no restrictions on employee directed trades applied in 2013. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Investments in Master Trust (Unaudited)

The Plan's investments in the Master Trust are presented at fair value, which is determined based on the fair value of the underlying investments of the Master Trust. Each participating plan's interest is represented by a record of proportionate dollar interest, as maintained by the recordkeeper and is based on investment direction by the participants. Use of the Master Trust permitted the commingling of the trust assets of a number of plans for investment and administrative purposes. At December 31, 2013 and 2012, the Plan's interest in net assets of the Master Trust, at fair value, was approximately 0% and 20.4%, respectively. Effective March 4, 2013, as further discussed in Note 1, *Description of the Plan*, the Master Trust was terminated.

Such interests are included in the accompanying Statements of Net Assets Available for Benefits. In compliance with the Department of Labor's reporting requirements, the net change in value from participation in the Master Trust is reported as a single line item in the accompanying Statement of Changes in Net Assets Available for Benefits.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Cash and cash equivalents: Cash and cash equivalents represent funds on deposit in a Charles Schwab Trust account. The fair value is determined by obtaining the deposit balance from Charles Schwab. Cash and cash equivalents are classified as Level 1 in the fair value hierarchy.

Registered investment companies (mutual funds): Prices of these funds are based on net asset value (“NAV”) calculated by the funds and are publicly reported on national exchanges. Although the prices are listed on national exchanges, exiting the investment is generally only accomplished through redemption with the fund itself. Thus, redemption with the fund is the principal market in which the Plan could exit the investments. The funds redeem shares at the NAV with few restrictions and redemption with the funds is within an active market. The Plan measures fair value of these investments using the daily NAV provided by the fund managers to Charles Schwab. These investments are classified as Level 1 in the fair value hierarchy.

Separately managed stable value fund: The ADTI Stable Value Fund and the Tomkins/Gates Stable Value Fund managed by Deutsche Bank consist of several different types of investments held in a separately managed account. The types of investments held within the account are short-term investments, traditional GICs, and synthetic GICs and the underlying portfolio of fixed income investments supporting the synthetic GICs.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

Short-term investments: Consist of 100% U.S. Treasury money market funds managed by Northern Trust and are valued at the NAV which is calculated at a unit price which attempts to maintain a \$1 unit price. The unit price is based on the fair value of the underlying investments, which in general are traded on an active market with observable inputs. Northern Trust determines the unit value. This investment is classified as Level 1 in the fair value hierarchy.

Traditional GICs: Traditional GICs were issued by insurance companies and were backed by the general account of the issuer. The Master Trust (and the Plan after the Master Trust termination) deposited a lump sum with the issuer and received a guaranteed interest rate over the life of the contract with a repayment of principal at maturity. Interest accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guaranteed that all qualified participant withdrawals would occur at contract value (principal plus accrued interest). GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date. The fair value of the GICs was calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. Traditional GICs were classified as Level 2 in the fair value hierarchy. The GIC held by the Plan matured on August 30, 2013 and contract value at time of termination was received by the Plan.

Synthetic GICs: A synthetic GIC is similar to a traditional GIC but has unbundled the insurance and investment components. A synthetic GIC is an investment contract issued by an insurance company or bank, and is constructed by combining a stable value insurance wrapper and a fixed income portfolio owned by the Plan (and previously the Master Trust). These assets underlying the wrapper contracts are maintained separate from the contract issuer's general assets, usually by a third party custodian. The wrapper contracts are obligated to provide an interest rate not less than zero. These contracts typically provide that realized and unrealized gains and losses on the underlying assets are not reflected immediately in the assets of the Plan (and previously the Master Trust), but rather are amortized, usually over the time to maturity or the duration of the underlying investments, through adjustments to the future interest crediting rate. The issuer guarantees that all qualified participant withdrawals will occur at contract value. At December 31, 2013, the synthetic GIC was comprised of a short-term investment fund, intermediate fixed income funds, and a short-term managed fixed income fund. At December 31, 2012, the synthetic GIC was comprised of a short-term investment fund, intermediate fixed income funds; asset backed, mortgage backed, government securities (mainly U.S. backed); corporate bonds and cash and cash equivalents.

Notes to Financial Statements

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES (CONTINUED)

The short-term investment fund is valued as described previously. The intermediate fixed income funds and short-term managed fixed income fund are valued at NAV, which is determined by the fund manager based on the fair value of the underlying investments. These funds generally stand ready to redeem at NAV on a daily basis. There are no unfunded commitments by the Company related to these funds and there are no significant restrictions on the ability to sell these investments. The asset backed, mortgage backed and government securities and corporate bonds were valued by Deutsche Bank generally with the assistance of a third-party pricing vendor utilizing pricing models that vary by asset class and incorporate available market data. Pricing models rely on observable standard market inputs such as benchmark yields, reported trades, broker/dealer quotes and matrix pricing. The fair value of synthetic GICs is determined using the market price of the underlying securities, as noted above, and the value of the investment contract (“wrapper”). Synthetic GICs are classified as Level 2 in the fair value hierarchy.

Wrapper contracts: There is no market in which the Plan (or previously the Master Trust) could exit the wrapper contracts associated with the GICs. Additionally, reliable quotes are not available from issuers. Therefore, Deutsche Bank estimates the fair value of the wrapper contracts using a pricing matrix that incorporates unobservable inputs such as internal estimates of the average pricing used by issuers at December 31, 2013 and 2012 (based on a replacement cost methodology). The wrapper contracts are classified as Level 3 in the fair value hierarchy. In determining the reasonableness of the methodology, the Retirement Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2013 and 2012, there were no transfers in or out of levels 1, 2, or 3.

5. INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 8, 2010 that the Plan was designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan Administrator and Company management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date, therefore no provision for income taxes has been included in the Plan's financial statements.

Air Distribution Technologies, Inc. Retirement Plan (f/k/a Tomkins Retirement & Savings Plan)

Notes to Financial Statements

5. INCOME TAX STATUS (CONTINUED)

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain investments are shares of a Schwab U.S. Treasury Money Fund. Charles Schwab is the trustee of the Plan. Certain Master Trust investments were, and Plan investments are, units of a short-term investment fund managed by Northern Trust. Northern Trust is the sub-custodian of the ADTI Stable Value Fund and was the sub-custodian of the Tomkins/Gates Stable Value Fund. The Plan also pays certain expenses for audit, recordkeeping, custodial and investment management services from plan assets. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (CONTINUED)

The following is a reconciliation of the Plan's net increase in net assets per the accompanying financial statements for the year ended December 31, 2013 to Form 5500:

Total increase in net assets available per the financial statements	\$ 15,848,485
Plus: 2013 Adjustment from fair value to contract value for fully benefit-responsive investment contracts held by the Plan	1,164,767
Less: 2012 Adjustment from fair value to contract value for fully benefit-responsive investment contracts held in the Master Trust	(2,694,856)
Less: Amounts allocated to withdrawing participants as of December 31, 2013	(179,743)
Plus: Amounts allocated to withdrawing participants as of December 31, 2012	20,432
Plan's increase in net assets available per the Form 5500 (unaudited)	\$ 14,159,085

Benefits are recorded when paid for in the accompanying financial statements as required by current authoritative guidance. The above reconciliation includes participant benefit payments that were authorized and approved for payment prior to year end but not paid as of year-end. These amounts are recorded as liabilities for Form 5500 purposes.

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments.

8. NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

For the year ended December 31, 2011 the Company remitted certain participant contributions to the trust later than required by DOL Regulation 2510.3-102. During 2013, the Company completed the Form 5330 filing with the IRS reporting the delinquent deposit of employee funds, and the subsequent deposit of lost investment earnings. See accompanying Schedule of Delinquent Participant Contributions for the year ended December 31, 2013.

9. SUBSEQUENT EVENTS

The Plan Administrator has evaluated subsequent events through August 27, 2014, which is the date the financial statements were available to be issued. No events or transactions discovered during this evaluation require recognition or disclosure in the financial statements, other than the event noted below.

Effective March 11, 2014, in anticipation of their exit from the stable value fund market, Deutsche Bank Trust Company Americas (“Deutsche Bank”) ceased to be the manager of the ADTI Stable Value Fund and the investment management agreement was terminated. The Retirement Committee appointed GSAM Stable Value, LLC (“GSAM”), a Goldman Sachs affiliate advisor, as the new manager for the ADTI Stable Value Fund. The underlying assets of the ADTI Stable Value Fund managed by Deutsche Bank were transferred in cash, or in-kind to similar duration term funds managed by GSAM.

Effective June 16, 2014, Air Distribution Technologies, Inc. was acquired by Johnson Controls Inc. As of the date of the financial statements, there was no impact to the Plan.
