NOTE 1 – DESCRIPTION OF PLAN

The Golden Bank National Association 401(k) Retirement Savings Plan (the Plan) is a defined contribution 401(k) profit sharing plan adopted by Golden Bank National Association (the Company) effective January 1, 1989, and was restated effective August 24, 2009 to conform to new tax laws and regulations. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Company.

Significant provisions of the Plan are summarized below. Participants should refer to the legal plan document for a more complete description of the Plan's provisions.

Eligibility – Employees of the Company are generally eligible to participate in the Plan after six months of entry service and attaining age 21 or older. Enrollment is on the first day of January, April, July and October after meeting the requirements.

Contributions – Participants may elect to make contributions as little as 1% and up to 100% of eligible compensation. However, each participant's annual contribution may not exceed federal law limits. Participants at least age 50 by the end of the year are allowed to make catch-up contributions. Participants may change their contributions semi-yearly or stop their elective deferral contributions at any time.

The Company's matching contribution is equal to 100% of each participant's elective deferral contributions up to a maximum of 5% of each participant's eligible compensation.

The Company may make a discretionary contribution as determined annually by the Company. The discretionary contributions are allocated pro rata to all eligible participants based upon the proportion of the participant's compensation to the total compensation of all eligible participants, but the amount that may be contributed for each participant shall not exceed the maximum amount allowed by law. To be eligible for such contributions, a participant must be an active participant at any time during the Plan year. There was no discretionary contribution made by the Company for 2013.

Rollovers from other qualified plans or traditional Individual Retirement Accounts (IRA) are allowed under certain circumstances.

Participant Accounts – Each participant's account is credited with their contributions, employer contributions, and an allocation of Plan earnings or losses. Participant accounts may also be charged with an allocation of certain administrative expenses. Investment income is allocated to participants daily based on the proportion that each participant's account balance bears to all participant account balances in each investment fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options – Participants elect to have their contributions allocated among various investment securities offered by the Plan. The Plan currently offers pooled separate accounts in mutual funds and a guaranteed investment contract as investment securities for participants. Participants may change their investment mix during the year and such changes are subject to the restrictions made by the Company.

Vesting – Participants are vested immediately in their elective deferral contributions and rollover contributions plus actual Plan earnings or losses thereon. Vesting in the employer contribution portion of their accounts plus actual Plan earnings or losses thereon is based on years of vesting service. Participants become 100% vested in the employer contributions after six years of credited services.

Payment of Benefits – At termination or retirement, if a participant's vested account is $5,000 or less, it will be paid in a single lump-sum. Federal law requires the Plan to automatically roll a participant's vested account to an IRA in a direct rollover if 1) the participant's vested account is more than $1,000, 2) the participant has not reached age 65, or 3) the participant does not elect to have his vested account paid in a single sum or rolled to another retirement plan or an IRA of his choice in a direct rollover. If the vested account is more than $5,000, written consent must be given before the distribution can be made. Hardship withdrawals may be made to satisfy immediate and heavy financial needs that participants may have. Participants age 59½ or older may also withdraw all or any part of their vested account as an in-service withdrawal.

Administrative Expenses – The Plan allows certain expenses directly related to operating the Plan to be paid from participant accounts in addition to specific fees charged directly to a participant's account in response to transactions requested. These fees could include investment management fees and per-use fees.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance remains in the Plan as a forfeiture. Forfeitures may be used to pay Plan expenses or reallocated to eligible participants as discretionary contributions. Forfeited non-vested accounts totaled $-0- and $3,773 at December 31, 2013 and 2012, respectively. During 2013, $4,000 of forfeitures were used to pay plan expenses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 3* for discussion of fair value measurements.

Net appreciation in fair value of investments includes realized gains and losses on investments sold during the year and unrealized appreciation of investments held at year-end. Purchases and sales of securities were recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Benefits Paid to Participants – Benefits are recorded when paid. There were no amounts allocated to participants who have elected to withdraw from the Plan as of December 31, 2013 that have not yet been paid.

Administrative Expenses – Certain administrative expenses incurred by the Plan are paid by the Company at its discretion, and any plan expenses not paid by the Company are paid by the Plan. Investment management fees and other expenses that apply to specific investments are expenses related to the operation of the Plan and are adjustments to the investment rate that is credited to that specific investment.

Recent Accounting Pronouncements – The Company has evaluated recent accounting pronouncements and their adoption has not had or is not expected to have a material impact on the Plan's net assets available for benefits.

Reclassifications – Certain reclassifications have been made to the 2012 financial statement to conform to the 2013 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Subsequent Events – The Plan has evaluated subsequent events through September 18, 2014, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled Separate Accounts – Valued at the net asset value (NAV) of units of a pooled separate account. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. The practical expedient is not used when it is determined to be probable that the account will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily.

Guaranteed Investment Contract – The guaranteed investment contract represents unallocated group annuity contracts with Principal Life Insurance Company to provide a fixed rate of return. Due to the nature of these contracts, guaranteed investment contracts do not have specific underlying assets assigned. These accounts are non-benefit-responsive and are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Certain unobservable inputs are assessed through review of the contract terms while others are substantiated utilizing available market data.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE 4 – INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, *Note 5*, the supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year), and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2013. The Company has instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by the custodian, except for comparing such information certified by the custodian with information included in the Plan's financial statements and supplemental schedule.

NOTE 5 – INVESTMENTS (UNAUDITED)

At December 31, 2013 and 2012, all investments of the Plan were participant-directed. The following presents investments that represent 5% or more of the Plan's net assets at December 31 at fair value:

	2013	2012
Prin Bond and Mortgage Sep Acct*	**$ 996,474**	$ 2,351,368
Prin LargeCap Blend II Separate Account*	**496,405**	370,072

Prin MidCap Blend Separate Account*	**689,209**	442,241
Prin MidCap Value I Separate Account*	**431,097**	707,184
Prin Money Market Sep Acct*	**893,009**	**
Prin SmCap Blend Separate Account*	**434,545**	**

* Indicates a party-in-interest.
** Represents less than 5% of the Plan's net assets as of December 31

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $1,349,093.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain plan investments are units of pooled separate accounts managed by the custodian and, therefore, these transactions qualify as party-in-interest transactions. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibited transaction rules under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than direct payment. The Company pays directly any other fees related to the Plan's operations.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account balance.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net asset available for benefits.

NOTE 9 – TAX STATUS

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement (CODA) sponsored by Principal Financial Group, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the volume submitter plan was designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Company believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
