NOTE 1 - PLAN DESCRIPTION

The following brief description of the Scott-McRae Automotive Group, LLLP 401(k) Profit Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information:

General: The Plan is a defined contribution plan covering all eligible employees of Scott-McRae Automotive Group, LLLP (the Company) who have completed six months of service and have reached age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants must contribute at least 1% of pretax annual compensation, as defined in the Plan, and may contribute up to the amount allowed by law. The Company match and profit sharing contribution are both discretionary. During 2012, the Company match was 10% of the employee deferral up to a maximum of $250. During 2013, the Company match was 100% of salary deferral up to 1% plus 50% of salary deferral up to the next 5% of compensation. To be eligible for the employer discretionary profit sharing contribution, participants must be employed on the last day of plan year. The discretionary profit sharing contribution in 2013 and 2012 was $6,692 and $887,187, respectively. Beginning January 1, 2013 the Plan allows for automatic enrollment of employees as they become eligible to participate in the Plan. The automatic deferral rate is 3% and is accompanied by a 1% annual auto-escalation up to 6%.

Investment Options: Participants may direct contributions into various investment options and may change their investment options daily.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in their voluntary, rollover and employer match contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service. A participant is 20% vested after two years of credited service and 100% vested after six years of credited service.

Participant Accounts: Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings and (c) is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant contributions, earnings or account balances, as applicable. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits: Upon termination of service, participants may elect to receive a lump-sum distribution or a direct rollover amount equal to the value of his or her vested interest in their account.

Forfeitures: The non-vested portion of terminated participants accounts plus earnings thereon are forfeited and can be used by the Plan to pay expenses or reduce the amount of future employer contributions to the Plan. At December 31, 2013 and 2012, forfeited accounts totaled $257,844 and $158,244, respectively, which is available to reduce future employer contributions to the Plan or to pay future Plan expenses. During 2013 and 2012, $0 and $3,478 of forfeitures were used to reduce the employer match and $1,939 and $3,396, respectively, were used to pay plan expenses.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

NOTE 1 - PLAN DESCRIPTION (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and the Plan's record keeping and Massachusetts Mutual Life Insurance Company (MassMutual) fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 3 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by MassMutual and State Street Bank and Trust Company. This information has not been audited by independent accountants.

The following presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits.

During 2013, the Plan's investments in mutual funds (including investments bought, sold and held during the year) appreciated in value by $2,828,727.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

(Continued)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Mutual funds: The fair values of mutual fund and common stock investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Investment contract: Investments in the Plan's Guaranteed Return Account contract are reported at contract value, which approximates fair value. The contract value equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals. As these investments are contract-based, they are not transferable and observable prices for identical or similar investments do not exist. Accordingly, these investments are valued using unobservable inputs (Level 3). Plan management evaluates the terms of the Guaranteed Return Account contract held by the Plan, the fair value information as of the Plan's financial statement dates provided to the Plan by MassMutual applicable to this contract, and the creditworthiness of MassMutual in assessing the fair values of the contract on an annual basis for financial reporting purposes. Based upon MassMutual's recent credit ratings, Plan management has determined that no adjustment to contract value is required related to the credit quality of the issuer of this contract.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

	Fair Value Measurements at December 31, 2013 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Medium growth	1,062,650	-	-
Medium value	500,444	-	-
Guaranteed Investment Contract	-	-	5,002,993

The table below presents a reconciliation of Plan investments measured at fair value on a recurring basis using significant unobservable inputs (level 3) for the year ended December 31, 2013, including the reporting classifications for the applicable gains and losses included in the statement of changes in net assets available for benefits:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Investment Contract
Beginning balance, January 1, 2013	$ 5,002,993
Interest income	168,627
Purchases	1,866,800
Sales	(566,340)
Ending balance, December 31, 2013	$ 6,472,080

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds a direct interest in such a contract through its investment in a contract with an insurance company. No adjustment from fair value to contract value are presented in the statement of net assets available for benefits, as the contract value has been determined to be the most reasonable estimate of fair value.

NOTE 5 - PARTY-IN-INTEREST TRANSACTION AND INVESTMENTS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds a benefit responsive guaranteed investment contract (SAGIC) with MassMutual and therefore, these transactions and the Plan's payment of fees, record keeping fees and investment management fees to MassMutual qualify as party-in-interest transactions. There were no parties-in-interest transactions or payment of fees to State Street Bank and Trust Company and therefore they are not identified as a party-in-interest. Notes receivable from participants also reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan holds a fully benefit-responsive investment contract with MassMutual (the "Issuer"). MassMutual maintains the contributions in the MassMutual Separate Account P3 and guarantees a stated rate of return which insulates participants' accounts from daily fluctuations in the market. There is a guarantee of the contract by the general account assets of the insurance company. The Separate Account P3 is credited with participant deposits into the contract and earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the Issuer or otherwise.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contracts. Examples of circumstances which would allow the Issuer to terminate the contract includes the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. At December 31, 2013, management did not believe that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value was probable.

The crediting interest rate of the contract is based on an agreed-upon formula with the Issuer, as defined in the contract agreement, but cannot be less than 0.0%. Such interest rates are reviewed on a quarterly basis for resetting. The key factors that influence future interest crediting rates could include the following: the level of market interest rates; the amount and timing of participant contributions, transfers and withdrawals into/out of the contract; and the duration of the underlying investments backing the contract. The resulting gain or loss in the fair value of the investment contract relative to its contract value, if material, is reflected in the statement of net assets available for benefits as "adjustment from fair value to contract value for fully benefit-responsive investment contract." No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

[2] Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the contract investment on the same date.

NOTE 7- TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated July 8, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 9 - PLAN AMENDMENTS

The Plan was amended effective January 1, 2013. The amendments changed the plan into a safe harbor plan, increased the employer match to 100% of the employee deferral up to 1% of compensation plus 50% of employee deferrals for the next 5% of compensation, changed eligibility to a six month period and plan entry dates changed to quarterly and instituted automatic enrollment for newly eligible employees.

NOTE 10 - SUBSEQUENT EVENTS

The Plan was amended effective January 1, 2014. The amendment modified the vesting schedule so that employees are 100% vested in profit sharing contribution immediately.

Plan management has evaluated subsequent events for recognition and disclosure through September 17, 2014, which is the date the financial statements were available to be issued.
