Kyklos Bearing International, LLC Personal Savings Plan for Hourly-Rate Employees

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description

The following description of Kyklos Bearing International, LLC Personal Savings Plan for Hourly-Rate Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all hourly-rate employees of Kyklos Bearing International, LLC (the "Company") who have at least 90 days of service who are not members of a collective bargaining agreement, unless the collective bargaining agreement states the Plan is applicable to such employees, or a leased employee. The collective bargaining agreement states the Plan is applicable for The International Union, United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) Local 913. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for eligible employee wage deferral contributions up to a maximum of 60 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Roth, after-tax, catch-up, and employee rollover contributions are also permitted. The Plan allows automatic deferrals of 3 percent of compensation for all employees that become eligible for participation in the Plan.

If an eligible employee has had at least 180 days of service, the Plan provides for employer matching contributions of 30 percent of the participant's deferral up to 7 percent of compensation. Catch-up contributions are not eligible for matching contributions.

A participant who is accruing benefits or is being credited with additional years of credited service in the Delphi Hourly-Rate Employees' Pension Plan or the General Motors Hourly-Rate Employees' Pension Plan is not eligible for Company matching contributions.

Effective June 1, 2013, the Company began making non-elective contributions on behalf of each participant with at least 90 days of service equal to 3 percent of the participant's compensation. For 2013, the non-elective contribution was calculated on compensation for the period beginning June 1, 2013 and ended December 31, 2013. Beginning with the plan year commencing January 1, 2014, the non-elective contribution will be calculated on compensation earned during the plan year.

Kyklos Bearing International, LLC Personal Savings Plan for Hourly-Rate Employees

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Master Trust Investment Options and Participation - Participant contributions and Company contributions are invested in accordance with the participant's election in one or more investments, which are held in the Kyklos Bearing International, LLC Master Trust (the "Master Trust") (see Note 3).

Participant Notes Receivable - Participants may borrow from their vested accounts, excluding the employer non-elective contribution account, a minimum of \$1,000 up to a maximum equal to \$50,000 or 50 percent of their vested account balance, whichever is less. The notes receivable are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined periodically by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. Withdrawals may also be made when a participant attains age 59½. A participant may withdraw the value of their after-tax account or rollover account at any time for any reason.

Hardship Withdrawals - Participants may request that a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The withdrawal can only be made from the before-tax contributions and Roth 401(k) contributions, and cannot include earnings accrued on such accounts.

Vesting - Participants are immediately 100 percent vested in their voluntary contributions, rollover contributions, the Company's nonelective contributions, and any income or loss thereon. Vesting in the Company's matching contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in matching contributions made by the Company after three years of service.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or pay plan administrative expenses.

Kyklos Bearing International, LLC Personal Savings Plan for Hourly-Rate Employees

Notes to Financial Statements December 31, 2013 and 2012

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain Master Trust investments are investments managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Additionally, the Company pays certain administrative expenses of the Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses (see Note 3).

Investments held by the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Kyklos Bearing International, LLC Personal Savings Plan for Hourly-Rate Employees

Notes to Financial Statements December 31, 2013 and 2012

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 18, 2014, which is the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and one other Company-sponsored plan. Each participating plan's interest in the Master Trust is based on account balances of the participants and their elected investment options. The assets of the Master Trust are held by Fidelity Management Trust Company (the "Trustee"). At December 31, 2013 and 2012, the Plan's interest in the net assets of the Master Trust was approximately 53 percent and 51 percent, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

A summary of the net assets of the Master Trust as of December 31, 2013 and 2012 is as follows:

	2013	2012
Master Trust investments - At fair value:		
Mutual funds	\$ 33,262,995	\$ 27,582,231

Total Master Trust investments - At fair value	40,698,712	34,717,794

Total Master Trust net assets	<u>\$ 40,586,633</u>	<u>\$ 34,513,593</u>

The investment income for the Master Trust for the year ended December 31, 2013 is as follows:

Notes to Financial Statements December 31, 2013 and 2012

Note 4 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all investment transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements, including Master Trust information included in Note 3, are based solely on information provided by the Trustee.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan generally is no longer subject to tax examinations for years prior to 2010.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 6 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund primarily holds fixed-income securities and derivatives. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The Plan holds the Fidelity Managed Income Portfolio, a stable value fund. The fund has certain limitations on withdrawals and exchanges as follows: withdrawals made in order to accommodate distributions to participants or transfers to noncompeting investments may be made on any business day. Transferred amounts must be held in a noncompeting investment option for 90 days before subsequent transfers to a competing fund can occur.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
