LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

1. Description of Plan

The following description of the LiquidHub, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of LiquidHub, Inc. (the “Company”). The Plan was amended and restated effective January 1, 2012. Eligible employees include those that are employed by the Company and excludes any collective bargaining employees, non-resident aliens, independent contractors and specific project workers and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Contributions

Participants may contribute the lesser of 100% of annual pretax compensation, as defined in the Plan, or the 401(k) contribution limit as prescribed by the Internal Revenue Service (\$17,500 in 2013). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to the Internal Revenue Code defined maximum (\$5,500 in 2013). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Any participant who did not make an affirmative election to the contrary shall be deemed to have elected participation in the Plan’s automatic deferral provision under which each eligible employee who has not made an elective deferral shall be deemed to have elected to make a deferral of 4% of compensation, as defined by the Plan.

The Company may make discretionary matching, profit sharing, qualified nonelective and safe harbor contributions, as defined in the plan agreement. No matching, profit sharing, qualified nonelective or safe harbor contributions were made for the year ended December 31, 2013.

Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common/collective trust funds and a group annuity contract as investment options for participants.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and related Company matching contributions and allocations of a) all other Company contributions and b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Company contributions vest as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years of service	None
2 years but less than 3 years of service	50%
3 or more years of service	100%

LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Notes Receivable from Participants

Effective January 1, 2012, participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment period may not exceed five years. The loans are secured by the assignment of fifty percent (50%) of the borrower's vested account and bear interest at the prevailing prime rate plus 1%, unless determined otherwise by the plan administrator at the date of the loan. Repayment of loans must be made with level payments payable at least quarterly. The maximum number of loans a participant may have outstanding at any time is two. Interest rates on participant loans were 4.25% at December 31, 2013. Certain fees, as defined, are charged for each loan made and while the loan is outstanding.

Payment of Benefits

Benefit payments are permitted in the event of death, permanent disability, termination of employment, a proven hardship, retirement or attainment of age 59 ½ while still employed. Upon becoming eligible for distributions, a participant with a plan account value of \$1,000 or less will receive a lump-sum distribution. A participant eligible for distributions with an account value greater than \$1,000, upon written request, will generally receive their vested benefit in a single lump-sum payment unless otherwise elected as allowed by the plan provisions.

Forfeitures

Forfeitures may be used first to restore account balances where restoration contributions are required, pay administrative expenses or reduce employer contributions.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management who is responsible for their integrity and objectivity. These accounting policies have been consistently applied in the preparation of the financial statements.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of plan income and expenses during the period. Accordingly, actual results may differ from those estimates.

LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses of the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 12, 2014, the date these financial statements were available for issuance.

3. Investments

The following investments represent 5% or more of the fair value of the Plan's net assets at December 31, 2013 and 2012:

	2013	2012
Mutual funds		
Delaware Select Growth A Fund	\$ 1,004,961	\$ 780,184
Invesco Intl Growth Y Fund	1,766,781	1,473,132

* Investment does not represent 5% or more of the Plan's net assets.

During 2013, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$2,670,726 as follows:

Mutual funds	\$ 2,442,918
Common/collective trusts	227,808
	<u>\$ 2,670,726</u>

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company ("Principal Trust Company"), the Plan's trustee, has certified that the following information as of December 31, 2013 and 2012, and for the year ended December 31, 2013, included in the accompanying financial statements, is complete and accurate:

- Investments, notes receivable from participants, and adjustment from fair value to contract value for fully benefit-responsive investment contracts, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Investment activity and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.

Additionally, Principal Trust Company certified that the information on the Schedule of Assets (Held at End of Year) at December 31, 2013 is complete and accurate.

5. Fair Value Measurements

Generally accepted accounting principles have established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Shares of mutual funds are valued at quoted market prices, which represent the net asset values of shares held by the Plan at year-end.

LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

- Common/collective trusts are collective investment trust accounts that invest in a collective trust as well as a variety of separate accounts and mutual funds. The fair value of all the underlying investments is used in determining the net asset value of the collective investment trust, which is not publicly quoted.
- At December 31, 2013 and 2012, investments in the group annuity contract are valued, as reported to the Plan by Principal Trust Company, at contract value. At December 31, 2013 fair value is considered equal to contract value and represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. At December 31, 2012, fair value is considered to equal 95% of contract value (one minus 5% withdrawal charge).

Aside from the change in valuation related to the group annuity contract, there have been no changes in methodologies as of December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Level 1	Level 2	Level 3	Total

The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	<u>\$ 72,155</u>

6. Group Annuity Contract

At December 31, 2013 and 2012, the Plan maintained a benefit-responsive group annuity contract with Principal Life Insurance Company ("Principal"). Contributions are maintained in a general account. The account is credited with interest based on declared interest crediting rates for a specified guarantee period and charged for participant withdrawals and administrative expenses. The group annuity contract issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan.

Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the group annuity contract. The group annuity contract is presented on the Statements of Net Assets Available for Benefits at fair value with an adjustment from fair value to contract value, as applicable. Fair value equates contract value as of December 31, 2013.

LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. The crediting interest rate will never be less than the guaranteed minimum interest rate which cannot be less than 1% or greater than 3%. The guaranteed minimum interest rate is equal to the latest 12 month average of the 5 year constant treasury rate less 1.25%. Interest rates are reviewed on a semi-annual basis for resetting.

The average interest rates credited to participants for the guaranteed investment contract was as follows:

Principal Group Annuity Contract

December 1, 2013 - May 31, 2014	1.75%
June 1, 2013 - November 30, 2013	1.75%
December 1, 2012 - May 31, 2013	1.85%
June 1, 2012 - November 30, 2012	2.15%
December 31, 2011 - May 31, 2012	2.40%

Prudential Group Annuity Contract

January 1, 2012 - February 21, 2012	2.10%
-------------------------------------	-------

The average yield earned and the average rate credited to participants under the group annuity contract, based on the fair value of the contract, was approximately 2.02% and 1.92% for 2013 and 2012, respectively.

Under the contract, generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 3 business days, or in the event that market conditions are such that they will not allow for an orderly transfer of sale of financial instruments, up to an additional 30 business days. As of December 31, 2013 and 2012 the plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The Principal group annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

7. Refund of Excess Contributions

During the year ended December 31, 2013, no excess contributions were made. During the year ended December 31, 2012, it was determined that excess contributions were made by a number of plan participants. For the year ended December 31, 2012, \$2,966 was refunded in March 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

LiquidHub, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Years Ended December 31, 2013 and 2012

9. Party-In-Interest Transactions

At December 31, 2013 and 2012, the Plan invested in shares of certain mutual funds, common/collective trust funds and a group annuity contract which are managed by Principal Trust Company, the trustee. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

10. Tax Status

The Plan is a volume submitter profit sharing plan from MandMarblestone PC. An opinion letter was obtained on the volume submitter plan dated March 31, 2008, stating that the form of the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). Generally, the plan administrator and the Plan may rely on the opinion letter received as to the form of the Plan qualifying under the Code. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The plan administration has analyzed the tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The plan administrator believes that it is no longer subject to income tax examinations for years prior to 2010.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the amounts presented in Schedule H of the Plan's Form 5500:

	December 31,	
	2013	2012
