BARGAINED 401(K) PLAN

Notes to Financial Statements

December 31, 2013 and 2012

1. **Description of Plan**

The following description of the TECT-Utica Bargained 401(K) Plan, (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan established to cover all collective bargaining employees of TECT-Utica Corporation (the "Company") covering all full time employees of the Company. The Investment Committee controls and manages the operation and administration of the Plan. Bank of America, N.A. serves as the trustee of the Plan ("Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participation – All employees of the Company whose employment is covered by a collective bargaining agreement and who have completed one year of service in which they have been credited with at least 750 hours of service are eligible for participation in the Plan.

Contributions – Each year, participants may contribute compensation, as defined in the plan document. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company will make a non-discretionary matching contribution to all eligible employees equal to fifty percent of compensation that a participant contributes to the Plan of up to a maximum of 0.5% of each participant's compensation. The Company will also contribute $0.45 per hour worked. Additional contributions by the Company may be made. Employer contributions benefit all eligible employees who are employed during the plan year.

Investment Options – Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds and a common collective trust fund as investment options for participants.

Participant Accounts – Each participant's account is credited with the participant's contribution, allocations of the Company's contributions, and plan earnings, and charged with benefit payments, transaction fees, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes Receivable from Participants – Participants may borrow from their fund accounts the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2013, outstanding loans bore interest rates ranging from 4.25% to 8.25%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits – On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Amounts contributed on a before-tax basis may only be withdrawn upon demonstration of financial hardship or after the participants reach the age of 59.5 years.

Forfeitures – At December 31, 2013 and 2012 forfeited non-vested accounts totaled $110 and $4,050, respectively. These accounts will be used to reduce employer contributions and then pay administrative expenses. During 2013, forfeitures of $4,268 were used to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts, changes therein and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, investments held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive common collective

trusts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the common collective trusts as well as the adjustment to the fully benefit-responsive common collective trust from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis (see Note 6).

Purchase and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded upon distribution.

Administrative Expenses – The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events – The Plan has evaluated subsequent events through September 15, 2014, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent more than 5% or more of the Plan's net assets at December 31:

	2013	2012
Investments at fair value:		
JP Morgan Large Cap Growth Fund	$ 1,344,662	$ 1,046,505
Dreyfus Premier Technology Growth Fund	324,358	236,140

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common collective trust fund	$ 5,866
Mutual funds	817,171
	$ 823,037

4. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1 Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Level 2 investment securities include a common collective trust fund for which quoted prices are not available in active markets for identical instruments. The Plan utilizes a third party pricing service to determine the fair value of each of these investment securities. Because quoted prices in active markets for identical assets are not available, these prices are determined using observable market information such as quotes from less active markets and/or quoted prices of securities with similar characteristics.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value on a recurring basis as of December 31, 2013 and 2012:

	Assets at Fair Value as of December 31, 2013			
	Level 1	**Level 2**	**Level 3**	**Fair Value**
Mutual funds:				
Bond funds	$ 841,588	$ -	$ -	$ 841,588
Value funds	390,799	-	-	390,799
Growth funds	2,219,443	-	-	2,219,443
Blended funds	215,115	-	-	215,115
Other funds	909,443	-	-	909,443
Total mutual funds	4,576,388	-	-	4,576,388
Common collective trust	-	422,284	-	422,284
Total assets	$ 4,576,388	$ 422,284	$ -	$ 4,998,672

	Assets at Fair Value as of December 31, 2012			
	Level 1	**Level 2**	**Level 3**	**Fair Value**
Mutual funds:				
Bond funds	$ 596,302	$ -	$ -	$ 596,302
Value funds	323,904	-	-	323,904
Growth funds	1,672,792	-	-	1,672,792
Blended funds	158,765	-	-	158,765

Total mutual funds	3,734,749	-	-	3,734,749

Total assets	$ 3,734,749	$ 518,617	$ -	$ 4,253,366

The Plan recognizes transfers between the levels as of the beginning of the reporting period. There were no gross transfers between the levels for the years ended December 31, 2013 and 2012.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Unaudited Information Certified by Trustee

The accompanying financial statements include the following unaudited information as of December 31, 2013 and 2012 and for the year ended December 31, 2013 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2013	2012
Cash and investments*	$ 4,995,499	$ 4,238,750
Notes receivable from participants	$ 273,400	$ 255,183
Net appreciation in fair value of investments	$ 823,037	
Interest and dividends	$ 198,577	
Interest income from notes receivable from participants	$ 9,262	

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

* All investments are certified at fair value with the exception of the common collective trust, which is certified at contract value.

6. Common Collective Trust Fund

The Common Collective Trust Fund (the "Fund") is a stable value fund sponsored by Wells Fargo Bank, N.A. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund's latest Net Asset Value ("NAV"). Distribution to the Fund's unit holders is declared daily from the net investment income and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable net asset value; although there is no guarantee that the Fund will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value is not probable.

Restrictions on the Plan – Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to non-competing funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the plan sponsor. The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund.
- Any transfer of assets from the Fund directly into a competing investment option.
- Complete or partial termination of the Plan or its merger with another plan.

Circumstances that Impact the Fund – The Fund invests all of its assets in the Wells Fargo Stable Return Fund G, which typically invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. There are several risks specific to investment contracts. One of the primary risks involved is credit risk of the contact issuer. Credit risk for security-backed contracts includes risks arising from the potential inability of the issuer to meet the terms of the contract wrapper and the potential default of the underlying fixed-income securities. Secondly, liquidity is limited because of the unique characteristics of investment contracts and the absence of an actively traded secondary market. Interest risk is also present because rates may be fixed with the products.

7. Exempt Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by Merrill Lynch Bank and Trust Co., FSB (“Merrill Lynch”). Merrill Lynch is a wholly owned subsidiary of the Trustee as defined by the Plan, and therefore these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for transaction services were $1,775 for the year ended December 31, 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

9. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the trustee by a letter dated March 31, 2008 that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

11. Reconciliation of Financial Statements to Form 5500
