NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of International Imaging Materials, Inc. Retirement and Investment Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by International Imaging Materials, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Administrative Committee is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Eligibility:

Employees of the Company who have at least ninety days of eligible service, as defined, are eligible to participate in the Plan.

Contributions:

Each year participants may contribute to the Plan any whole percentage up to 99% of their eligible compensation, as defined. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 6% of their eligible compensation and their balance is invested in a designated balanced fund until changed by the participant. Prior to September 1, 2013, eligible employees were automatically enrolled in the Plan at a contribution rate of 3%. Participant deferral percentages automatically increase to 6% of eligible compensation for all eligible employees who, as of August 1, 2013, were deferring less than 6% prior to the automatic increase, unless otherwise directed by the participant. Participants who are fifty years and older may make additional contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover).

The Company makes matching contributions equal to 100% of the first 6% of eligible compensation that a participant contributes to the Plan for those participants that have at least one year of service. The Company may also make additional discretionary contributions for participants that have at least one year of service. No additional discretionary contributions were made in 2013.

Contributions are subject to certain limitations of the Internal Revenue Code (the Code). Participants direct the investment of contributions into various investment options offered by the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with the participant, Company contributions, an allocation of Plan earnings, reduced for benefits paid, and charged for loan origination and recordkeeping fees, if applicable, and an allocation of other administrative expenses. Allocation of Plan earnings and other administrative expenses are based on participant account balances, as defined in the Plan document. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions and earnings thereon vest ratably over five years of service or immediately in the event of a participant's death or total and permanent disability while employed by the Company.

Forfeitures:

At December 30, 2013 and 2012, forfeited nonvested accounts totaled $16,997 and $24,496, respectively. Forfeitures of nonvested Company contributions are used to pay administrative expenses of the Plan or to reduce the Company's contributions. During 2013, forfeitures of $14,023 and $25,968 were used to pay administrative expenses and reduced Company contributions, respectively.

Payment of benefits:

A participant receives a lump-sum amount equal to the vested value of his or her account upon normal retirement age of sixty-five, or upon death, disability, or other termination of employment. Early withdrawals are permitted in the event of hardship.

Notes receivable from participants:

Participants may borrow from their account a minimum of $1,000 up to a maximum loan equal to the lesser of $50,000 or 50% of their vested account. A participant may not have more than one loan outstanding at any given time. The loans are secured by the balance in the participant's account. Loans bear interest at the prime rate plus 1% and are payable over a maximum term of five years. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. The Plan also pays for certain recordkeeping and investment advisory fees. Other investment related expenses related to fund management are included as an offset of net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the plan.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements have been prepared on the accrual basis of accounting.

Investment valuation and income recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by Prudential Bank and Trust, F.S.B. (Prudential Bank) and Prudential Retirement Insurance and Annuity Company (Prudential Insurance). See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Evergreen group annuity contract:

The Plan's investment in the evergreen group annuity contract with Prudential Insurance is a fully benefit-responsive investment contract and is, therefore, carried at contract value, which equals fair value. Prudential Insurance maintains the contributions in the Prudential Guaranteed Income Fund, a general account fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Prudential Insurance is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies

Evergreen group annuity contract (continued):

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Prudential Insurance determines the crediting interest rate semi-annually by considering many factors, including economic and market conditions, the general interest rate environment and the expected and actual return on the portfolio within the general account. The crediting interest rate may not be less than 1.5%. The average yield earned by the evergreen annuity contract based on actual earnings and based on the interest rate credited to participants was 2.2% for the year ended December 30, 2013.

Generally there are no events that limit the ability of the Plan to transact at contract value with the issuer.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit loss has been recorded as of December 30, 2013 or 2012. If a participant ceases to make loan repayments and the Administrative Committee deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the Code are recorded as a liability with a corresponding reduction to contributions. There were no excess contributions required to be distributed by the Plan for the years ended December 30, 2013 and 2012, respectively.

Benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through September 17, 2014, which is the date the financial statements were available to be issued.

Prudential Insurance and Prudential Bank have also certified to the completeness and accuracy of the following financial information for the year ended December 30, 2013:

Information certified by Prudential Insurance:

Dividends	178,499
Interest income on notes receivable from participants	43,104

	$ 6,741,601

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used by the Plan for assets measured at fair value. There have been no changes in the methodologies used at December 30, 2013 and 2012.

Evergreen group annuity contract: Valued at the contracted amount the Plan is entitled to receive from Prudential Insurance while considering the credit worthiness of Prudential Insurance. Since the crediting interest rate is adjusted semi-annually based on current economic conditions and the general interest rate environment, fair value of the evergreen group annuity contract equals contract value. In determining the reasonableness of the methodology, the Administrative Committee evaluates a variety of factors including review of the existing contract, economic conditions, industry and market developments, and overall credit ratings of the issuer. The significant unobservable input would be a discount for the credit worthiness of Prudential Insurance, however, the Plan did not discount the value of the evergreen group annuity contract for the credit worthiness of Prudential Insurance.

Pooled separate accounts: Valued at the NAV of units of the pooled separate account (PSA). The NAV is determined by dividing the net assets, at fair value, of the PSA by the number of units outstanding on the day of valuation. PSA's are comprised primarily of shares of registered investment companies held through sub-accounts of a separate account of Prudential Insurance. The Plan has concluded that the NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by Prudential Insurance, is used as a practical expedient to estimate fair value. The investments are redeemable daily at NAV under agreements with Prudential. However, it is possible that the redemption rights may be restricted or eliminated in the future.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements (Continued)

The Plan's investments in pooled separate accounts have a daily redemption frequency, require a sixty to ninety day notice period and have no unfunded commitments at December 30, 2013 and 2012.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 30, 2013:

	Evergreen group annuity contract
Balance, beginning of year	$ 9,717,741
Interest credited	178,562
Purchases	3,837,809
Sales	(4,512,389)
Balance, end of year	$ 9,221,723

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Noted 6. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 30, 2010, that the Plan is qualified and the trust established under the Plan is tax-exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter, however, the Administrative Committee believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 30, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for tax years prior to 2009.

NOTES TO FINANCIAL STATEMENTS

Note 7. Party-In-Interest Transactions

A Party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others. The Plan allows participants to take loans from their accounts in the Plan. Certain notes receivable from participants and income thereon qualify as party-in-interest transactions.

Certain Plan investments are managed by Prudential Insurance. Prudential Insurance is the custodian as defined by the Plan and, therefore, transactions with Prudential Insurance qualify as party-in-interest transactions. Fees paid by the Plan to Prudential Insurance for administrative services amounted to $8,893 for the year ended December 30, 2013.

The Plan's investment advisor is UBS Financial Services Inc (UBS) and, therefore, transactions with UBS qualify as party-in-interest transactions. Fees paid by the Plan to UBS for investment advisory services amounted to $30,000 for the year ended December 30, 2013.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
