NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

1 Description of Plan

The following description of the Third Federal Savings Retirement Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined benefit pension plan covering all eligible employees of Third Federal Savings and Loan Association of Cleveland and affiliated companies (the "Company"). Effective January 1, 2013 the Plan was amended and restated in its entirety to reflect the amendments adopted since the January 1, 2008 restatement. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2012, associates who are eligible under the Plan will be eligible to receive a Tier III (Employer Discretionary) contribution under the Company's defined contribution plan. Participants should refer to the plan document of the Third Federal 401(k) Savings Plan for a full description of the Tier III contribution.

Eligibility:

All employees of the Company age twenty-one and older and who were employed for one year prior to December 31, 2002, are eligible to participate in the Plan.

Contributions:

The Company is required annually to contribute an amount to the Plan which is actuarially determined. The Company's contributions to the Plan for 2013 and 2012 met the minimum funding requirements of ERISA.

Pension Benefits:

The Plan provides for normal retirement benefits for the life of the participant, beginning the first day of the month after attaining age 65, with reduced benefits for retirement before this time but after the participant has reached age 55, provided the participant has at least five years of vesting service at the time of early retirement.

NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

1 Description of Plan, Continued

Pension Benefits, Continued:

Effective December 31, 2011, participants will not earn any additional pension benefit accruals under the Plan. The "frozen" pension benefit under the Plan is calculated as if the participant terminated employment on December 31, 2011, based on the participant's years of benefit service through December 31, 2011 and average annual compensation determined on that date. Participants will continue to earn vesting service for purposes of the Plan's vesting, early retirement and early commencement features and will be paid as provided by the Plan.

2 Summary of Significant Accounting Policies

Death Benefit:

The Plan provides a death benefit if a participant or a retired or former participant dies after becoming entitled to vested retirement benefits under the Plan and prior to their pension commencement date. The participant's surviving spouse, if any, is eligible for a pre-retirement surviving spouse benefit as provided by the Plan.

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service the employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

2 Summary of Significant Accounting Policies, Continued

Actuarial Present Value of Accumulated Plan Benefits, Continued:

Effective December 31, 2011, no further benefit accruals or death benefit payments will be paid, other than the pre-retirement surviving spouse benefit, for participants for any deaths occurring on or after March 22, 2012. The actuarial present value of accumulated plan benefits reflects this Plan requirement.

Benefits under the Plan are based on the employee's average annual compensation, as defined in the Plan. The accumulated Plan benefits for active employees are based on their average annual compensation on the date at which benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date. The average annual compensation is calculated as of December 31, 2011, and benefits will not increase as a result of service or compensation after that date.

Administrative Fees:

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition:

The Plan's investments are stated at estimated fair value. Units of pooled separate accounts are valued by the asset custodian at estimated fair value, as determined by the daily asset value, which represents the cumulative market values of the pooled separate accounts' underlying investments.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.

NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

2 Summary of Significant Accounting Policies, Continued

Plan Termination, Continued:

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Risks and Uncertainties:

The Plan's investments include investments in pooled separate accounts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for Plan benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through August 27, 2014, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

3 Tax Status

The Internal Revenue Service has determined and informed the Plan by letter dated June 3, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended and restated in its entirety since receiving the favorable determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Subsequent to year end, the Plan has applied for a new determination letter.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

4 Fair Value Measurements

As defined in FASB ASC 820, "Fair Value Measurements", fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

NOTES TO FINANCIAL STATEMENTS

Third Federal Savings Retirement Plan

4 Fair Value Measurements, Continued

- * Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts:

The fair value of the pooled separate accounts are based on the market value of the underlying investments, which represents the net asset value ("NAV") of shares held by the Plan at year end. The NAV is not a publicly quoted price in an active market, as such these investments fall into the Level 2 category of the valuation hierarchy.

Pooled separate accounts can be redeemed on a daily basis with no redemption restrictions. If the Plan were to initiate a full redemption of the pooled separate account, the investment adviser reserves the right to temporarily delay disbursements from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. As of December 31, 2013 and 2012, there are no unfunded commitments related to the Plan's investments.

The investment strategies for the Plan's investments are varied and include long term growth of capital and income, market capitalization, high level of current income consistent with preservation of principal and maintenance of liquidity. They may invest in a broad range of domestic and foreign equities, real estate investments and fixed income funds with the objective of matching or exceeding the total return of certain market indices.

5 Accumulated Plan Benefits

The actuarial present value of accumulated Plan benefits as of January 1, 2013, was determined by consulting actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment between the valuation date and the expected date of payment (by means of decrements for withdrawal due to death and termination of employment).

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The accumulated Plan benefit information as of the beginning of the Plan year:

	<u>January 1, 2013</u>
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 6,735,969
Other participants	<u>51,488,439</u>

Changes in accumulated Plan benefits from the previous valuation date are presented below:

Actuarial present value of accumulated Plan benefits at January 1, 2012	\$ 58,108,163

5 Accumulated Plan Benefits, Continued

Significant assumptions underlying the actuarial computations of accumulated Plan benefits include:

Valuations use IRS prescribed interest rates as provided within the Pension Protection Act (PPA). For 2013 and 2012, the rates are based on segment rates. The effective interest rates used for liabilities in the calculation of Annual Cost, AFTAP and 4010 Funding Shortfall were 6.45% (2013) and 7.16% (2012). The effective interest rates used for liabilities in the determination of the calculated IRC 404 Deduction, HCE Benefit Payment Restrictions, PBGC Variable Rate Premium and 4010 Funded Status were 5.02% (2013) and 5.77% (2012).

The change in benefits accumulated and other experience gains and losses is based on the actuary's expectation of retirees and deaths in the current valuation period.

Retirement age rates vary by age (average age is 65). Below are the retirement age rates as of December 31:

2013		2012	
<u>Age</u>	<u>Rate</u>	<u>Age</u>	<u>Rate</u>
55-59	2%	55-59	2%
60-64	10%	60	10%
65	75%	61	15%
66	50%	62	35%
67	100%	63	15%
		64	10%
		65	100%

The IRS Prescribed Mortality-Generational Non-annuitant (male and female) Table was used as of December 31, 2013 and 2012 for active participants. The IRS Prescribed Mortality-Generational Annuitant (male and female) Table was used for retirees. Inactive participants are assumed to retire at age 65.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
 THIRD FEDERAL SAVINGS RETIREMENT PLAN
 EIN 34-0573493 Plan No. 003

Methods Prescribed by Law	
Liability Measure	Funding target is the present value of the benefits accrued on the valuation date. Target Normal Cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Lump Sum Payments	Lump sum payments are valued using the plan's funding target interest rates as required per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions; therefore, plan liabilities do not currently recognize this additional cost. You may wish to consider additional contributions.
Methods Selected by Plan Sponsor	
Asset Method	<p>The asset valuation method is prescribed by law for plans that elect to use a value other than market value.</p> <p>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.</p> <p>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the Maximum Allowable Rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.</p> <p>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.</p>
Segment Rates	24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.
PBGC Premium Basis	Premiums are calculated using the funding segment rates used for the plan year without the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). This method was elected with the 01/01/2009 plan year and must continue for five years before a change can be made.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
 THIRD FEDERAL SAVINGS RETIREMENT PLAN
 EIN 34-0573493 Plan No. 003

Methods Elected by Actuary	
Retirees	Assets and liabilities for current and future retirees are included.
HCE Benefit Payment Restrictions	<p>A ratio of the market value of assets and funding target is used to determine if restrictions apply. Assets and Funding Target are as of the valuation date and are reduced by:</p> <ul style="list-style-type: none"> • any retiree benefit index or floor • amounts for HCEs who were previously restricted • an amount for the retiring HCE <p>The Funding Target is not based on the MAP-21 interest rate corridor defined in IRC §430(h)(2)(C)(iv). Other assumptions or methods may be used.</p>
Vested Benefits	<p>A benefit is included in vested benefits when the participant will meet age and service eligibility requirements at the valuation date. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.</p> <p>The following ancillary benefits are generally treated as nonvested: disability benefits payable to retirement age unless in pay status, and pre-retirement death benefits in excess of the Survivor Annuity Death Benefit except as noted in the Plan Provisions.</p> <p>For purposes of this valuation, all liability is considered fully vested.</p>
Assumptions and Methods Elected by Actuary Plan Accounting (ASC 960)	
With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular Funding Target and Target Normal Cost.	
Interest Rate Used to Value Liabilities	7.00%
Interest Rate Basis for Lump Sums	6.00%
