We were engaged to audit the accompanying financial statements of Chem-Plate Industries, Inc. 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits – modified cash basis for the years then ended, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in the notes to financial statements. This includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the financial information summarized in the notes to financial statements, which was certified by State Street Company and Trust ("State Street") and Minnesota Life Insurance Company ("Minnesota Life"), the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplementary information. We have been informed by the plan administrator that State Street held the Plan's investment assets and executed investment transactions for the year ended December 31, 2013, and for the period April 1, 2012 to December 31, 2012, and that Minnesota Life held the Plan's investment assets and executed investment transactions for the period January 1, 2012 to March 31, 2012. The plan administrator has obtained certifications from the trustees as of and for the years ended 2013 and 2012, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to the notes to financial statements, which describe the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statement as a whole. The supplemental schedule of assets (held at end of year) – modified cash basis, which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

DESCRIPTION OF PLAN

The following description of the Chem-Plate Industries, Inc. 401(k) Plan (the "Plan"), as established January 1, 2004 and amended April, 2012 provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is a defined contribution plan established for the benefit of eligible employees of Chem-Plate Industries, Inc. (the "Company"). Eligible employees are defined as those who have completed 6 months of service for the plan sponsor, prior to entry into the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is a qualified cash deferred arrangement, pursuant to Section 401(k) of the Internal Revenue Code, and provides for the following contributions, which are to be maintained in separate accounts for each participant:

(a) Salary Deferral Contributions – a participant may elect, on a pretax basis, to defer and contribute to the Plan for the year ended December 31, 2013, and for the periods April 1, 2012 to December 31, 2012 amounts not to exceed 90% of compensation, and for the period January 1, 2012 to March 31, 2012 salary deferral contribution amounts were not to exceed 100% of the employee's compensation for the Plan year, as defined up to a maximum of $17,500 and $17,000 ($23,000 and $22,500 for participants over the age of 50) for 2013 and 2012, respectively, adjusted annually for cost of living increases.

(b) Employer Discretionary Contributions – to be made at the discretion of the Company. These contributions are allocated based on the proportion that the total compensation, as defined of each participant bears to the total compensation of all participants. There were no employer discretionary contributions during the years ended December 31, 2013 and 2012.

(c) Rollover and Transfer Contributions – to be made by the employee from amounts distributed or transferred from other qualified plans. There were no rollover and transfer contributions into the Plan for the years ended December 31, 2013 and 2012.

Participants are immediately vested in their salary deferral contributions, employer discretionary contributions, and rollover and transfer contributions.

Participants' direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

Each participant's account is credited with (a) participant's elective contributions, (b) the matching or other contributions, and (c) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions and withdrawals (b) an allocation of the Plan's investment losses and value depreciation (c) plan administrative fees and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawals at the age of 59 ½ from all vested accounts.

DESCRIPTION OF PLAN (CONTINUED)

Participants may borrow from their fund accounts a minimum of $500 (reduced from $1,000 on April 1, 2012), up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts. Vesting of Employer Matching and Discretionary Contributions accounts for each participant is based on years of service, beginning with 20% after one year, with 100% vesting after 6 years of service.

Forfeitures of non-vested portions of participants' accounts, resulting from termination of employment before full vesting, are first used to pay administrative expenses, and then are reallocated to the remaining contributing participants as part of any employer matching contribution. During the years ended December 31, 2013 and 2012, there were no forfeited accounts.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are presented on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method, contributions and interest and dividend income are recorded when cash is received by the Plan and benefits and administrative expenses are recorded when cash is disbursed by the Plan.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective and fund. Contract value for this common/collective fund is based on the net asset value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the common/collective fund at fair value which approximates contract value at December 31, 2013.

Use of Estimates: The preparation of financial statements presented on the modified cash basis requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balances. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on the trade date. Interest and dividend income is recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of Benefits: Benefits are recorded when paid.

Subsequent Events: Management has evaluated subsequent events through June 26, 2014, the date the financial statements were available to be issued.

Units of common/collective funds	27,504	4,269
	$ 206,410	$ 132,242

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Units of Common/Collective Fund: Stated at estimated fair value which represents the net asset value of shares held by the Plan at year-end as determined by State Street. State Street computes the fair value of the fund based upon quoted market prices of the underlying securities held by the fund.

Shares of Registered Investment Companies: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

FAIR VALUE MEASUREMENTS (CONTINUED)

a) The SSgA Cash Series U.S. Government Fund (the "Fund") seeks to maximize current income, to the extent consistent with the preservation of capital and liquidity and the maintenance of a stable $1.00 per share net asset value ("NAV"), by investing in U.S. government securities and in repurchase agreements collateralized by U.S. government securities. The Fund is not a "money market fund" registered with the Securities and Exchange Commission, and is not subject to the various rules and limitations that apply to such funds. There can be no assurance that the Fund will maintain a stable net asset value.

b) The SSgA S&P 500 Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500® (the "Index") over the long term. The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index. From time to time SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index. The Portfolio Turnover Rate is 4.09%.

c) The SSgA S&P Mid Cap Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the S&P MidCap 400 Index™ (the "Index") over the long term. The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index. From time to time SSgA may purchase securities that are not yet represented in the Index or sell securities that have not yet been removed from the Index. The Portfolio Turnover Rate is 9.82%.

INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE OF THE PLAN

All investment and investment income information included in the accompanying financial statements and supplementary information was obtained from data that has been prepared and certified as being complete and accurate by State Street and Minnesota Life, the trustees.

PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of common/collective funds managed by State Street and pooled separate accounts managed by Minnesota Life, the plan trustees and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to State Street for the year ended December 31, 2013 and the period April 1, 2012 to December 31, 2012 were $500 and $575, respectively. Fees paid by the Plan to Minnesota Life the period January 1, 2012 to March 31, 2012 were $40. Certain administrative expenses incurred by the Plan are paid by the Company. Additionally, certain employees of the Company provide various services to the Plan. These employees are not compensated for these services from the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

TAX STATUS

For the year ended December 31, 2013, and for the period April 1, 2012 to December 31, 2012 the Plan follows a non-standardized form of a prototype plan sponsored by ADP, Inc. ("ADP"). The prototype plan has received an opinion letter dated March 31, 2008 from the Internal Revenue Service ("IRS") as to the prototype plan's qualified status. For the period January 1, 2012 to March 31, 2012, the Plan followed a prototype plan of the Minnesota Life Insurance Company ("Minnesota Life"). Minnesota Life requested that the Internal Revenue Service provide an opinion related to the acceptability of the prototype plan under applicable sections of the Internal Revenue Code ("IRC") and received a favorable opinion. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code ("IRC"), and therefore, believe that the Plan is qualified, and the related trust is tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

INVESTMENT CONTRACT WITH INSURANCE COMPANY

For the period January 1, 2012 to March 31, 2012 the Plan had an investment contract with the Minnesota Life. Minnesota Life maintained the contributions in pooled separate accounts. The accounts were credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. After March 31, 2012, the Plan no longer held investments in the pooled separate accounts.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
