Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

1. Description of the Plan

The following description of the Halfaker & Associates, LLC (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed one month of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Eligible participants may contribute up to the maximum amount allowed by the Internal Revenue Code. In addition, the Plan allows for catch up contributions by employees 50 years and older. Participants may also contribute amounts representing distributions from other qualified plans, as defined in the Plan's provisions. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching contributions equal to a discretionary percentage, to be determined by the Company's management. For the year ended December 31, 2013, the Company elected to match 100% up to 3% of each employee's elective deferrals during the Plan year. For the year ended December 31, 2013, the Company made matching contributions of \$147,900. Both employee and employer contributions are subject to the nondiscrimination requirements of the Internal Revenue Code.

Participant Accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, the Company's matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions and rollover contributions, as well as actual earnings thereon. Vesting in the Company's contributions is based on years of continuous service. A participant is 100% vested after five years of credited service or in the event of death or total and permanent disability.

Notes Receivable From Participants

Notes receivable from participants are not permitted under the Plan.

Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

Payment of Benefits

Upon termination of service due to death, disability, retirement or any other reason, a participant or beneficiary with an account balance of \$1,000 or greater may elect to receive either a lump sum payment or periodic payments. A participant with an account balance of less than \$1,000 is required to take a lump sum payment upon termination of service. For termination of service for other reasons, a participant may either directly roll over their vested balance to an individual retirement account or another employer plan, or receive the value of the vested interest in his or her account as a lump sum distribution.

Forfeitures

At December 31, 2013 and 2012, forfeited accounts totaled \$78,057 and \$20,387, respectively. Forfeited accounts are utilized first to reduce Plan expenses and second to reduce employer contributions. No forfeitures were used to reduce Plan expenses or to reduce employer contributions during the year ended December 31, 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements and supplemental schedule are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further information related to fair value measurements.

Purchases and sales of securities are recognized principally on a trade-date basis. Interest income is recorded on the accrual basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2012 excess contributions to the applicable participants prior to March 15, 2013.

Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Recently Adopted Authoritative Guidance

In May 2011, the Financial Accounting Standards Board (the FASB) issued guidance amending previously issued guidance on fair value measurements. The amendment was to converge the fair value measurement guidance in accounting principles generally accepted in the United States of America with that of International Financial Reporting Standards (IFRS). Certain amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in the originally issued guidance. The amended guidance also requires additional fair value disclosures, although certain of these disclosures are not required for nonpublic companies, as defined in the guidance. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Adoption of the guidance did not have an effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In December 2011, the FASB issued guidance enhancing disclosure requirements about the nature of an entity's right to offset and related arrangements associated with its financial instruments and derivative instruments. The new guidance requires the disclosure of the gross amounts subject to rights of set-off, amounts offset in accordance with the accounting standards followed, and the related net exposure. The Company adopted this new guidance on January 1, 2013. Adoption of this new guidance did not have a material impact on the accompanying financial statements.

Accounting Pronouncements Not Yet Adopted

In April 2013, the FASB issued guidance to clarify when an entity should apply the liquidation basis of accounting. In addition, the guidance provides principles for the recognition and measurement of assets and liabilities and requirements for financial statements prepared using the liquidation basis of accounting. Liquidation is the process by which a plan converts its assets to cash or other assets and settles its obligations with creditors in anticipation of ceasing all of its activities. A plan in liquidation must prepare its financial statements using a basis of accounting that communicates information to users of those financial statements to enable those users to develop expectations about how much the Plan will have available for distribution to participants after disposing of its assets and settling its obligations.

The new guidance requires a plan to prepare its financial statements using the liquidation basis of accounting when liquidation is "imminent." Liquidation is considered imminent when the likelihood is remote that a plan will return from liquidation and either: (a) a plan for liquidation is approved by the person or persons with the authority to make such a plan effective and the likelihood is remote that the execution of the plan will be blocked by other parties; or (b) a plan

Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

for liquidation is being imposed by other forces (e.g., involuntary bankruptcy). In cases where a plan for liquidation was specified in the plan's governing documents at inception, the plan should apply the liquidation basis of accounting only if the approved plan for liquidation differs from the plan for liquidation that was specified in the plan's governing documents. The new guidance is effective for interim and annual reporting periods beginning after December 15, 2013, with early adoption permitted.

4. Information Certified by State Street Bank and Trust Company

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company (State Street) has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

<i>December 31,</i>	2013	2012
Mutual funds	\$ 1,416,908	\$ 1,136,248

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

Accounting Standards Codification (ASC) 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the use of observable inputs when available. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: The Plan's investments in money market funds are valued at the NAV of shares held by the Plan at year end based upon quoted market prices.

Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

Collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013					
	Assets Measured At Fair Value	Fair Value Hierarchy Level

6. Related Party Transactions and Party-in-Interest Transactions

Certain investments held by the Plan are shares of mutual funds, a collective trust, and a money market account that are managed by State Street. State Street is the custodian/trustee as defined by the Plan and, therefore, transactions with these investments qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment.

7. Income Tax Status

Effective February 1, 2007, the Plan adopted a prototype plan sponsored by ADP Retirement Services. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013 there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years 2009 and prior.

Halfaker & Associates, LLC 401(k) Plan

Notes to the Financial Statements

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Partial Plan Termination and Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

During 2013, there was a partial plan termination due to one of the Company's contracts ending, which resulted in employees being terminated. As a result, subsequent to December 31, 2013, the Plan reinstated and vested the forfeitures of all affected participants and vested all affected Plan assets associated with the 2013 partial plan termination that were still included in the Plan participant accounts at December 31, 2013.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Form 5500:

Notes to the Financial Statements

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through September 19, 2014, the date the financial statements were available to be issued. The Plan Administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.
