PRECISION AEROSPACE CORPORATION 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 and 2012

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Precision Aerospace Corporation 401(k) Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

Effective November 1, 1984, Precision Aerospace Corporation (the “Company”) implemented a defined contribution plan. The Plan covers substantially all employees of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan has been amended from time to time to comply with current legislation and management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Eligibility

Employees are eligible to participate in the Plan on the first January 1, April 1, July 1, or October 1 following the attainment of age 18.

Contributions

Participants may make voluntary contributions to the Plan of up to 100% of their annual eligible compensation, but not in excess of the maximum amount permitted by the Internal Revenue Code. The Company may elect to make a matching contribution determined annually. There was no Company matching contribution during 2013 or 2012.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Participant accounts

Upon enrollment in the Plan, or at any time subsequent, a participant may direct contributions into any of the available investment options. Each participant's account is credited with contributions in an amount equal to the salary reduction elected by that employee and any related matching contribution. Earnings and administrative expenses are allocated based on the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Each participant's account is credited with voluntary contributions and an allocation of Plan earnings based on the participant's account balance. Participants are immediately vested in their elective deferral, plus actual earnings.

Employer matching contributions vest based on years of continuous service. Specifically, employer matching contributions are 0% vested until the participant completes three years of service. After three years of service, all employer matching contributions are 100% vested.

Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Repayment of loan principal and interest are made through regular payroll deductions for a period of up to 60 months. If a participant's employment terminates for any reason and the loan balances are not paid in full within 90 days of termination, the loan balances will be deemed distributed and become taxable income to the participant. Participants may continue to make loan repayments after termination of employment under procedures established by the Plan administrator.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Forfeitures

Forfeitures of non-vested Company matching or profit sharing contributions from terminated participant accounts are used to offset future Company matching contributions, future Company profit sharing contributions, or to pay expenses of Plan administration, as determined by Plan management. At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$4,739 and \$17,478, respectively.

Benefit Payments

Generally, benefits are paid to participants at termination. When the service period ends as a result of death or retirement, the participant or beneficiary will receive a lump sum distribution equal to the value of their accounts. Participants may elect to defer receipt of benefits. At December 31, 2013 and 2012, the Plan had obligations to terminated employees totaling \$623,319 and \$525,502, respectively.

Investment Options

All investments are participant directed among various Principal Life Insurance investment options at December 31, 2013 and 2012.

Administrative Expenses

Certain plan administrative fees are absorbed by the Company and certain administrative fees are paid by the Plan. Administrative fees paid by the Plan amounted to \$4,353 and \$3,040 during 2013 and 2012, respectively.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared under the accrual basis of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(CONTINUED)

Valuation of Investments

Investments are held with Principal Life Insurance Company, the Plan custodian, in registered investment companies, pooled separate accounts ('PSA'), and common collective trusts. Several plans participate in a PSA with each plan's share of the PSA determined on a per unit basis. The Plan's equity account provides a cumulative record of the number of participation units credited to the accounts and the number of units allocated or withdrawn from the account. The balance of participation units credited to the account multiplied by the current participation-unit value equals the amount of equity account assets held on behalf of the policyholder at any given time. The participation-unit value is adjusted daily to reflect investment results under the separate account.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date based on quoted market prices.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

PRECISION AEROSPACE CORPORATION 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 and 2012

NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of termination, the plan custodian shall hold the funds for distribution and distribute to the participants their full account balance on the date of such termination, less the administrative cost to the custodian for such distribution, in accordance with the Plan provisions.

NOTE 4 – TAX STATUS

The Company's Board of Directors adopted the Volume Submitter Profit Sharing 401(k) Plan document. The Plan document has received an opinion letter dated March 31, 2008 from the Internal Revenue Service stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain qualification.

Although the Plan has been amended since receiving the determination letter, management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified and the related trust is tax exempt.

The Plan has adopted the provisions of ASC Topic 740, *Income Taxes*, (formerly, FIN 48) relating to uncertain tax positions. ASC Topic 740 provides a consistent framework to determine the appropriate level of tax reserves to maintain for uncertain tax positions. Specifically, the Plan must recognize a tax liability (or asset) if the Plan has taken an uncertain position that *more likely than not* would not be sustained upon examination by applicable taxing authorities.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there were no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 and 2012

NOTE 5 – INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan holds benefit-responsive common collective trusts through Principal Stable Value Signature Fund ('Principal'). Principal maintains the contributions in a general account. The account is credited with contributions and earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 1, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attributable for that portion of the net assets available for benefits attributable to the common collective trust. Contract value, as reported to the Plan by Principal; represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the common collective trust investment contract held by Principal as of December 31, 2013 and 2012 was \$142,088 and \$161,495, respectively. The crediting interest rate is based on a formula agreed upon by the issuer. Such interest rates are reviewed on a periodic basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (i.e. divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption under ERISA.

The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Certain plan assets are in investment funds managed by Principal Life Insurance Company. Therefore, transactions with Principal Life Insurance Company qualify as party-in-interest transactions.

NOTE 7 – INVESTMENTS - UNAUDITED

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the custodian of the Plan, has certified the completeness and accuracy of all investment information reflected in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012, the 2013 schedule of assets held at year end, the related investment activity reflected in the statements changes in net assets available for benefits for 2013, and the following information:

Investments that represent 5% or more of the Plan's net assets at December 31, 2013 and 2012 are as follows:

NOTE 8 – FAIR VALUE OF FINANCIAL INSTRUMENTS

FASB ASC Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC Topic 820 requires fair value measurements to be separately disclosed by level within the fair value hierarchy.

The three levels of fair value hierarchy under ASC Topic 820 are described as follows:

Level 1: inputs to the valuation methodology are unadjusted quoted prices for *identical* assets or liabilities in active markets that the Plan has the ability to access.

Level 2: inputs to the valuation methodology include: quoted market prices for *similar* assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Valuation is generated from model-based techniques that use at least one significant assumption not observable in the market. These unobservable assumptions reflect the estimates of assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan held no Level 3 assets at December 31, 2013 or 2012. As a result, there are no changes in fair value of Level 3 assets to report for either year.

Registered investment companies are valued at the net asset value ('NAV') of shares held by the Plan at year-end.

Pooled separate accounts are valued at the current participation-unit value of units held by the Plan at year-end. The unit value is valued at the NAV of underlying variable portfolio fund shares held by the portfolio at year-end.

Common collective trusts ('CCT') are valued at the NAV of the underlying investments of the trust.
