DESCRIPTION OF PLAN

The following description of the Schawk, Inc. Retirement Savings Plan for Imaging Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan, established January 1, 1960, was created to provide retirement benefits for eligible employees, as defined, of Schawk, Inc. (the "Company"). Employees are eligible to make elective deferrals after completing one hour of service and attaining age 18. Effective January 1, 2008, employees are automatically enrolled in the Plan 30 days after they become eligible unless they affirmatively elect not to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is qualified cash deferred arrangement, pursuant to Section 401(k) of the Internal Revenue Code, and provides for the following contributions, which are to be maintained in separate accounts for each participant

- (a) Salary Deferral Contributions – A participant may elect, on a pretax basis, to defer and contribute to the Plan each year amounts not to exceed the lesser of 100% of compensation, as defined, not to exceed \$17,500 and \$17,000 (\$23,000 and \$22,500 for participants over the age of 50) for 2013 and 2012, respectively, adjusted annually for cost of living increases.
- (b) Employer Matching Contributions - to be made at the discretion of the Company, determined each year by the Company on the basis of \$1 for each \$1 of salary deferral contributions each year based on the Company attainment of the following EBITDA targets and limitations:
 - a.) Less than \$40 million: No match
 - b.) \$40 million to \$50 million: Match up to 1.5% of compensation
 - c.) \$50 million to \$60 million: Match up to 2.25% of compensation
 - d.) Over \$60 million: Match up to 3.00% of compensation

In each case, compensation is subject to the statutory limit, which is \$255,000 and \$245,000 for 2013 and 2012, respectively.

- (c) Employer Discretionary Contributions – to be made at the discretion of the Company. There were no employer discretionary contributions for the years ended December 31, 2013 and 2012.
- (d) Rollover and Transfer Contributions - to be made by the employee from amounts distributed or transferred from other qualified plans.

Participants' direct the investment of their contributions into various investment options offered by the Plan. Participants may change their investment options daily.

DESCRIPTION OF PLAN (CONTINUED)

Each participant's account is credited with (a) the participant's elective contribution, (b) the matching or other contributions, and (c) an allocation of the Plan's investment earnings and appreciation in the value of its investments. Account balances are decreased for (a) distributions or withdrawals, (b) an allocation of the Plan's investment losses and value depreciation and (c) plan administrative fees and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payments of benefits are made to participants or their beneficiaries upon death, retirement, disability or, at the option of the employee, termination of employment. Benefits are payable in a lump sum or by other methods as described in the Plan agreement. The Plan also permits hardship withdrawals from a participant's deferral contribution account and in-service withdrawals at the age of 59-1/2 from all vested accounts.

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Participants are immediately vested in their Salary Deferral Contributions and Rollover and Transfer Contributions accounts plus actual earnings thereon. Vesting of Employer Matching and Discretionary Contributions accounts for each participant is based on years of service, beginning with 20% after two years, with 100% vesting after 6 years of service.

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$558,539 and \$233,420 respectively. These accounts may be used to further reduce employer contributions. In 2013 and 2012, employer contributions were reduced by \$275,000 and \$225,000, respectively by forfeited nonvested accounts.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements are presented on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under this method, contributions and interest and dividend income are recorded when cash is received by the Plan and benefits and administrative expenses are recorded when cash is disbursed by the Plan.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective fund. Contract value for this collective fund is based on the net asset value of the fund as reported by the investment advisor. The statement of net assets available for benefits presents the fair value of the investment in the collective fund as well as the adjustment of the investment in the collective fund from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis for the common/collective fund. At December 31, 2013 and 2012, contract value approximated fair value.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates: The preparation of financial statements presented on the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balances. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on the trade date. Interest and dividend income is recorded when received. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits: Benefits are recorded when paid.

Subsequent Events: Management has evaluated subsequent events through September 15, 2014, the date the financial statements were available to be issued.

FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Units Common/Collective Fund: Stated at estimated fair value which represents the net asset value of units held by the Plan at year-end as determined by Bank of America. Bank of America computes the fair value of the fund based upon quoted market prices of the underlying securities held by the fund.

FAIR VALUE MEASUREMENTS (CONTINUED)

Shares of Registered Investment Companies: Valued at quoted market prices which represent the net assets value ("NAV") of shares held by the Plan year-end.

Self Directed Brokerage Accounts: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

FAIR VALUE MEASUREMENTS (CONTINUED)

- (a) This category currently includes investments in mutual funds that invest in debt obligations issued or guaranteed by the U.S. Government or its agencies, debt obligations of U.S. or foreign companies, mortgage and asset backed securities or similar investments. The fair values of any mutual fund investments in this category are valued daily using the net asset value per share of the investments.

For each of the above, management of the funds has the ability to shift investments as long as the underlying investment meets the criteria mandated by the investment objectives and restrictions contained within the portfolio guidelines. These guidelines require that, at a minimum, the investments selected must meet the then current credit rating and diversification requirements of the fund manager.

INFORMATION PREPARED AND CERTIFIED BY TRUSTEE OF THE PLAN

All investment and investment income information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as being complete and accurate by Bank of America, the trustee.

PARTIES-IN-INTEREST TRANSACTIONS

Certain plan investments, were units of common/collective funds managed by Bank of America, the plan trustee and, therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan to Fidelity for the years ended December 31, 2013 and 2012 were \$2,338 and \$9,075, respectively. Certain administrative expenses incurred by the Plan are paid by the Company. Additionally, certain employees of the Company provide various services to the Plan. These employees are not compensated for these services by the Plan.

PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

TAX STATUS

The Plan follows a non-standardized form of a prototype plan sponsored by Bank of America. The prototype plan has received an opinion letter dated February 13, 2012 from the Internal Revenue Service ("IRS") as to the prototype plan's qualified status. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code ("IRC"), and therefore, believe that the Plan is qualified, and the related trust is tax exempt. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
