NOTES TO FINANCIAL STATEMENTS

December 17, 2012 and December 31, 2011

NOTE A – DESCRIPTION OF PLAN AND PLAN TERMINATION

The following description of the Focus HR, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was a multi-employer plan that covered Focus HR, Inc. (the "Company") and other employers in Southern Arizona (the "Employers"). The Plan was a defined contribution plan that covered substantially all full-time employees of the participating Employers who had satisfied certain eligibility requirements such as age and years of service. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Termination

Effective December 1, 2012 the Plan was terminated. Participating employers and their employees participating in the Plan could choose between having their account balances distributed or transferred to successor single employer plans. All distributions relating to the termination were completed by December 17, 2012.

Contributions

Participants could contribute through payroll deductions, up to \$17,000 – the maximum amount allowed by law in 2012, to the Plan, all of which were contributed on a pre-income tax basis. Participants who were 50 years or older could contribute up to an additional \$5,500. The employers could make a basic or safe harbor, when applicable, matching employer contribution on behalf of each participant.

The Plan provided for investment elections among different types of investment funds and participants could change their investment elections.

Participants were no longer permitted to make contributions subsequent to December 1, 2012.

Participant Accounts

Each participant's account were credited with the participant's contribution and allocation of (a) any Company contributions and (b) Plan earnings. Allocations were based on participant contributions, and participant compensation and/or account balances, as defined in the plan documents. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account balance.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts was based on years of credited service. Each employer chose its vesting schedule up to a maximum of six years of credited service.

All participants became fully vested on December 1, 2012.

Payment of Benefits

On termination of service, a participant could request a lump-sum amount equal to the value of his or her vested account. For accounts with values less than \$5,000, the lump sum could be distributed without the participant's consent.

NOTE A – DESCRIPTION OF PLAN AND PLAN TERMINATION (continued)

Expenses

Certain administrative expenses of the Plan were paid from Plan assets. Certain other administrative expenses were paid by the Company and certain administrative services for the Plan were provided by the Company at no charge.

Notes Receivable from Participants

Participants could borrow from their participant accounts the lesser of \$50,000 or 50% of their vested account balance. Loan terms ranged from 1 – 5 years except for the loans used to purchase of a primary residence, which could have been repaid over more than 5 years. The loans were secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Trustee. Principal and interest were paid ratably through payroll deductions or by check.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements were prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Net Appreciation (Depreciation) in Fair Value of Investments

The Plan presented, in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of its investments, which consisted of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

Payment of Benefits

Benefits were recorded when paid.

Income Tax Status

The trust established under the Plan to hold the Plan's assets was qualified pursuant to the appropriate section of the Internal Revenue Code, and accordingly, the trust's net investment income was exempt from income taxes. The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan had been amended, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the internal revenue service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 17, 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Investment Valuation and Income Recognition

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded as earned. Dividends were recorded on the ex-dividend date. Investment expenses were recorded as a reduction in investment earnings.

Accounting principles generally accepted in the United States of America establish the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under accounting principles generally accepted in the United States of America are described below:

<i>Level 1</i>	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
<i>Level 2</i>	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the assets or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
<i>Level 3</i>	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used needed to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Forfeitures

Forfeitures are the non-vested portion of participant account balances for terminated participants. Forfeitures of terminated participants non-vested accounts were first used to pay administrative costs of the plan and then to reduce the employer contribution for the plan year in which the forfeiture occurred or for a future plan year.

Notes Receivable from Participants

Participant loans were classified in the accompanying financial statements as notes receivable from participants and were measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income was recorded on the accrual basis.

NOTE C – FAIR VALUE MEASUREMENTS

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that could not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 17, 2012 and December 31, 2011:

<u>Investments at Fair Value as of December 17, 2012</u>				
	Level 1	Level 2	Level 3	Total

Fixed income funds	\$ -	\$ 604,533

Target date funds	-	71,334
Index funds	-	77,159
	<u>\$ -</u>	<u>\$ 2,207,322</u>

NOTE D – INVESTMENTS

At December 31, 2011, the Plan's participant directed investments were held in mutual funds by Nationwide Life Insurance Company. The following table presents the fair value of the underlying investments at December 31, 2011 that were greater than 5% of net assets available for benefits.

<u>2011</u>	<u>Fair value</u>
Mutual funds:	
Nationwide Money Market Fund- Institutional	\$422,998
American Funds – EuroPacific Growth Fund Class R3	141,630

As of December 17, 2012 all the Plan's assets had been distributed. The Plan's investment values and investment earnings had been certified by Nationwide Life Insurance Company for the period from January 1, 2012 to December 17, 2012.

NOTE E – RELATED-PARTY TRANSACTIONS

Certain Plan investments consisted of shares of registered investment companies managed by Nationwide Life Insurance Company. Nationwide Life Insurance Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS - *CONTINUED*

December 17, 2012 and December 31, 2011

NOTE F – UNAUDITED INFORMATION CERTIFIED BY THE TRUSTEE

The following unaudited information in the Plan's financial statements and supplemental schedule was certified to be complete and accurate by the Plan's Trustee, Nationwide Life Insurance Company, within the meaning of 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- All amounts reported as mutual funds in the Statements of Net Assets Available for Benefits as of December 17, 2012 and December 31, 2011.
- All amounts reported as net appreciation in fair value of mutual funds and interest income in the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2012 to December 17, 2012.
- All amounts reported in Notes C and D.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

NOTE H – CORRECTIVE CONTRIBUTIONS

As of December 17, 2012, the Company owed several participants a total of approximately \$1,436 in corrective contributions, as a result of failure to execute participants' election to defer amounts to the Plan.

NOTE I – SUBSEQUENT EVENTS

Accounting principles generally accepted in the United States of America require the disclosure of the date through which subsequent events were evaluated when determining whether adjustment to or disclosure in the financial statements is required. However, the guidance does not change the definition of a subsequent event (i.e. an event or transaction that occurs after the balance sheet date but before the financial statements are issued). The Plan administrator has evaluated subsequent events through June 17, 2014 which represents the date the accompanying financial statements were available to be issued.
