BIOLOGICS, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements

December 31, 2013 and 2012

(1) Description of Plan

The following description of Biologics, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants in the Plan should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan became effective on January 1, 1997 as a 401(k) profit sharing plan. The Plan is sponsored by Biologics, Inc. (the "Company"). The Plan covers all full-time employees of the Company, who are at least age 21 and have one month of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective November 1, 2013, the Plan adopted a Fidelity Volume Submitter Defined Contribution Plan. As of that date, all assets of the Plan were transferred from Lincoln Financial Group to Fidelity Management Trust Company, as trustee.

(b) Contributions

Each year, participants can elect to defer a percentage of their compensation into the Plan, not to exceed the limits of the Internal Revenue Code. The Company has elected to make a nonelective safe harbor employer contribution equal to 3% of compensation for each eligible participant.

The Company can also elect on an annual basis to make a discretionary matching contribution equal to a percentage of the eligible contributions made by each eligible participant during the year. During 2013, no discretionary matching contributions were made.

Participants can deposit "rollovers" (distributions from other qualified plans) into the Plan.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contributions and Plan earnings (losses). Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are 100% vested in the salary reduction and safe harbor amounts contributed to the Plan. Vesting in the Company's discretionary contribution portion of their accounts is based on their years of continuous service. Vesting for discretionary contributions begins in the second year of service and vests at the rate of 20% per year so that participants are 100% vested in such contributions after six years of service.

December 31, 2013 and 2012

(1) Description of Plan, Continued

(e) Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in a variety of investment options.

(f) Payment of Benefits

Generally, participants become eligible to receive benefits on their normal retirement age (65), death, disability, termination of employment, or reasons of proven financial hardship. Participants may receive 100% of their account balance in substantially equal installments or a lump sum. As of December 31, 2013, no amounts had been allocated to the accounts of participants who have elected to withdraw from the Plan, but have not been paid.

(g) Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts will be used to reduce future Company matching contributions. As of December 31, 2013, forfeitures totaling \$1,444 were available to reduce future Company matching contributions.

(h) Participant Loans

Participants are not permitted to borrow from their individual fund account.

(2) Summary of Significant Accounting Policies

(a) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for plan benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(b) Fair Value Measurements

For determining fair value measurements, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Management follows an established framework for measuring fair value. That framework provides a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

(2) Summary of Significant Accounting Policies, Continued

(b) Fair Value Measurements, Continued

The three levels of inputs that may be used to measure fair value are described below:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: one or more significant inputs or significant value drivers that are unobservable or based on market assumptions

(c) Investment Valuation and Income Recognition

Investments in mutual funds managed by the Plan's trustee are valued on the last business day of the year based on the current market values (quoted prices in active markets) of the funds.

Investments in pooled separate accounts are reported at fair value based on net asset values provided by Lincoln National Life Insurance Company ("Lincoln").

The Plan presents in the statement of changes in net assets available for plan benefits the net appreciation (depreciation) in the market value of its investments which consists of realized gains or losses and the unrealized appreciation (depreciation) on investments held at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Payment of Benefits

Benefits are recorded as expense when paid.

(3) Administrative and Investment Costs

The Company paid for certain administrative expenses on behalf of the Plan for 2013. These amounts are not included in the statements of changes in net assets available for plan benefits. Beginning November 1, 2013 investment management fees are charged to the individual funds in the Plan and are included in the net appreciation (depreciation) in the fair value of investments.

(4) Federal Income Taxes

The Plan's trustee has received an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the form of the prototype plan which the Company has adopted is acceptable under the applicable requirements of the Internal Revenue Code for use by employers for the benefit of their employees. Therefore, no provision for income taxes has been included in the financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by relevant taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years ended December 31, 2010 to December 31, 2013 remain open for examination by taxing authorities as of the date of this report.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

(8) Related Party Transactions

As of December 31, 2013 and 2012, the Plan had employer and employee contributions receivable from the Company of \$59,161 and \$42,106 (compiled), respectively. Both amounts were paid to the Plan in the following year.

Certain Plan investments are shares of mutual funds managed by the trustee of the Plan and, therefore, such transactions qualify as party-in-interest transactions.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

(10) Subsequent Events

The date to which events occurring after December 31, 2013, the date of the most recent statement of net assets available for plan benefits, have been evaluated for possible adjustment to the financial statements or disclosure is September 25, 2014, the date the financial statements were available to be issued.
